BUSINESS OPPORTUNITIES.

DO YOU know that one hundred mill dollars were made in the past year by an investors in one of the safest, cleanest most legitimate propositions in the worl in the business of empire building? you want to know how this was do Listen to what a New Yorker says:

In discussing the food needs of the fast-increasing population the world over, P. A. O'Farrel, in the New York World of Novembor T. said: "When Lincoln was elected there were \$1,000,000 people in the United States. Next year's census will tell of \$20,000,000 inhabitants. As James J. Hilf forcefully said, the day is fast approaching when the farmer will be king, and when there is land hunger he will set the price of necessities of life.

"France alone among nations," he continued, "has put agriculture in the forefront of all industry, and France is supreme and alone among the nations in her economic and financial strength. You cannot buy an acre of good agricultural land today in France for \$1000.

"The day of cheap farm lands is venishing.

"And this leads me to say that Western Canada and British Columbia are the last great and valuable divisions of the world left for the white man to transform from wilderness to smiling and fruitful coun-tries.

wilderness to smining and "Western Canada has 200,000,000 acres of the richest wheat and pasture lands valing for settlement. British Columbia has 50,000,000 acres of rich land waiting to be transformed into orchard, meadow, garden and grain field. These 250,000,000 acres of virgin land can be made to produce food to support 200,000,000 ecopie. And within 20 years this great undeveloped area will all have to come into cultivation area will all have to come into cultivation area will all have to come into cultivation to meet the rapidly expanding demands of the world.

"And let me tell The World that the most glorious country of the future is British Columbia. It covers an area greater than the British Isles, Beiglum, Holland, Denmark and the German Empire combined. Its climate is superior to that of England or France, and indeed to that of any country on this earth of ours. Its finiteries are the most abundant of any nation on this or any other continent. It has 182,000,000 acres of standing timber of priceiess commercial value. The energy of 25,000,000 horses runs waste in its mighty rivers. Its internal water highways can beaformed into the most wonderful system of waterways and power developments.

"It is another interesting and curious fact that British Columbia has the lowest taxes, the wiscat executive and the most progressive Parliament of any in the world. Eighty-seven per cent of the reveaues of the country is supplied from royalities. Expanding revenues and increasing surpluses is the story told year after year to Parliament by its finance minister. The government is suffering from an embarrasement of riches."

Fort George, the last great metropolis of North America, is starting on the lines of America's greatest transcontinental railroad, the Grand Trunk Pacific Fort George is the geographical and strategic commercial center of British Columbia, at the Junction of eleven hundred/miles of navigable waterways. Fort George is on the line of seven railroads chartered and building. Twenty-five thousand men, with a pay roll of \$100,000 per day, will be employed in the Fort George district for the next five years in railroad tailding alone. Fort George commands the river navigation of Central British Columbia; it is the point where the Nechaco, with its tributaries meets the Fraser.

Fort George is the center and distributing point for Central British Columbia today, and its central geographical location and strategic situation are such that it will continue to be the chief commercial place of Central British Columbia for all time. Central British Columbia for all ficiently vast in extent to support many cities. But there is destined to be one pre-eminent place of commerce and manufacture, one metropolis, and it is inevitable that this place will be Fort George. To Fort George will be tributary all the natural resources of Central British Columbia, and all lesser towns and cities. Central British Columbia, and all lesser towns and cities. Central British Columbia, and all lesser towns and cities. Central British Columbia, and invision of millions. An invision of any of Western Canada's business centers, Winnipeg. Edmonton. Saskatoon. Calgary, Vancouver, is new worth \$50,000 to \$100,-000.

Fort George will inevitably be one of the largest cities on the continent. You have the opportunity now to get in at the beginning. The government owns one-quarter of the townsite and gurantees and insures title. We are joint owners and insures title. We are joint owners and sole agents. You can buy one of the choicest business lots for a short time only on payments of \$10 to \$20 per menth. No interest. Let us send you a free copy of "British Columbia Bulletin of Information." giving official and up-to-date news of development and fortune making opportunities in British Columbia—Canada's largest and richest province.
