

WESTS REJECTED BY PARTY LEADERS

Democrats Resent Obvious
Attempt of Bourne to Ex-
ercise Control.

DISCONTENT IS GENERAL

Chairman of County Committee In-
vites Members of Party to Return
and Urges Republicans to Aid
in Establishing Line.

Are Multnomah County Democrats going to support Oswald West, head of the Democratic state ticket? This is a question upon which Republicans are now beginning to wonder as they hear mutterings of discontent in the Democratic fold.

"West is a creature of Bourne's," Bourne has professed to be a Republican. He is allied with Chamberlain, avowedly a Democrat. The three are working to further their own selfish interests and do not seem to care a snap for the rest of the ticket. So why support West?"

Democratic Leaders Protest.

That is the way leading Democrats are summarizing the present situation. "I have been a Democrat all my life. I will support the whole ticket—except the Bourne-Chamberlain Company's man Friday, Oswald West," was the way one of the most prominent Democrats in Oregon put the matter yesterday.

The discontent is by no means confined to a few. The spirit of resentment against the Bourne-Chamberlain-West combine is to be found on every hand in the county. And the infection is said to have spread throughout the state.

"I am a Democrat, as everyone knows," said another prominent party man, "but November 8 I am to be called on to cast a vote which will help decide whether Oregon is to have an Oregon boy for Governor, or a foreigner who wasn't yet naturalized while the other was serving his country as a volunteer artilleryman in the war with Spain. It will not be difficult for me to make a choice."

Thomas Pleads for Votes.

Affording an insight into the Democratic attitude on the Chamberlain-Bourne-West combine is a statement issued yesterday by George H. Thomas, chairman of the Democratic County Central Committee. In the statement Mr. Thomas by no means refers to Democratic dissent, but he calls on every Democrat to return to the fold and quit meddling in Republican affairs. The Democratic chairman's statement opens with a fling at the Republican party, but quickly gets down to home troubles. The document follows:

"An assembly created the Republican party. The assembly system has maintained that party during all its years. Did the Republicans throw down the Republican party or did they down the assembly in the primaries of last month? Is there a remnant? If so, by what name do Republicans designate that remnant?"

Republican Aid Asked.

"The Oregonian believes that thousands of Democrats are registered as Republicans. The personnel of the late Republican assembly and the number of former Democrats holding office today as Republicans in this city and state, proves that these active old-time Democrats dominate and now control the policies of the Republican hosts in Oregon. If the integrity of Republican principles is to be preserved this Democratic leadership of the Republican party must be repudiated now or later; and the sooner a bad job is over the better."

Therefore the Democratic organization urges all Republicans, where possible, to unite with it in inviting former Democrats to return to the fold where they belong."

DINNER TO BE BIG AFFAIR

Several Thousand Republicans Invited to "Get Together" October 22.

Arrangements are being perfected for the get-together Republican dinner to be held at the Commercial Club the night of October 22. Several thousand invitations were issued yesterday by the committee on arrangements, Dr. Emmet Drake, A. G. Rushlight, W. I. Cottel and W. R. Apper-

The dinner will be a \$2 a plate affair and will be attended by prominent Republicans from all over the state.

STATE CANDIDATES TO MEET

Notice of Conference Sent Out by Republican Secretary.

All Republican candidates for state offices have been called to meet to-night at Republican headquarters in the Commercial Hotel. Campaign plans will be taken up and the necessity of a co-operative campaign impressed upon all candidates.

Formal notifications of the meeting have been sent out by Secretary Mason to every candidate in the state. A full attendance is looked for.

BOWMAN ITINERARY MADE

Nominee Will Speak in 26 Places After Present Trip.

The complete campaign itinerary of Jay Bowman, Republican direct primary nominee for Governor of Oregon, was announced yesterday from headquarters of the Republican State Central Committee.

The itinerary provides for the appearance of Mr. Bowman in practically every city of importance in Oregon, not already visited by him in his campaign. Twenty-two places will be visited by him after he returns from his present Eastern Oregon trip.

He will reach Portland tomorrow from Pendleton, where he is to make an address tonight. After a few hours here he will proceed to Ashland, and on Sunday will visit Medford, Jacksonville, Central Point and Gold Hill.

He will speak next Monday at Grants Pass, Tuesday at Roseburg, Wednesday at Cottage Grove and Eugene, with side trips by automobile to Junction City and Harrisburg. Speeches will be made Thursday at Brownsville and Albany, Friday at Corvallis and Saturday at Oregon City.

He will spend Sunday of the week of October 23 at Portland. Monday at Hillsboro, Tuesday at Forest Grove, Wednesday at McMinnville, Thursday at The Dalles, Friday at Rainier, Saturday

at Astoria and will return Sunday, October 29, to Portland. The remaining days of the campaign will then be devoted to Multnomah County, unless the committee decides on a change of campaign plans.

Reports received at Republican headquarters from his Eastern Oregon tour indicate that Mr. Bowman is making a decided impression and is winning over even staunch Democrats, who resent the use to which Jonathan Bourne is putting the Democratic party.

MRS. J. D. HAYES IS DEAD

Well-Known Clubwoman Succumbs to Injuries of Three Years Ago.

After a serious illness of several months Mrs. J. D. Hayes died at the Good Samaritan Hospital Tuesday night.

Two years ago, when attending the biennial convention of the General Federation of Women's Clubs at Boston, Mrs. Hayes went to Newport, R. I., for a clam-bake given by the clubwomen of Rhode Island to the Boston visitors, and was in

Mrs. J. D. Hayes, Well-Known Clubwoman, Who Died Yesterday After Illness of Three Years.

a party that met with a serious accident, two of the number being killed. While not considered seriously hurt at the time, Mrs. Hayes never entirely recovered from the shock, and Bright's disease, from which she died, developed three months ago.

Four women in Portland enjoyed a larger circle of acquaintances and warm friends than Mrs. Hayes. Beside being an active member of the Women of Woodcraft, she was prominent in club circles. She was a charter member of the Tuesday Afternoon Club, in which she had held several offices. She was also for many years a member of the Woman's Club. But where she was perhaps best known was in the club work of the state, serving when she died her fifth year as corresponding secretary of the Oregon Federation of Women's Clubs.

In this capacity she came in touch with hundreds of women throughout the state, with all of whom she was popular. Mrs. Hayes is survived by her husband, J. D. Hayes, her mother and father, and several brothers and sisters.

The funeral services will be held from Finley's undertaking parlors Thursday at 2 P. M. Interment will be at Riverview, where the Women of Woodcraft will have charge of the service.

PATROLMAN TO BE TRIED

Man Arrested in Front of Orpheum Theater Files Complaint.

Charges of exceeding authority were filed yesterday with the members of the police committee of the Executive Board against C. E. Shaffer, a patrolman, by Adolph Abendroth, a painter, whom that officer arrested in front of the Orpheum Theater the night of May 23. The charges are brought despite the fact that a plea of guilty was entered in Municipal Court the morning after the arrest and that a fine of \$10 was paid.

Hearing of the charges against Shaffer will take place as soon as Police Captain Slevor returns from his vacation, and the hearing will be the first under an order of the Executive Board, adopted several months ago, whereby trials of officers below the rank of captain are held before a board composed of the Chief of Police and his captains.

Shaffer bears an excellent reputation on the force. He was for a long time on a beat in the shopping district and has recently been engaged in plain clothes work. He has borne a prominent part in the late fight against disorderly gangs.

Abendroth was intoxicated at the time of his arrest and was questioned by Shaffer as to his purpose in standing in front of the theater. The officer had been cautioned to look out for pickpockets, there being a circus in town at the time. Abendroth refused to answer questions and put up a fight when arrested. He struck Shaffer twice and it was necessary to handcuff him to take him to the station.

CHAIN GANG TO BE FORMED

Linnton Quarry Crowded, County Plans to Work Road Force.

Multnomah County is to have a chain gang. County Judge Cleaton, County Commissioner Lightner and Road Supervisor Chapman visited the Linnton quarry yesterday, the report having been made that it was so crowded with prisoners there was room for no more. They found 192 prisoners there, although there were 120 at work at the quarry early yesterday morning.

The County Judge and Commissioner Lightner have concluded to establish a camp for 20 or 30 men at Rocky Point, seven or eight miles below Linnton on the St. Helens road. From there the men will be worked on the road running to Scappoose. The only cost to the county above what the present cost is, will be for the extra guards and a shack.

Final Court Session On.

SALEM, Or., Oct. 12.—(Special.)—Judge George H. Burnett, of Department No. 1 of the State Circuit Court, Republican candidate for the Supreme Bench, is holding his final criminal term with J. Macy as bailiff. Macy presided as bailiff for Judge Burnett when he first sat as Circuit Judge 18 years ago.

A Reliable Medicine, Not a Narcotic.

Polley's Honey and Tar is the greatest medicine for coughs, colds and all affections of the throat, chest and lungs. It is a safe and sure family medicine. It is sold by all druggists. It has never received one line of unfavorable comment or condemnation and has an immense and ever-increasing sale. Buy only the genuine Polley's Honey and Tar in the yellow package. Remember the name, Polley's Honey and Tar, and accept no substitute. Sold by all druggists.

CIRCULAR EXTOLS BOWMAN'S STAND

Republican State Central Com-
mittee Bids All to Scan
His Record.

ACTS AS GOVERNOR CITED

Party Chiefs Recount Promises of
Gubernatorial Candidate and
Point to Him as Economical,
Tie-Free Official.

In a circular issued yesterday by the Republican State Central Committee and addressed to the voters of the state, some of the more important issues upon which Jay Bowman is making his campaign for Governor are presented. His record as Acting Governor is also dealt with in some detail, and the views of the Republican direct primary nominee on economy in the administration of public affairs are set out.

The circular, bearing the signatures of C. W. Nottingham and Sam R. Mason, Jr., chairman and secretary, respectively, of the committee, follows:

"Jay Bowman, who was nominated at the direct primary as the Republican candidate for Governor, has been Acting Governor since June by virtue of his office as president of the State Senate."

"As Governor he has performed no public service or private act for which he, his friends, the Republican party or the people of the state need feel ashamed. He has found that a saving nearly equal in amount to the combined salaries of all the elective state officials can be effected by the purchase in wholesale lots by competitive bidding for the supplies of all the state departments and institutions instead of separately."

Supply Committee Urged.

"It elected Governor Bowman proposes to create a supply committee from among state officials for which service they need not receive extra compensation. This committee is desired by Mr. Bowman as a part of his administrative household because the reason for its creation as economy and economy and a business administration are cardinal principles championed by the Republican candidate."

"It has been demonstrated that a saving of from 12 to 77 per cent can be effected by such a committee. The announcement that his policy of making purchases, which is in tune with the best methods of modern business procedure, has united certain contractors and those who have lived by petty public service in a determined effort to defeat Mr. Bowman, who has so effectively proved and demonstrated his right to be called 'Economy'."

Corporation Allegiance None.

"Those who know Mr. Bowman need no refutation of the untrue, unjust and scandalous charges that he is the candidate of the corporations. Those who do not know him need only, if they are fair to him, to know that he and to give a thought to his platform of principles which he has repeatedly announced through the press and public speeches. That he favors the consolidation of boards and commissions in state government wherever possible or practicable and the elimination of useless commissions is well known. That he favors and will, as Governor, urge a public utilities commission or the extension of the powers of the Railroad Commission to supervising the conduct of all public service corporations—gas, electric light, street railways, water and other concerns after the plan of the beneficial Hughes New York Commission, is equally well known. That he favors such an indemnity act as will be fair to both employer and employee, recognizing the rights of the workmen, one of whom Mr. Bowman has been all his life, is or should be equally well known. Governor Bowman's plan of fair and just treatment of employees, patterned after the Oklahoma law, by which a man cannot be discharged unless a reason be given and an opportunity granted him to face his accuser, has been publicly announced."

Direct Primary Upheld.

"Upon this platform, coupled with the fact that Mr. Bowman is the direct primary candidate of the Republican party and that the gentleman has constantly reiterated his statement that as Governor he will veto any law which changes the primary law (which includes Statement No. 1) as enacted by the people, few voters will deny Mr. Bowman the support if they hold the purity of state government and an honest, economical business, as well as progressive, administration paramount, against unsupervised and untruthful statements of a rival candidate, the followers of the Senatorial machine whose creature and protege he is, certain of the controlled press and venal henchmen whose jobs alone keep them loyal to the only political machine now in existence in the state."

SHAPIRO BLAMES RIVALS

Instigation of Strike by Competitors in Business Charged.

A. Shapiro, part owner and manager of the Spring Valley Wine Company, the fulfillment of a contract with which on the part of the Mount Hood Brewing Company was responsible for the strike at the plant of the latter company, declared yesterday that he had refused to operate his plant on a union basis after having signed the scale because the union demanded the discharge of one of his

drivers after refusing him admission to the ranks of organized labor.

Mr. Shapiro said that this man was driving a route in competition with the secretary of the Drivers' and Bottlers' Union, O. B. Fort, and that he was not admitted to the union. Shapiro also said that the union men tried to "run" his business, and that their action in compelling him to sign the scale and causing him other trouble was instigated by competitors.

Pendleton Residence Looted.

PENDLETON, Or., Oct. 12.—(Special.)—A daring daylight house burglary was committed in this city yesterday, when during the forenoon and in the absence of all members of the family, thieves en-

tered the home of William Roesch and took jewelry and clothing worth several hundred dollars. The Roesch residence is located in the center of a fashionable residence section.

TEST RIDE IS SCHEDULED

Eight Army Officers to Start on Trip Today.

Eight officers, representing the artillery, cavalry, infantry and engineer branches of the United States Army, will depart in company from the Washington landing of the Vancouver ferry at 8:30 o'clock, this morning on a test ride of 90 miles.

clution of the ride, which will terminate Saturday, the officers will be examined.

It is planned to cover 90 miles in seven hours the second day. Camp will be made at Sandy, 90 miles from the post, and tomorrow the officers will ride a distance of 15 miles and return. On the 30-mile stretches it will be necessary for active riding to be continued in order to arrive within the time limit. But having strong regard for the horses used, the War Department has specified that 30 minutes rest must be given the mounts every hour.

Rhode Island "Dry" Nominate.

PROVIDENCE, R. I., Oct. 12.—Rhode Island Prohibitionists today nominated Nathaniel C. Green, of Warwick, for Governor.

This Is Not a Gold Mine Stock Selling Game

This is the mine itself—the kind referred to by The Oregonian on October 3—requiring only a little money to make it a MIGHTY PRODUCTIVE PROPERTY. It is not a mine of "colonels" and "majors" and "honorable," but a property owned and managed by Portland men who have been working like beavers to get it in position so that they could conscientiously go before the public and to their friends and say, "Come

in with us, help us equip the property and share with us in the fruits of its production!" WE FIRST MADE THIS A MINE, AND NOW WE ARE GOING TO SELL SUFFICIENT STOCK TO MAKE IT A MIGHTY HEARTY DIVIDEND PRODUCER, and not a share more. We must have a concentrating mill, several machine drills and some other equipment, and to avoid the poly method of running around here and there in search of buyers, consuming months of time,

We Are Paying The Oregonian to Carry Our Message to the People

The paper will speak to more persons in ONE day than we could otherwise reach in SIX months, and we want YOU to know that EVERY word it is saying in this advertisement is TRUE! It is TRUE that we have owned this property only 51 weeks, and in that time have completed 568 feet of tunnel work, an 80-foot drift and 55 feet of upraises. This development has shown us that we HAVE A MINE OF AMPLE RICHNESS TO PAY OUR STOCK-HOLDERS AT LEAST 200 PER CENT ON THEIR INVESTMENTS, and we believe, even larger profits. We have built and completely furnished the beautiful hotel shown in Tuesday's Oregonian, located on our 20-acre townsite on the lake shore five miles from the mine. A flume from our own immense water power conveys the pure mountain water, icy cold every minute of the year, into

the building. Aside from the seacoast, this is one of the most popular summer resorts in the West. It is the JOY of the sportsman—renowned for its game and fish. We have built substantial and sensible buildings for our men, procured tools for them to work with, paid \$7000 on our property, own five mules and harness, one saddle horse and saddle, two wagons, a time and machine of great value, and two spacious stables, AND HAVE NO BEFORE OFFERED A SINGLE SHARE OF OUR TREASURY STOCK FOR SALE. This is a record, we believe, never made before by any mining enterprise in this country. It enables present investors to come in ON THE GROUND FLOOR—on terms superior to those of us who put in our money when the property was a prospect, and NOTHING certain about it.

Now the Swastika Ground Is Proven Beyond All Cavil.

We have the ore bodies in sight—have cut and cresset them—and it merely remains to procure the machinery to take out the rock and send it to the smelter (two-thirds of it concentrated tons into one), and we'll pay just as big money to our people as any other of the scores of wonderful mines of the wonderful State of Idaho. And Idaho IS a wonderful state. Many are its WONDERFUL mines. Scores and hundreds have been made rich by them. Other scores and other hundreds will be made richer still. Not one-tenth of the part of her rich properties have been developed. Prospectors without means are hanging on to their finds, hoping against hope that something will turn up to enable them to devel-

ope and possess the tremendous wealth that is hidden in them. Our own property is GUARANTEED as we represent it. Our essays published in Tuesday's Oregonian are ABSOLUTELY correct and reliable. Not then a stockholder, had the Tacoma smelter make a test of a large quantity of ore, taken from the full face of the vein. The result was \$78.43 to the ton, and so well pleased was he that he took 10,000 shares. He had thoroughly investigated the property, making a special trip to the mine for that purpose, and says that we are at liberty to give his name to any person wishing to know more about it. He is himself mining man, too, and interested in another property now shipping its ore to the Tacoma smelter, and

This Is His Opinion of the Swastika:

"Get a mill on your property and you have as good a thing in mining as any man need ask for. It is not hard to determine that fact. Any miner can see that you have a tremendous body of ore. There is no mystery and no doubt about it. But do not mine out that high-grade and then attempt to go back to the low-grade and save its values. It can be done, but at too great an expense. The process is kin to deliberately paving a city avenue with full determination of digging it up again within a few weeks to construct a sewer or put down the water mains. MINE BOTH HIGH AND LOW GRADE AT THE SAME TIME, and YOU WILL PAY

US STOCKHOLDERS IMMENSE PROFITS ON OUR INVESTMENTS. Don't get off on the wrong foot. The Swastika is now all right, and if you will do YOUR part we will all be all right—including yourself. You are in a famous district, and you can make yours a famous mine. The property in which I am at present interested will pay from 500 to 800 per cent on our money. IT DOES NOT LOOK AS GOOD AS YOURS—BUT IT IS MINED RIGHT. Our manager was not expected to do things without anything to do with. We supplied him with the necessary money, and he did the rest. This is why we are prospering, and the Swastika is a better mine than ours—if you work it right."

We Are Going to Work It Right

We are selling stock to enable us to do it. Mr. Ross, our foreman, has mined in Idaho for years and has a record of success. He knows the country and its ore, and we feel perfectly content to leave the property development in his hands. There has been no manipulation of Swastika stock, no tinkering with its finances, no "deals" of any kind. IT IS A CLEAN CUT, FAIR

SQUARE mining proposition. Its treasury has not been pilfered and never will be. ITS AFFAIRS WILL BE CONDUCTED AS HONESTLY AS ANY BUSINESS ON THIS GREEN EARTH. It never will have the taint of "fake" stock, or "fake" shares, its garments, because it has not been conceived in fake, lived in fake or did anything but detect fakery with all its might and all its energy.

SHARES 10 CENTS EACH

We sell on installments of one-quarter down and one-quarter per month, because these payments will meet our obligations and result in the same as cash to us.
