FBENCH STRIKERS' ARDOR DAMPENED

Prominent Leaders Arrested and Expected Accessions to Ranks Fail.

for Food Supplies-Reserves Respond to Call, but Are Not Assigned to Service.

PARIS. Out 12.—The arrest of some of the most prominent strike leaders and the failure of the large majority of the employes of the Eastern Railroad, the Paris, Lyons & Mediterranean and the Paris-Orleans roads to respond to the strike order have had the effect of dampening the spirits of the strikers, who now number about 100,000 men. Many of those who have been called to the colors have responded, but as yet they have not been ordered to do service on the railroads. The subway employees who last night voted to strike remained at their posts today, thereby averting a serious situation.

Tonight, however, the strike declared by the electricians is partially effective.

Tonight, however, the strike declared by the electricians is partially effective. About half the City of Paris, including sections of the boulevards, is without electric light and many electric cars are stranded for lack of power.

Owing to the energies of the Minister of Public Works it has been possible to maintain communication with the points from which food supplies are brought into the city.

from which food supplies are brought into the city.

These communications will be kept open at any cost. Paris, therefore is no longer in danger of starvation.

The arrests of five leaders were made in fulfilment of Premier Briand's promise to punish the agitators who, he declared, precipitated an insurrectionary movement at the very hour that the Premier and M. Millerand, the Minister of Public Works, Posts and Telegraphs, were conducting negotiations looking to the peaceful adjustment of the differences between the railroad management and their employers.

The five strike leaders arrested this The five strike leaders arrested this morning attempted a dramatic scene by assemblying in the office of the Humanite, a Socialist newspaper, where they passed the night in the company of virtually the complete Socialist delegation of the Chamber of Deputies, awaiting the arrival of the police. When the officers arrived and the deputies began to make inflammatory speeches the Prefect of Police cut the proceedings short and hustled the leaders off in cabs.

in the National forests expired October 10 and on that day the last sheep is supposed to have been driven across the reserve border line.

Thousands of head of the woolly animals will be allowed to graze along the foothills for several days as they come out. Other thousands have already been brought down to the Winter pastures provided for them.

Owing to the unusually dry season the Summer range was not of the best and the sheepmen have had to contend with conditions which have been far from satisfactory. The grass became parched and dead early in the Summer and, to add to the difficulties, springs and water-holes which have never been known to go dry before, ceased to supply any moisture for the flocks. Notwithstanding these conditions, however, the sheep are coming out of the mountains in fairly good shape and with plenty of good new grass on the foothills and lower valleys they will be able to get into still better condition before Winter sets in. Owing to the abundant hay harvest the sheepmen were never in better condition to with-

TACOMA. Wash. Oct. 13.—(Special.)

—Hints at trickery were heard today in the primary election fraud cases in which officials of the second precinct of the Third Ward are under arrest. The hints came about because of the wording of a court order dismissing the first information against the men. The words "and the defendants are hereby discharged," which appear in the order, Attorney J. F. O'Brien declares, ends the case and allows the prisoners to go free.

ends the case and allows the practice.

Judge Chapman says the words do not belong in the order and suspects Attorney O'Brien of sharp practice.

Mr. O'Brien declares it is the regular form he has been using in 20 years' practice and that Judge Chapman read the order carefully before signing it and knew what he was about.

Tunder direction of Governor Benson. I have, during the past year, been engaged in checking the records of the United States patents held by the state with a view of placing the office in position to correct defective titles, these defects in title having grown out of the practice in this office in former years of making deeds from the state to individuals before the state had received patent from the United States. In many instances the state failed to secure patent for the land, thus leaving the purchaser without basis of title. I am prosecuting this work as rapidly as possible without employing additional office force.

Who is Who, and Why

When Bradstreet or Dun are asked for a report on a merchant they generally go direct to that merchant for a financial statement and usually get the facts. No man knows better than he (the merchant). If you have been paying your Tailor A \$30 a suit all your life for clothes worth \$20, and Tailor B offers \$40 suits for \$40, you would hardly go to A for information regarding B's \$40 suits. Then don't go to other dentisits expecting to learn the truth about the Bex Dental Co.'s high-class dentistry. The ethical man who has a fair practice will condemn the Aivsolar method on general principles, because he happens not to know anything about it. An innuendo, shrug of the shoulde or sardonical smile on his intellectual visage (condemnation) is his answer. The other fellow, the bargain-counter artist, has pienty of time to cluddate. He'il tell you all about it, the impossibilities of such a thing as Alveolar dentistry. If you really want the best to be had in dentistry, come to us. It will cost you nothing. We will show you samples—counterparts of original cases being worn by well-known people of this city. We will show you the Alveolar teeth in the mouth, or being put in, as at all times we have one or more patients in our offices having work done. Then get a list of some of our patients, who have had Alveolar dentistry done by us. Many of them are among the best known people of this city and state; each and every one will tell you that it is satisfactory in every way—looks, comfort and service,

If you have two or more teeth in either law, whether solid, sound or loose makes no difference. We will replace each missing tooth, giving you back your full set of teeth without the use of a plate, partial plate or so-called bridge, and we will defy any one, dentist of hayman, to tell them from perfect hatural teeth.
