

REVERSED DECISION GIVES SEALS GAME

"Rottnest Piece of Work Ever Pulled Off," Says McCredie in Protest.

SAN FRANCISCO WINS, 2-0

Near-Riot Follows Rank Opinion of Umpire Toman, Who Didn't See Play, When He Declares Olson Out—Mac Makes Trouble.

PACIFIC COAST LEAGUE

Table with columns for Club, W, L, P, and a list of game results for the Pacific Coast League.

AS JUDGE GRAHAM SEES IT.

BY HARRY B. SMITH. SAN FRANCISCO, Oct. 19.—(Special.)—A reversed decision by Umpire Jimmy Toman that caused the loss to the Beavers of two runs and a tied score, a protest by the Northstars and a loud denunciation by Walter McCredie, that it was the worst decision ever rendered in baseball, were some of the features of the near-riot that disturbed the seventh inning at Recreation Park today.

Umpire Atrid to Give Decision.

The Los Angeles umpire declares very staunchly that he did not see the play and therefore did not render any decision until he had conferred with Hildebrand, who happened to be in charge.

LEAGUE MEETING

Pacific Coast Directors to Be Busy Tonight.

PORTLAND LIKELY TO LOSE

Representative McCredie May Not Secure Permission for Two Teams in This City—Graham Determined on McCredie Inquiry.

ARRELLANES GOES UP IN AIR

Oakland Takes Game From Senators by 4-to-1 Score.

SAN FRANCISCO, Oct. 19.—(Special.)

The special meeting of the directors of the Pacific Coast League scheduled for tomorrow night, may be more than a discussion of the league case and of the action to be taken against Walter McCredie for his newspaper interview in which it is asserted he said the directors and the league were "crooked."

Representative McCredie Will Ask Permission to Have Two Clubs in Portland Next Season, and Cal Ewing Will Submit a Schedule for Next Year.

TWO STAR PITCHERS WHO WILL LIKELY OPPOSE EACH OTHER IN TODAY'S WORLD'S CHAMPIONSHIP GAME.

Ed Reulbach, Chicago. Cy Morgan, Philadelphia.

on which he has been spending much time. Inasmuch as Representative McCredie will shortly have to leave for Washington to be in his seat as a Representative, it is thought that he will ask at this time to have the business of the league transferred rather than wait for the usual annual session in December.

Berry Might Object.

The one thing that would work against such a scheme is the absence of Henry Berry, of Los Angeles, who is attending the world's series, and a trip to a settlement of the league and other important matters at this time, and, in all probability, there will be an adjournment to some later date.

Judge Graham, as president of the Coast League, will first of all seek to have the directors ratify his decision in giving the three protested games to Oakland.

This will come up when Representative McCredie files his protest. There may be a split, but it is believed that a good majority of the directors will stand by the president.

Following that, the president of the league will demand an investigation of the newspaper articles in which Walter McCredie was named as investigating against the league.

Water has denied that he made any such statement, and it is understood that the reporter in Portland who secured the interview has requested that he be not dragged into the case.

Graham is Determined.

That, however, will not persuade Graham from an investigation that ought to be made. The temper of the Coast League as concerns the request of Judge McCredie for the right to maintain two clubs in Portland next year is not fully known.

It is believed here that there is an undercurrent of feeling against it, and that Representative McCredie will have some trouble in securing the desired permission.

The directors will attend dinner at the St. Francis at 6:30 o'clock and will hold their meeting in the evening.

COAST UMPIRES PLAY TO LONG

Cause of Rank Decisions Against Portland Shows Up.

BY W. J. PETRAIN. The dispute arising over the umpire's decision in the game between the Portland and San Francisco clubs simply emphasizes the remarks recorded in these columns heretofore about the prejudice that exists in California against Portland.

The writer has maintained for several years that umpires, no matter how good and competent they may be, refuse from whom they get their "bread and butter," and at any time a close decision comes up they will rule against Portland simply because Danny Long, manager of the San Francisco club, is secretary of the league and therefore directly in charge of the official handling of the game.

Yesterday's game was probably the occasion for action on the part of two umpires who did not see the play. The rules plainly state that an umpire should give the base runner the benefit of all cases where there is a doubt, but did they give Portland the benefit of the doubt yesterday? The umpires of the Pacific Coast League are hired, supposedly, by Judge Graham, but really by Danny Long, the manager of the San Francisco club, who is the paid agent and coach of Cal Ewing, who also owns an interest in the Oakland club. How can Portland expect to get a square deal in the face of this handling?

Last Spring Walter McCredie informed the writer that he would not protest or fight a decision of the umpire during the entire season, and until yesterday he lived up to this assertion to the letter. However, in view of yesterday's decision of the umpires, especially since it is conceded to be wrong by the San Francisco scribes, he is not to blame for taking exceptions to a plain case of robbery.

SECRET PRACTICE NOW ORDER

Whitman Coach Puts Team in Readiness for Washington.

WALLA WALLA, Wash., Oct. 19.—(Special.)—For the first time in the history of Whitman College secret practice was held tonight on the college campus. Guards chosen from the student body, patrolled the field and no one not directly connected with the team was allowed on Ankeny field.

Students were kept off as strictly as possible and the squad ran were townpeople and the squad ran signals and bucked the second team without witnesses.

All this is in preparation for the game with the University of Washington Saturday. Coach McCann is none too optimistic concerning the outcome of the game, since he saw the game in Tacoma Saturday, and is taking no chances. The team leaves for Seattle Thursday night.

HUNTER WINS AMATEUR CUP

Thomas Wolfe Makes Most of Unfavorable Conditions at Traps.

WALLOWA, Or., Oct. 19.—(Special.)—Thomas Wolfe, of this city, carried off the honors of the amateur high average and won the Oregon-Idaho Trap Shooters' Association's silver cup at the shooting tournament of the Union and Wallowa Counties Sportsmen's Association Monday. He broke 156 blue rocks out of a possible 200. Wolfe has had little experience as a trap shooter, but is an experienced hunter. Conditions were difficult and this favored him.

CLEVELAND BATTER REFUSES MONEY TO PLAY WITH ALL-STARS.

CLEVELAND, Oct. 19.—Napoleon Lajoie, second baseman of the Cleveland American League team, today mailed a certified check for \$500 made out in his favor by S. A. Fletcher, of Cincinnati, promoter of the All-Star series, to August Herrmann, chairman of the National Baseball Commission, with a request that

HEERMANN RETURN THE CHECK TO THE PROPER PERSONS.

"I have proposed as a player in the American League and have always been treated well by its officials," said Lajoie in a note accompanying the check. "I would not want to take part in the series against their wishes."

THE MINING CAMPS OF IDAHO

Have Made Thousands of Men and Women Rich, Will Make Many Other Thousands Rich, and, if You Will Let It, THE SWASTIKA WILL HELP TO MAKE YOU RICH, TOO

When we secured the property 53 weeks ago, it was not greatly developed, but experts who investigated declared these ten claims of 20 acres each AMONG THE BEST PROSPECTS THEY EVER HAD SEEN! The man who found and located them had nearly a quarter century's actual experience, but like nearly every one, engaged in that fascinating occupation, had no money to develop his property after he had found it. Among mining men it is broadly stated that "prospectors are always broke," it being alleged that were they not broke they would not be prospectors, and further that "the world owes its prosperity to the prospector," for

Now We Have 868 Feet of Tunnels, an 80-Foot Drift and a 55-Foot Upraise in the Mine

We have paid \$7000 on the purchase price of the claims, we have equipped the mine with the appliances with which we did the digging and blasting, made a good wagon road five miles from Lake Pend d'Reille to the mine, cut out necessary trails, built substantial and comfortable bunk and cook houses, erected stables for our five mules and saddle horse, bought harnesses for the mules, saddle for the horse and two wagons for the road; acquired a 20-acre townsite at the lake, in one of the most picturesque places in the world, within 1000 feet of the beginning of a sportsman's paradise; built and furnished a delightful 18-room hotel overlooking the charming body of water, 50 miles long and up to 10 miles wide; constructed 1500 feet of flume, carrying the finest mountain water, ice cold all summer, into the hotel; acquired a lime and marble

With Only \$15 Ore We Believe We Can Pay 50% on Swastika Shares

This, of course, when we get the concentrating mill at work. But \$78 ore would mean more than FIVE times 50 per cent. It means fully 250 per cent, as against 4 per cent paid by banks. If we find extensive veins of the highest grades, then 800 per cent

may be confidently looked for. Such returns, and in many cases larger, are frequent in Idaho mines, so we are not claiming an extraordinary or unusual production, or richness of property, when we name as much as 800 per cent if all our ore were the equal of our richest.

Entrance to Tunnel No. 2, in 226 feet.

Entrance to Tunnel No. 3, in 500 feet, showing car track and dump cars.

Friends Declare 200% Is Too Low an Estimate

These are those who have inspected the property and have weighed the mine's probable production. At any rate, those who buy these shares NOW, at FIRST prices, will have an investment such as we are sure will not be often offered in the United States. IDAHO IS A MINING COUNTRY. Any well-informed person knows this. NINE-TENTHS OF THE STATE'S VALUES LIE IN ITS MINERALS. This is why it is a safe state in which to mine. Especially is this true of the northern section, in which the Swastika lies. The map we printed Monday demonstrates this. It shows us located in a nest of mines—mines all about us—and of the whole number NONE will surpass the very one we own. Twenty-four

We Never Advertised a Share of Our Treasury Stock for Sale Until the Swastika Had Been Made a Mine

We wish to emphasize this. The entire improvements and development of the property were done by the present management without resort to this, therefore those who buy shares NOW step into an enterprise that HAS THE ORE IN SIGHT TO NOT ONLY INSURE THEM AGAINST LOSS, BUT TO GUARANTEE THEM, WE MOST SINCERELY BELIEVE, A PROFIT OF AT LEAST 200 PER CENT PER ANNUM ON EVERY DOLLAR THEY INVEST. And this before a share of our treasury stock had been sold. We know of no other mining corporation which developed its mine itself, and then let outsiders in at ground floor prices.

We Want Our Mine Investigated

It would rejoice our hearts if 50 stockholders—or 100 of them—would accept this offer: Any person buying 1000 or more shares of Swastika stock, then paying a visit to the mine and, after thorough investigation, finds we have in any respect misrepresented it, can have his money back, return his stock and have refunded him the entire expenses of the trip. If this is not fair, then we do not know what could be. We have had

It Is the Best Thing in Mining Ever Offered the People of This Coast!

It is not a fake. It is not a myth. It is not a stock-selling game.

Our Shares Are Non-Assessable

And there is no forfeiture of any monies paid us for stock. For example, if the reader should subscribe for, say, 5000 shares, payable on installments (or for any other number), and it should happen that he could not complete payments as originally agreed, stock will be issued for all installments this company has received.

Shares 10c Each

We Sell on Installments of One-Quarter Down and One-Quarter Per Month, Because These Payments Will Meet Our Obligations and Result in the Same as Cash to Us.

THE SWASTIKA MINING & DEVELOPMENT CO.

220 Drexel Building, Southwest Corner Second and Yamhill Streets, Portland, Or. Office Open Wednesday and Saturday Evenings. Phone Main 8726. J. B. PURCELL, Pres.; C. J. DONDERO, Sec.-Treas.; G. H. MARTIN, Counsel; J. L. Wells, H. W. Manning, C. W. Dowling and R. L. McCumsey, Directors. See Our Ad. in Next Monday's Oregonian.
