

GRAND JURY BEGINS
WASTE INQUIRY

Part of Session Devoted to
Angry Protests Against
Published Stories.

JURORS NOT THREATENED

Earl Rogers Will Appear as Witness
and Not as Special Prosecutor.
Preliminary Facts Are
Established.

FORGERY NOW CHARGE

MOUNTAIN HOME LAND-FRAUD
TRIAL TAKES NEW TURN.

Government Introduces Check as
Evidence, Taking Defense Com-
pletely by Surprise.

Northern Witnesses Delayed.

The grand jury will hold another session tomorrow, but the evidence of witnesses to be brought from San Francisco may not be procured for some time. Deputy District Attorney McCormack, who is assisting the grand jury, said today that he did not expect to have the Northern witnesses present until next week. The testimony of Malibon related to the findings of the special investigating committee which reported to the city officials that the wrecking of the Times plant had been caused by nitro-glycerin or other explosives placed in the blind alley between the newspaper building and the Times job plant. Crabb, who was on duty the night of the explosion, repeated his published story of how his men were hurried about and how the floor on which they worked was upended and crushed by the force of the explosion.

Publicity Angers Jurors.

At their morning session the grand jurors devoted some time to angry discussion of the publicity that has been given the case and at noon recess Charles Weir, the foreman, called the reporters to account for the publication of statements that five grand jurors had received letters threatening them with death. "It's a lie," Weir declared with anger. "Nobody has been threatened." He added that the members of the grand jury did not want their families alarmed by newspaper statements that their lives were in danger. Attorney Earl Rogers will not be in the grand jury room in the capacity of an Assistant District Attorney. Instead Rogers will be one of the principal witnesses, on whose testimony the prosecution relies to produce indictments. He will probably go on the stand immediately upon his return from San Francisco, which will be as soon as he has completed the task of serving the subpoenas he took North. Rogers served a subpoena upon himself in his capacity of Deputy Sheriff just before he left for the North Tuesday night. Up to that time it was intended that he should assist in directing the investigation as a special District Attorney. It was believed, however, that he could not be bested in the prosecution without endangering in some degree the value of his testimony.

FRICION DENIED BY ROGERS

San Francisco Chief Complains of
Absence of Buris.

SAN FRANCISCO, Oct. 27.—Though Earl Rogers denied today that there was any friction between himself and the San Francisco police department, Chief Seymour expressed himself as mollified by failure to consult him on certain phases of the dynamiting cases. He also complained that Detective Burns had not reported to him for duty for ten days. Mr. Rogers said today:

"There has been and is an evident effort being made by a certain faction in this city to create a friction between myself and Chief Police Seymour. There has been no misunderstanding between the Chief and myself, and I have not complained to the Los Angeles authorities that any courtesy has not been accorded me here."

WILDS SCENE OF TRAGEDY

Prospector Kills Partner, Writes
Confession, Kills Himself.

PORT ANGELES, Wash., Oct. 27.—The dead bodies of Johnnie Niederstrasser and George Cowan, prospectors, have been found near Rafto, in the western part of Clallam County, which is the northwestern corner of the United States. A letter found among Cowan's effects told of the manner in which the men met their death. The letter, purporting to have been written by Cowan, said that he and Niederstrasser had trouble over their claims and Niederstrasser was shot through the neck while working in his mine. Cowan then went to the cabin, wrote the letter, lay down on the bed and committed suicide by shooting himself through the head. The men had not been seen for several weeks. Fearing that an accident had happened, a searching party was organized yesterday and the bodies were found. The men had been dead several days.

LUCINDA FARRAR ENDS LIFE

Daughter of Bar Association President
Died in Paris.

PARIS, Oct. 27.—Miss Lucinda Farrar, of New Orleans, daughter of Edward H. Farrar, president of the American Bar Association, committed suicide by gas in her rooms in the Latin quarter early this morning. A letter that lay on the table explained that no one was to blame for the girl's death. She had been sick and discouraged, and had no wish to live. She had been studying the piano here for four years.

FOREST PROTECTION AIM

Government Departments Will Give
Matter Unusual Attention.

OREGONIAN NEWS BUREAU, Wash-
ington, D. C., Oct. 27.—In view of the enormous damage done by forest fires during the past summer, the protection of forests will receive unusual atten-

tion from all government bureaus having to do with their control and management, and Congress itself is likely to take a hand. In a letter recently written to Governor Hay, of Washington, Secretary Ballinger made this observation:

"A subject of very great importance is the prevention and control of forest fires, both as relates to the public domain and to State lands; also to the protection of private interests. My observation has been that a large percentage of forest fires is the result of fires started by railroad locomotives passing over the Cascade Mountains. In my travels this summer through California, I was impressed with the fact that railroads using oil for fuel in their locomotives are free from criticism in this respect.

"I do not believe that the installation of sparkarresters will accomplish any beneficial result, but the railroads should be required to clean up their rights of way under the control of the prevention of fires from this source, and until so prepared, should be compelled to maintain a sufficient patrol to extinguish fires set by locomotives, and should also be required to burn the slashings at reasonable periods under state supervision. The lumbering interests in our state ought to be keenly interested in progressive legislation along this line."

FORGERY NOW CHARGE

MOUNTAIN HOME LAND-FRAUD
TRIAL TAKES NEW TURN.

Government Introduces Check as
Evidence, Taking Defense Com-
pletely by Surprise.

BOISE, Idaho, Oct. 27.—(Special.)—

The defense in the Mountain Home land-fraud trial was taken completely by surprise today when the Government sprung a forged check in its effort to prove the high-handed manner in which the defendants attempted to defraud entrants. The check bore the indorsement of Mrs. Emma Lamphier, of Nampa. When it was shown to her she denied she had ever seen it before, and positively declared her name appearing on it had not been placed there by her.

Mr. Lamphier also denied he had indorsed his wife's name to the check. The evidence introduced today took a new drift, showing that purchasers of the right under the Great Western project were led to believe that land went with the water. Many buyers who came from the Dakotas in big excursions only discovered the fraud when they arrived in Idaho.

COAST WILL JOIN CAUSE

MERCHANT MARINE CONGRESS
TO BE BIG AFFAIR.

Development of Ocean Commerce
and War Fleet for Pacific to Be
Topics of Discussion.

SAN FRANCISCO, Oct. 27.—When the

Pacific Coast Congress is called to order in this city on November 27 for a three day session, representatives from every section of the West will be present, prepared to present all of the conflicting views that are held relative to the development of the merchant marine and the maintenance of a fleet of war vessels in the Pacific.

Federal and state officials from points as far away as Alaska and Hawaii were invited today to attend and the commercial and industrial interests of the territory west of the Mississippi have been asked to have delegates on the floor.

One of the main subjects of discussion will be the importance of the opening of the Panama Canal to the development of the West and the appropriation of holding a water competition in this city in 1915 to celebrate the creation of the new waterway.

"I believe that this will be the most eventful gathering of Western men that the country ever has seen," said Governor Gillett today. Governor Gillett will preside at the conference.

WATERED STOCK IS MYTH

President Ripley, of Santa Fe, Tells
What Public Owes Railroad.

TOPEKA, Kan., Oct. 27.—E. P. Ripley, president of the Atchison, Topeka & Santa Fe Railroad, in an address tonight before a mass meeting in his honor, declared "the cry of watered stock is today a myth and a part of the railroads of the country and particularly untrue as to the Santa Fe."

Discussing the relation between the railroads and the general public, he said:

"How has the duty of the public to the railroads been performed, and does the public owe any duties to the railroads? The answer to this question will vary with the views of him who is asked, but all would probably agree as a general principle that the public owes the railroads:

"First, protection for its property.

"Second, freedom from interference with its business methods as long as they are clean and honest.

"This is all we ask. We don't seek to evade legitimate responsibilities.

"The people are giving more thought to the railway question now than they have at any time before. That is a hopeful sign. When the people give attention to both sides of a problem they become more liberal in their views. Heretofore only one side of the railroad question has been exploited and that is the anti-railroad side. The people, therefore, were prejudiced without any desire to be prejudiced."

WOMAN FAILS AT SUICIDE

With Baby at Her Side, Tailor's
Wife Takes Poison.

Mrs. F. W. Richovich, wife of a tailor, was found yesterday lying on the floor of the family apartments at 307 1/2 Alder street, suffering from the effects of what was believed to be a poison taken with suicidal intent. Beside her on the floor lay her three months' old baby. It was said at St. Vincent's hospital last night, that she will live.

No cause for the woman's act is known. Her husband left yesterday for Salem, where he intends opening a tailor shop.

Bandon Resident Dies in Hospital.

MARSHFIELD, Or., Oct. 27.—(Special.)—John W. Hughes, of Bandon, and well known in this city, died at Mercy Hospital in North Bend today. He was formerly a resident of Nampa, Idaho.

PARKER'S CAUSTIC

Roosevelt Criticised for Lack
of Faith in People.

PRESENT LAW IS ENOUGH

Colonel Would Substitute Govern-
ment of "Strong Men" for One
of Law, ex-Candidate De-
clares in Speech.

OGDENSBURG, N. Y., Oct. 27.—Judge Alton B. Parker, in his speech here tonight, dwelt upon what he styled Colonel Roosevelt's utter disregard for the Constitution and law as exemplified, Mr. Parker said, by his record, his speeches and his remarks during this campaign. Judge Parker having in mind Colonel Roosevelt's present up-state tour, said: "I hope the good people of the State of New York still feel able to govern all the citizens, whether rich or poor; all the corporations, whether large or small; to exercise all the home rule powers the state possesses, and further, that they will refuse to declare themselves incompetent to do what their fathers did and expected their descendants to do to the remotest generations.

Law Gives Way to Men.

"Colonel Roosevelt feels that government of laws should give way to government by strong men, so he begins an open campaign for what he calls New Nationalism, with the executive as the steward of the public welfare, the Congress and the judiciary as subordinate instead of co-ordinate departments of government and the National Government in possession of the powers now enjoyed by the people of the states.

"The plea of necessity for this evolution he bases in large part upon the failure of the Government, so far, to protect the people from the combinations to restrain trade and to prevent competition. He says, no, they have come to stay, and we must have a strong man to regulate them.

"Strong Man" Gives Example.

"May I digress a moment to say that we witnessed what a strong man may do?" The Colonel, as President, gave consent to the absorption of the Tennessee Coal & Iron Company by the United States Steel Corporation.

"In his speech of acceptance in 1904 he demanded more statute law to enable him to reach these trusts and great railroad corporations. The records of the Attorney-General's office show that we did have law enough. Again, being informed by the Supreme Court that the Sherman anti-trust act is a criminal statute, he chose not to enforce it, but to bring spectacular cases against it.

"To relieve himself from public censure, because more organizations to prevent competition came into existence during his Presidency than at all other times in the history of the country, he entered upon a tirade against the courts, which he still continues."

FOOTBALL POOREST SPORT

President Butler Approves Colum-
bia Council's Ban on Game.

NEW YORK, Oct. 27.—"Football is the poorest sport in existence," according to President Nicholas Murray Butler, who gave his views in the Columbia Spectator today.

He heartily approved the action of the University council in abolishing football," said Dr. Butler, referring to the action taken five years ago.

Pendleton Saloon Brawl Serious.

PENDLETON, Or., Oct. 27.—(Special.)—George Falmer, bartender in a saloon near a beer saloon, is in a hospital in this city with a broken jaw as the result of a saloon brawl yesterday. William Green was the man who inflicted the injury. After a knocking Falmer down he is said to have kicked him in the face.

A WORD TO MOTHERS

DOES YOUR DAUGHTER NEED
MORE STRENGTH?

This Tonic Treatment Solves One
of the Most Puzzling Problems
for Parents of Girls in
Their Teens.

A growing girl who is confined within doors too much of the time, who overworks, overstudies or is depressed by worry or care, needs the tonic treatment if she would avoid injury to her health which will mar her whole life.

In addition to a proper tonic the patient should have nourishing and easily digested food, pure air and sunshine, rest and sleep. Parents whose daughters grow debilitated as they enter their teens should not watch them fade and droop but should ensure their healthful womanhood by the treatment which is endorsed in the following statement from Miss Frances R. Roche, of No. 1638 E. Evans avenue, Pueblo, Colo. Miss Roche says:

"I suffered from weakness for nearly a year when I was changing from girlhood to womanhood. I became all run down in health and had but very little blood. I did not have any strength and could hardly drag around. There seemed to be no life in me. Every month I passed through intense suffering. I had dizzy and vomiting spells and constant headaches. I was obliged to give up my work for a time.

"I took medicine from a doctor but without relief. Through a friend's advice I gave Dr. Williams' Pink Pills a trial and was completely cured. I am well now and have had no return of my trouble. My mother has since used the pills as a tonic and thinks as highly of them as I do."

Dr. Williams' Pink Pills are guaranteed to be safe and harmless to the most delicate constitution. They contain no morphine, opiate, narcotic, or anything to cause a drug habit. Owing to their blood-building property they are invaluable in the treatment of such diseases as anemia, green sickness, rheumatism, and the after-effects of fevers.

A new edition of our booklet, "Diseases of the Blood," giving more information about the treatment will be sent free on request to anyone interested.

Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams' Medicine Company, Schenectady, N. Y.
