

WOMAN HAS GLEW IN DYNAMITE PLOT

Fear of Losing Share of Reward Thought to Seal Mrs. Ingersoll's Lips.

SHE SCOFFS AT HUSBAND

Man Who Bought Explosive May Now Be Hiding Near San Francisco and Police Expect to Make Capture in Short Time.

SAN FRANCISCO, Oct. 14.—(Special.)—Following the lead of the evidence given by Mrs. H. D. Ingersoll, of 366A Twentieth street, Chief of Police Seymour and Detective William J. Burns are believed to be close on the trail of the suspected dynamite of the Los Angeles Times building, and their arrest is considered merely a matter of time.

Another Woman Is Witness.

Another witness brought into the case today, who is thought to know something of the actions of the dynamite plotters, is Mrs. George R. Tibbitts, of 474 Valencia street. She has been intimate with Mrs. Ingersoll and is said to have associated with her while Brice was in a roomer at the Twentieth-street house.

The importance of the evidence given by Mrs. Ingersoll in directing the search for the conspirators is shown by the fact that Mrs. Ingersoll expects to receive a portion of the large reward that has been offered for the capture of the Times wreckers. In her protestations to the press that she knows absolutely nothing about the dynamite plot, her lips were sealed, not so much by fear of vengeance from the desperate assassins, as she declared, but by hope of reward if she divulges none of her information to any one except the detectives.

Husband Laughed At.

She admitted this morning that she had told the police a great deal more than she has told to the public. She laughed at her husband's assertion that she was trying to shield the plotters and had not told all she knew to the detectives.

Ingersoll, the husband of the woman, has not been living at home for some time, and says that Brice is the cause of his troubles. He has made the statement that his wife was intimate with Brice when he lived at the house, and that she learned of the plot to dynamite the Los Angeles Times building and is now restrained by fear of death from Brice if she betrays him.

MEN MAY BE IN CITY.

"I think," said Ingersoll, who is a United Railways motorman, running on the San Mateo line, "that Brice and Morris, or Smith, are still in the city. I am sure that on last Saturday when I attempted to get into my house, a man named Smith was there with Mrs. Lavin."

Mrs. Lavin's connection with the case was brought about through the intimacy between her and Mrs. Ingersoll. It was Mrs. Lavin who sent Brice to get a room at her friend's house. In the meantime, "Smith" was staying at her house at 2410 Mission street and the two men and two women were a great deal in each other's company.

Morris remained at Mrs. Lavin's house until after the dynamite was exploded in Los Angeles, and left only when he got word that he had been identified as one of the purchasers of the dynamite and when the police were looking for him. He then hurried over to the Ingersoll flat, where Brice lived, and dropped from sight.

About headquarters it is generally believed that neither Brice nor Morris is 500 miles from the city and an important arrest, or several of them, may be looked for at any time.

The accident occurred in the open-hearth department while the metal was being transferred from one furnace to another. The men were working on the ground beneath repairing a scale.

Range Poisons Sheep.

LAKEVIEW, Or., Oct. 14.—(Special.)—John Keilner, a local sheep-owner, has just reported the loss by poisoning of 25 head of sheep a few miles east. The cause is supposed to be grasses growing there. This is the first case of poisoning reported among sheep since Charles Duggan, of Adel, Or., lost 500 head last spring in South Warner Valley.

LE BLANC SETS NEW RECORD

In Bleriot Monoplane Mile Is Made in 53 Seconds.

ST. LOUIS, Oct. 14.—Alfred LeBlanc, who is to pilot the French balloon, Isle de France, in the international race which starts from here next Monday, today established what is said to be a world's record for aeroplane speed over a measured course. With his Bleriot monoplane, he made a mile in 53 seconds, incidentally setting an American speed record.

LeBlanc was among the first of the aviators to get away at Kinloch field this afternoon. Following an exhibition, he got his machine over the marked course and negotiated several speedy miles, one in 1:05 5-8 and another in 1:07 2-8.

Clifford Turpin, of Dayton, O., a Wright machine, failed to beat the American endurance record of three hours and 11 minutes, 55 seconds, made here by A. L. Walsh, of Washington, last Tuesday. Turpin descended after having been in the air one hour 24 minutes, because of faulty gasoline feed on his engine.

Ralph Johnstone rose 3000 feet, shut off his engine and glided to earth in a series of dizzy spirals. Jacques Faure, of France, who as pilot of the Condor, is to start in the balloon race, said that when Johnstone started on his rapid descent, he believed the machine was beyond control.

"It is most marvelous," he said. "We have nothing like this fancy flying in our country. Our aviators are content with straight away flying and speed records."

NEW PRAYER PROPOSED

EPISCOPALIANS DEFER ACTION ON UNBELIEVERS.

Deputies Finally Reject Movement to Recognize Emmanuel Plan of Healing Sick.

CINCINNATI, Oct. 14.—The third joint session of the House of Bishops and the House of Deputies of the Protestant Episcopal convention this afternoon was devoted exclusively to missionary topics.

No action was taken upon any of the leading questions before the convention, but the afternoon was given over to addresses by bishops. Bishop Frederick Johnson, of North Dakota, spoke on "Missionary Work Among the Indians"; Bishop W. A. Casper, of South Carolina, on work among negroes in the South; Bishop Peter T. Rowe, of Alaska, on "Alaska, and Bishop Franklin S. Spaulding, of Utah, on "Among the Mormons."

The committee in charge of the question of omitting from the prayer book the reference to Jews, Turks, infidels and heretics" in the third collect for Good Friday reported today it was unable to agree on a substitute phraseology and recommended that a commission be named to draft a new collect and report at the next convention.

Vote on the question of changing the name of the church by revising the title to the Book of Common Prayer was postponed. The matter was made a special order for tomorrow with an agreement to vote at noon.

The subject of a ritual for healing of the sick was not reopened by the deputies.

CHARLTON LOSES POINT

Wife-Murderer's Extradition Is Left to Federal Court.

NEW YORK, Oct. 14.—Porter Charlton, the confessed murderer of his wife, Mrs. Mary Scott Castle Charlton, was today ordered to be turned over to the federal authorities in proceedings which have been instituted for his extradition to Italy. Judge Blair, of the New Jersey Supreme Court, declined to release Charlton and issued the order for him to be placed in charge of the Federal authorities.

A hearing in his case was had on September 21, when Justice Blair refused to hear testimony concerning Charlton's sanity. Charlton's irrefragable mental condition was urged as a reason why he should not be taken to Italy for trial. His counsel also argued that Italy by enacting a law that no Italian citizen should be extradited had abrogated all obligations of this country to extradite its citizens on Italy's demand. By this decision today, Justice Blair overruled this last contention so far as the state court had to deal with it, and the whole matter now appears will be put in the hands of the Federal authorities.

A new commitment was made out for Charlton as soon as Judge Blair's decision was rendered and the prisoner was ordered returned to his cell to await the disposition of the United States Government.

J. E. MADDEN FALLS DEAD

SPOKANE, Wash., Oct. 14.—(Special.)—J. E. Madden, 62 years old, a dairyman at Ontario, Or., dropped dead in the O. R. & N. depot here at 9:15 this morning.

Madden, in company with his wife, had come to the depot preparatory to taking a train for his home. When passing through a hallway of the building he suddenly reeled and fell unconscious to the floor.

Depot attendants promptly summoned Steward Dore, of the Emergency Hospital, but before he arrived the man had breathed his last. The cause of death is believed to have been heart failure.

Mrs. Madden became hysterical and was cared for by the depot matron. The Maddens arrived in the city Thursday evening from Anacortes, where they had been on a visit to Mrs. Nina Noah, a daughter. A son lives at Ontario and there are three married daughters. The son was notified by wire immediately.

PORTLAND TO BE CONVENTION CITY

Annual Meeting of Christian Churches to Be Here in October, 1911.

BOSTON ROUTED IN VOTE

Disensions Caused by Offer of \$129,000 of Stock in Christian Publishing Company Cleared by Standing Offer.

TOPEKA, Kan., Oct. 14.—The next annual meeting of the National convention of Christian Churches will be held at Portland, Or., in October, 1911. Portland won by a large majority today over Boston.

E. A. Long, of Kansas City, smoothed over the disensions occasioned by his offer of the \$129,000 of stock in the Christian Publishing Company, of St. Louis, by formally offering the stock to the church and requesting that no decision be made at present. The difficulty arose over the fact that the church is not an incorporated body and cannot hold property.

Rev. H. D. Smith, of Hopkinsville, Ky., was elected president of the American Christian Missionary Society. This practically makes him head of the convention next year, as the society is recognized as the dominant society of the church.

8000 DELEGATES TO CONVENE

Christian Church Assemblage Will Mean Much to Portland.

The convention of the Christian Church, which comes to Portland next year, is usually attended by between 8000 and 10,000 delegates, and with the church organization represented in every state in the Union, the annual gathering are considered important.

Within the past few days, the Portland Commercial Club and Chamber of Commerce carried on a spirited campaign to make Portland the next meeting place of the churches and in this movement the commercial bodies of Pacific Coast cities co-operated with the local organizations.

Royal W. Raymond, chairman of the convention bureau of the Commercial Club, sent over 30 telegrams during the week to President Peter Ainslie, head of the convention, and to Pacific Coast delegates, urging that Portland be considered the first city on the list for the convention.

"This convention will mean much for Portland, as it will bring a class of people to Oregon we are striving for," said Mr. Raymond. "I have no doubt that we will have a larger number of delegates at this convention than have ever assembled in Portland. Our success in securing this important meeting is encouraging and will prove a great help to us in making Portland the 'Convention City' in 1912."

FIREBUG DOES DAMAGE

ON FLEET HORSE INCENDIARY EVADES CAPTURE.

Party of Ten Has Narrow Escape From Death in Blazing Forests of Colorado.

DENVER, Oct. 14.—Mounted upon a fleet horse and moving rapidly from place to place, a mysterious incendiary is offsetting the combined efforts of the large force of firebreakers working in the vicinity of Miramonte to subdue the fires which started in heavy timber of that section several days ago.

So cleverly has he been evading capture that it became necessary to organize a patrol, whose only duty will be to capture the fiend.

Revenge and spite form the only excuse for the incendiary, according to Federal forestry officials. The district in which the fires are burning has settled rapidly in recent months and this is supposed to have stirred the anger of some of the old settlers.

Today more than 60 small fires had started but the main blaze covers an area of 15 square miles. A party of ten lighters became entrapped in a gulch and were held prisoners for two hours, with the flames roaring all around them. Lack of fuel for the fire in the immediate vicinity of the gulch saved the party. All were rescued by government agents sent in search of them.
