#### Flat Salary Candidate for State Printer

With the State Printer on a flat salary and the fee system abolished, he would not make something like \$25,000 a year, which is more than his services are worth.

I have been employed on the state printing for over \$2 years; was foreman for the past 20 years. My opponent says that I possess unusual skill and technical knowledge. If I am elected I will give to the state all the skill and tesmical knowledge I possess at a flat salary in place of the exorbitant fees received by my opponent.

I will also make a detailed statement of the receipts and expenditures of the office under the fee system.

If you had this information now you would vote for me. Elect me and get it. (Paid Advertisement.)
