Obstruction Is Alleged.

The Broadway bridge, if built, will be an obstruction to navigation, it is al-leged, and a great impediment to the harbor. It is contended also that the fund being raised by the city for its construction will remain idle and become an unnecessary interest-bearing expense upon the city until the bridge is built. The new Harriman bridge will be

The new Harriman bridge will be finished not later than the end of Janu-ary, 1911, it is maintained, and it is only ess feet upstream from the present Harriman bridge. The proposed Broad-way bridgs will be 1325 feet below the present Harriman bridge. It is alleged that, as the harbor is narrow at this point, and the most of the ahipping is now down there it will be a detriment now done there, it will be a detriment to the city and the port to have work on the three bridges going on at the same time. The port commission says communication between the East and West Sides will be ample with the new Harriman bridge and without the Broad-

way bridge. As soon as the activity of the Port of Portland Commission became known, a movement was started among the busi-ness men of both eides of the river to reorganize the management of the port. It is proposed that a new port law shall be enacted if the present law shall fall to give the remedy sought. The pur-pose in mind was announced to be the recall of the present commissioners, and the enlargement of the scope of the powers of the commission. An injunc-tion will be immediately sought re-straining the commissioners from in any manner interfering with the com-pletion of Broadway bridge. reorganize the management of the port. Situation Is Complex.

That the situation has become strangely mixed was pointed out by a city official last night. It was noted that the War Department claims as-clusive right over the regulation of shipping and the use of draw bridges over the Willamette River, as evidenced by the controversy now pending before the United States grand fury, wherein the United States grand jury, wherein the officers of the Multnomah County Court are in danger of Indistment for Court are in canger of interment for obstructing the passage of shipping. Now comes the Port of Portland with the same assertion, so far as obstruct-ing the river is concerned. That Mayor Simon is not seriously impressed by the stand of the members of the Port Commission for jurisdiction of the river was sufficienced last pickt

CINCINNATI, Oct. 19 .- (To the Editor.)--Knowing that The Oregonian would not be guilty of intentional misrepresentation, I ask that you kindly permit me to correct certain state-Our Church. ments.

Recently I have been reported all over the country as having declared in er the country as having declared in the House of Deputies at the general convention of the Protestant Episcopal Church in Cincinnati that: "The Bible not teach any theory of inspiration. is not the word of God." and that the "Scriptures are full of Inaccuracies."

I wrote an explanatory statement for

the Cincinnati Times-Star, which paper made the startling announcement that was so generously copied; but that pa-per declined to publish it. Reporters frequently think they catch an idea and clothe it in their own language; often no doubt not meaning to devi-ate from the truth.

In your issue of October 13, you say "Dr. Morrison is rebuked by vote." The rebuke was to a mis-representing press. Mention was made of the published statement, but no mention was made of my name, or of my speech, which speech was generally understood by the House, no member having raised a dissenting voice after it was made. The only persons who seem to have misunderstood were the reporters. You also quote "He was vigorous in saying that the time has passed when the Bible is to be taken for all it her

the Bible is to be taken for all it has been said to be." I did not utter a single word of that.

Furthermore, the resolution offered by Dr. Winchester did not go to a vote,

and hence, was not passed. A substi-tute offered by Dr. Eccleston passed, which was, that the daily press be asked to publish the eighth article of the constitution of our church, which refers to holy scripture as being the "Word of God containing all things "Word of God containing all things necessary to salvation." It was en-tirely fitting that some such action should be taken, since the press has made it appear that the Episoopal Church had almost repudlated the Bi-ble. Let me make it clear how the intermetarianting area

In discussing the proposed preamble to the constitution, a speaker who pre-orded me, objected to what he claimed were historical inaccuracies contained in the proposed preamble, referring to the foundation of the church.
