

### WESTERN PACIFIC TO PLY STEAMERS

Gould Interests Will Turn Harvard and Yale Over to C. P. Doe.

### PORTLAND RUN IN PLAN

Two Palatial Steamers Now and Others Later to Start Fight by Gould Line Against Southern Pacific and Santa Fe.

SAN FRANCISCO, Oct. 12.—(Special.) The Gould line of steamships has announced the palatial steamers Harvard and Yale were to be taken off the Boston-New York run and sent to the coast, speculation as to how and where they would be used here has been rife. It is stated on excellent authority that the Harvard and Yale will be placed on the run between San Francisco and Los Angeles by a strong combination of interests in which the Western Pacific is dominant, and that they will furnish the Western Pacific with a connecting link to Southern California, from which territory it has hitherto been excluded by the refusal of both the Southern Pacific and Santa Fe to enter into an agreement with the Gould line for an interchange of traffic business.

Later similar steamers will be placed on the run from San Francisco to Portland and Puget Sound. Daily sailings will be made between San Francisco and Los Angeles by the Harvard and Yale, the hour of sailing to be 8 o'clock in the afternoon. The line will have 1000 tons and they will land their passengers at the other end of the run by 3 o'clock the following morning.

The plan as understood is for the boats to be operated by the North Pacific Steamship Company, of which Charles P. Doe is the manager, and which is now operating a line of less expensive steamers on the coast.

The Harvard and Yale will carry their first and second cabin passengers. Their first cabin appointments are as perfect as those of the Fall River line boats on Long Island Sound. In addition to a social hall, dining-room, main saloon and galley, there are 40 parlor and bath-rooms on each steamer, and 275 other staterooms, all on the two upper decks.

### MERCHANTS TO ENTERTAIN

East Side Business Houses Plan for Trade-Building Week.

Final arrangements for trade-building week, beginning next Monday and closing next Saturday evening, were made last night at the meeting of the East Side Business Men's Club, in the new quarters on Grand avenue.

Tuesday night will be the "at home" night, when no goods will be sold, but every business house will be decorated and lighted. Several of the larger houses will have orchestras. A special band will be engaged to give concerts on the streets in front of the stores. At the business houses, the patrons and friends will be entertained by the proprietors.

On other days of the week the business houses will offer special bargains. In order to carry out these plans, a chairman was authorized to appoint a general committee on arrangements.

### CHANLERS ARE RESTRAINED

First Wife of "Sheriff Bob" Ties Up ex-Husband's Fortune.

NEW YORK, Oct. 12.—Justice Guy in the Supreme Court today granted to Mrs. Julia C. Chanler, first wife of Robert Winthrop Chanler, an injunction against R. W. Chanler, Lewis Stuyvesant Chanler and Winthrop Chanler, the Union Trust Company and the New York Insurance & Trust Company as trustees of the Chanler estate and Lina Cavallieri Chanler, restraining them from disposing of or transferring any property belonging to Robert Winthrop Chanler until the action brought by her is determined in court.

An ante-nuptial agreement is involved, which provides for the support of his first wife and children. This it is declared, takes precedence over the Cavallieri agreement, which is declared to have no legal force.

### BURY HATCHET IS MOTTO

Tacoma Rotary Club Moves to End Cities' Jealousy.

TACOMA, Wash., Oct. 12.—(Special.)—The Rotary Club started on a campaign today to do away with "inter-city jealousy" and to get all the cities in the Northwest working together on a common basis for the promotion of this section of the country.

The members declare that the cities should patronize industries of the Northwest first and those of other sections second. They maintain that the state and section can best be served by a general "burying of the hatchet."

### POWER COMPANIES UNITE

Washington Will Build Largest Plant on Spokane River.

SPOKANE, Oct. 12.—The Washington Water Power Company has purchased the property of the Big Bend Water Power Company upon the Spokane River, the price being reported close to \$2,000,000.

The same purchaser has secured property from H. L. Moody and others, giving it the right to build a dam which will back up the water of the river for a distance of 20 miles to a point about 12 miles west of this city.

The Washington Water Power Company is preparing to build the largest electrical plant on the Spokane River. The new site is capable of developing 15,000 horsepower, with a dam 150 feet high built between natural granite walls 200 feet in height.

### WORLD'S CHURCH MEETING SOUGHT

Episcopalians Would Hold Conference of All of Christian Faith.

### NO ALLIANCES ARE ASKED

Though Members of House of Deputies Would See Changes in Laws of Marriage and Divorce, No Action Is Taken.

CINCINNATI, Oct. 12.—The house of deputies of the Protestant Episcopal convention took action on a world's conference of churches of the Christian faith today.

### GUN IS CUPID'S AID

WOMAN WOULD FORCE MILLIONAIRE TO MARRY HER.

Rich Miner Flees When Authoress, With Revolver and License, Would Compel Matrimony.

LOS ANGELES, Oct. 12.—Miss Julia Ward Gibson, the young authoress, who last night invaded the home of Al D. Myers, millionaire miner and founder of Goldfield, Nev., at Long Beach, and drew a revolver on him when he refused to marry her, is still held in the County Jail here, following her arrest last night.

Miss Gibson is charged with assault with a deadly weapon and her bail is fixed at \$5000. This she has not been able to furnish to date.

Miss Gibson filed a \$50,000 breach of promise suit against Myers some months ago. Today, she speaks bitterly of Myers' treatment of her.

"I admit," she said, "that I went to Mr. Myers' residence, accompanied by my father, and demanded that he marry me. I took the marriage license with me and my father is a minister.

"It was not a matter of money with me. I have tried since last October to get him to do the right thing. Last night, my father talked with him 15 or 20 minutes in a gentlemanly manner, but both of us were ordered out of the house.

The marriage license which Miss Gibson carried gave her age as 27 and that of Myers as 42.

It has not yet been made known what attitude Myers will take in the prosecution of Miss Gibson. Last night, he fled precipitately from the room at his home when Miss Gibson drew her revolver and threatened him. Myers' servants telephoned the police and when they arrived they found Miss Gibson and her father, an elderly man of 60, still in the Myers' home.

She declared that she had no desire to make Myers her husband, but said that she had determined that she intended to marry another woman and that she had determined to compel him to right his alleged wrongs of her. After her arrest, Miss Gibson broke down and became hysterical. Today in her cell she wept bitterly.

### SPAIN FEARS TROUBLE

TROOPS HELD IN READINESS TO QUELL UPRISING.

Anniversary of Execution of Professor Ferrer Inspires Radicals and Strikes Terror to All.

MADRID, Oct. 12.—Today was the first anniversary of the execution of Professor Francisco Ferrer, founder of the modern school, at Barcelona, who was convicted of having conspired against the government and brought about a rebellion in the Summer of 1909.

The day had been dreaded by the authorities, as the Free Thinkers, Socialists and Republicans had planned a demonstration that might easily lead to bloodshed. Up to early afternoon no untoward incident had occurred. This was due, probably, to the firm attitude taken by Premier Canalejas and the Ministry and the orders issued to General Weyler, Captain-General of Catalonia, to put down, mercilessly, any rioting.

Throughout Spain, troops were held at their barracks ready for instant service. Every officer and soldier on leave had rejoined his command at daylight.

The danger of rioting appeared great at Barcelona, where the government refused to authorize processions and manifestations at Ferrer's tomb. Those wishing to take part in such gatherings were informed that if they visited the cemetery to place flowers upon the grave of the educational leader, they must do so individually, and not in a body.

Even the assembling of small groups was prohibited. The recent encouragement to Spanish Republicans found in the success of the revolution in Portugal was a source of special concern, as there are rumors that the outbreak at Lisbon was planned originally for today, and was to have coincided with a Republican uprising in Spain.

Washington Will Build Largest Plant on Spokane River.

### HEALTHY MOTHERS

The bearing of children is frequently followed by poor health for the mother. This supreme crisis of life finding her physical system unprepared for the demands of nature, leaves her with weakened resistive powers

This can be avoided if Mother's Friend is used before the coming of baby, and the healthy woman can remain a healthy mother. It is the only remedy that perfectly and thoroughly prepares the system for healthy motherhood, and brings about a natural and easy consummation of the term. Women who use Mother's Friend recover quickly, and with no ill effects, or chronic troubles. Every expectant mother should safeguard her health by using Mother's Friend, thus preparing her physical condition for the hour of motherhood. This medicine is for sale at drug stores. Write for free book for expectant mothers.

### PASCO GREET VISITORS

1500 PERSONS ATTEND CELEBRATION OF PROJECT.

Irrigation Works Pronounced Most Complete and Carefully Planned in the Northwest.

PASCO, Wash., Oct. 12.—(Special.)—Pasco kept open house today for guests from all portions of the Northwest, who congregated here to celebrate the completion of the Pasco Irrigation Company's great irrigation works, which water 60,000 acres with huge pumps. A conservative estimate of the attendance from outside towns is 1500. Special trains kept coming in until 2:45 P. M.

The visitors made their headquarters at the Pasco Reclamation Company's new building.

The day's programme opened with a concert by the Richard Band, after which a parade, consisting of the band, the reception committee and 500 school children, marched to the Union Depot and met the train from North Yakima. The incoming train was greeted with songs by the children. The same procedure attended the arrival of the trains from Spokane and Walla Walla. The visitors were shown over the new pumping station in the afternoon and were deeply impressed with the pumping plant and the irrigation system, with water supply for 7000 acres. This system, which is built with pipe lines instead of ditches and on which \$300,000 has been expended this year, was declared by experts in the party of visitors to be the most complete and carefully planned project in the Northwest.

At an informal banquet in the evening there were addresses by Dr. Blalock, of Walla Walla, Robert E. Strahorn, president of the North Coast line, and William L. La Follette, Republican nominee for Representative to Congress.

"What is this?" asked the teacher, exhibiting a picture of a sailor. "A horse in a bathing suit," answered the boy who lived near the ocean.—Boston Transcript.
