BOWERMAN TALKS TO PACKED HOUSE

Many Clackamas Democrats Pledge Their Support to Republican.

DAN J. MALARKEY SPEAKS

Candidate for Joint Senator Makes Impressive Defense of Ticket. Attacks on Oswald West Is Signal for Rousing Cheers.

OREGON CITY, Or., Oct. 24-(Special.)-Clackamas County extended a magnificent greeting to Jay Bowerman. Republican direct primary nominee for Governor when he appeared here to-

might in a big public mass meeting.

Shively's Hall was packed by real-dents of Oregon City and surrounding districts, representatives of substan-tially every town and settlement of the county being in attendance. With the Republican standard-bearer on the programme was Dan J. Malar-key, champion of Statement No. 1 and the direct primary law, who is the nom-inee for Joint State Senator from Clackamas and Multnomah Counties. Mr. Malarkey made an impressive de-fense of the ticket presenting the point fense of the ticket, presenting the point that the very life of the primary law may be regarded as in the balance it the people accept the advice of the traitorous disruptionists and fail to abide by the result of the last primary

addresses made by him thus far in the campaign, acting Governor Bowerman aroused unrestrained enthusiasm when he attacked Senator Bourne and disclosed the coup Bourne has undertaken to land his creature. Oswald West, in the Governor's chair. Cheers fairly shook the building as the vital issues of the campaign were recounted in words that are not to be misunderstood. Cinckamas County Republicans made clear the fact that they are going to stand by the ticket in the com-

Dimick Greets Bowerman,

Mr. Bowerman arrived in Oregon City early this afternoon and was met by a delegation of party leaders including Judge Grant B. Dimick, his chief opponent in the primary campaign. Judge Dimick has already appeared on the stump in Mr. Bowerman's behalf and was to have presided at tonight's meeting. An urgent telegraphic call from St. An urgent telegraphic call from St. Helens called him away on urgent busi-

hess at the last minute, however, and his place was taken by L. Stipp.

Hundreds of voters were met during the afternoon when Mr. Howerman was taken through the various mills and factories. He made no formal speeches until tonical Experiment of the afternoon was taken through the various mills and factories. til tonight. Everywhere during the afternoon he was given assurances of support, many Democrats being among those who pledged their efforts in helping elect him. As in every part of the state, Clackamas County Democrats in considerable numbers are enraged at the selling out of the party to Jonathan Bourne for use by the Bourne-Chamber-

When Mr. Bowerman was introduced before tonight's gathering of voters, he went at once to the vital issue of the campaign and laid his finger on the sore spot in the campaign, being made by the Bourne machine candidate, West.

Primary Law Defended.

"Lacking a real issue, they charge that I am an enemy of the direct pri-mary law," said Mr. Bowerman. "They say I am an opponent of the progres-sive laws of the people. How do they reach such a conclusion? Let me point to my record. I went into this cam-paign under the primary law and was nominated under its provisions. Had any of my opponents been named I should have supported them even as they now are supporting me. But this man Bourne and his coterie of machine politicians know they cannot use me. They know that if elected I will be the Governor for the people and not for Jonathan Bourne. So they preach treachery to the primary law. Bourne issues an imperial mandate command-ing the people to violate the primary

law.

"Long before Bourne was in the Senate or before there was any direct primary law, or Statement No. 1, I told the people of my district that I believed in the election of United States Senators and other officers by the direct vote of the people. I later gave them my pledge that I would vote in the Levislature for the man they should the Legislature for the man they should designate as their choice for Senator, and in accordance with that pledge I voted for Bourne. What test more severe could be applied. I knew him then as a man unfit in every way for the place as a man of unsavory character and dishonest practices. But I had made my pledge, the people had ex-pressed by a very small majority their eference for Bourne, and he got my

Pledge to People Renewed.

"I want there to be no doubt on my stand with reference to the laws of the people. After my nomination I made a written pledge and I wish to renew it at this time. I wil, if elected Gov-ernor, protect all laws of the people from molestation by the Legislature so far as the influences of the office and the power of the veto will enable me to. My pledge applies to the pri-mary law, Statement No. 1 and all the laws written on the books by the peo-

the Speaker demanded. "I will answer

"To him the place is merely a fad, a gateway to social preferment, the hobby of a man who belongs to the idle and victous rich. As shown by the official records he is absent from his seat more than half the time. "The parties are clearly aligned in this campaign," said the speaker. "The policy of the Democratic party is to seek the disruption of the Republican party to the end of slipping one or two men into office. The Democrats have men into once. The resource have no virtue in their pose as champions of the people. Let us not forget that it was a Republican Legislature which enabled us to have the initiative and referendum. As to the assembly, which long ago ceased to be an issue, let us not forget that the assembly originated with the Democratic party and was copied by a few Republicans, who have,

copied by a few Republicans, who have, I take it, accepted the fact that the people do not want an assembly."

"As to the primary law, the test of that law lies in the support which we gave it. The people have named a Republican ticket. If those people who participated in the primaries do not support the men they selected, then they express their disapproval of the direct primary law. There can be no other aspect to the situation.

"I regard it as obligatory on me, as upon every Republican who participated

In that way alone can we perfect and perpetuate the law.

"There is a matter which I regard as of the utmost importance to the people," the speaker proceeded, "and that is the establishment of a public service commission which will stand between the people and public service corporations. Through such a commission alone can the people receive fair treatment from these corporations, and its establishment will give them a place where they can will give them a place where they can go and relate their grievances great and

"If I am elected to the State Senate by the people of this county and Multnoby the people of this county and Multno-man County, I pledge my most earnest efforts to the task of having such a commission provided. And if you elect Mr. Bowerman, as I am confident you will do, I shall have a most valuable and earnest colleague in that work in the Gover-nor's chair, for he is a hearty advo-cate of the same idea."

Mr. Malarkey in closing urged the full-est support by all Republicans of the whole ticket. He paid a fine tribute to the integrity, honest of purpose and high character of Mr. Bowerman and said the ticket all down the line was one

of worthy and substantial men.

The speakers returned to Portland on a late train and will proceed in the morning to Astoria, where a mass meeting is planned for the evening.

Avalanche of Stones and Mud Rushes Down Mount Vesuvius, Reaching to Town of Portici. Score of Victims Caught.

NAPLES, Oct. 24 .- The island of Ischia, in the Mediterranean Sea, 16 miles southwest of the City of Naples, has been storm-swept. First reports reaching here gave a very con-siderable loss of life from a tidal wave, but the latest reports indicate that the

victims are few.

Communication with the island is difficult, but brief dispatches from Casamicciola state that while it is be-lieved some persons were killed by the collapse of houses, the body of only one woman has been recovered.

Naples suffered from a furious storm of wind and rain last night and all today, the damage amounting to millions. Every section of the city bears marks of the storm and several persons were

The surrounding country has been devastated, great quantities of grape-vines, trees, walls and parts of houses being scattered about in all directions.

An avalanche of stones and mud rushed down Mount Vesuvius above the lava line of the eruption of 1905. It swept all before it as far as the town of Portici. It wrecked the tram line and enguifed nearly a score of victims.

Up to the present there is no confirmation of the report that Ischia suffered from a tidal wave or a seismic disturbance. It was in the direct path of the hurricane which toppled over the houses in Casamicciola and other villages. After the earthquake of 1883 these places were rebuilt with the very thinnest houses, which, while ad-mirably calculated to resist earth-quakes; were unable to withstand the violence of the storm of the last 24

CONDON SENDS BIG GOURD TO SHOW BOWERMAN'S LEAD.

Expression of Confidence Given by Gilliam County Through Legend-Bearing Vegetable,

"The size of Jay Bowerman's vote in Eastern Oregon" is the legend inscribed on the side of a 60-pound pumpkin which reached Republican headquarters at the Cornelius Hotel yesterday. This monster specimen of the vegetable family was sent to headquarters here by enthusiastic constituents of Acting Governor Bower-man from his home town, Condon, Gil-

man from his home town, Condon, Grisliam County.

This expression on the part of the Gilliam County people correctly reflects their confidence in the election of Mr. Bowerman as the Republican direct primary nominee for Governor. In the primary election Mr. Bowerman in his home county and the surrounding counties of Wheeler, Sherman and Morrow, received a 5 to 1 vote. That majority will be substantially increased in the general election Tuesday, November \$.

Secretary Mason, of the state committee, has arranged to have the pumpkin displayed for a few days in one of the display windows of Meler & Frank Company's store.

Maddern said today:

"The Innoko will be a good little camp and so will ditarod, while there is a great possibility of either one developing into a large field of operation. "The county is flat and a great many pumps will have to be installed before all the claims can be worked. There is some timber, and I heard of the discovery of a small vein of lignite. Some small quartz veins have been uncovered, but I did not see or hear of any big bodies of commercial ore.
