Irish Clergy Exempt.

The government has announced that the Irish Dominican fathers and nuns, who have conducted a school here for many years, will be exempted from the order of expulsion. This step doubtless is due to the desire of the Republicans to keep on good terms with Great Britain.

It is said that Foreign Minister Machado has requested Great Britain to grant immediate recognition to the new regime, ostensibly so that it will be in a position to communicate its full programme to the British government.

Casualty List Not Large.

The casualty list from the recent fighting falls below the most moderate estimates. The official estimate gives the number killed as between 100 and Unofficial estimates place the number still lower.

One of the plans attributed to the organtzers of the revolution was to bring off the coup d'etat on October 5, when King Manuel was visiting the Premier in the northermost province of the kingdom. It was arranged that the train bearing the King should continue through the frontier and the soldiers would prevent the King from reentering Portugal.

Ministers Were to Be Taken.

In the meantimer the ministers who had assembled in a body at the station to see the King off, were to be surrounded and arrested after the depar-ture of the train. The republic was then to be proclaimed.

The provisional government has taken possession of the houses of several religious bodies. No opposition was met. The contents were inven-toried and the houses scaled. It has been decided to issue a decree

enforcing compulsory military service.

Brazillo Telles has declined the portfolio of finance and the duties of this post have been temporarily undertaken by Foreign Minister Machudo. Event-ually Jose Reivas probably will be appointed to this office.

MONKS FLOCK TO FRONTIER

Spanish Government Will Seek to drew the charge. Prevent Invasion.

MADRID, Oct. 11.—Spanish monks and nuns who have fled from Lisbon are arriving at Vigo, Badajog and other points on the frontier. At Bada-joz, on the order of a bishop, the nuns are secreted at the Carmellte convent. Owing to pending legislation af-fecting the religious orders, the influx of refugees is embarrassing to the Spanish Government. Premier Canalejas said today that

the government was moved to pity to receive the exiles, but that a perma-nent invasion could not be tolerated.

OLYMPIA, Wash., Oct. 11.—(Special.)

says the Johnson-Jeffries pictures cannot be shown in Olympia Friday night, as scheduled, but the promoters are now trying to show them at Tumwater, which

is easily reached by streetcar from Olym-

by a delegation asserting that it represented the Olympia Ministerial Associa-tion and the Olympia School Board. The delegation demanded that he refuse to let the pictures be shown. Mayor Har-ris, who is a candidate to succeed him-self as Mayor at the Fall election, late

in the afternoon decided to put the ban on them.

This set the showmen to work and they say the Mayor of Tumwater, an Olympia suburb, will have no such qualms concerning the morals of Tumwater.

> Naming of Committees Monopolizes Interest of Those Who Will Draft Laws.

PHOENIX. Arizona, Oct. 11.—Two rief sessions of the constitutional con-ention permitted little to be done today beyond the developing of a dif-ference of opinion among the delegates reintive to the degree of elasticity with which to endow the rules which shall

The rules committee debated the question all day and meantime the interest of the delegates centered upon the personnel of the committees which

Second only to these in importance is the committee on matters for separate submission. This committee will have charge of the state-wide prohibition matter.

Delegates who favor a prohibition ar ticle in the constitution made an effort to procure the appointment of a com-mittee on liquor traffic today, but did not succeed. An effort also was made to increase the membership of the judiciary committee by the addition of 1: or 14 lawyers who are delegates. This was opposed by members who want to

keep all lawyers off the committees. It will soon be shown whether the anti-lawyer arguments make any impression. Frank de Sousa, a Phoenix newspaper man, was chosen today as assistant clark of the committees. man, was chosen toda clerk of the convention.

Mr. Ferguson introduced a minority report of the committee on rules, signed by the Democratic members of the com-mittee. This report falled of adoption. Efforts of Women to Have. Sentence Suspended in Vain, and Judge Gives Him Two Years.

SAN FRANCISCO, Oct. 11 .- (Special.) -William Kunze, who first attracted public attention some months ago by stealing the Millet picture from the Golden Gate Park gallery, appeared in Judge George Cabannis' department of the Superior Court today and in spite of the pleading of women and the suggestions of Assistant District Attorney Layne, was sentenced to serve two years in state prison.

The women assured the judge of their belief that Kunze's violation of his parole, consisting of stealing saws, was due to hunger, and promised that if the court would let the probationer go once more they would see to it that he never would suffer hunger again.

Judge Cabannis declared that to do such a thing might have a very bad effect on the thirty other probationers, giving them the idea that they might be let off oasily. He then turned to Kunze and asked him how he got to San Francisco from Oakland to steal the tools. The culprit admitted that he had ridden on
