Plans for the meeting are being pushed by a carps of workers in the Commercial Club. With the tentative consent of the real estate men of the state that they will hold their state association meeting at the same time, the league meeting will be one of the

It is hoped to secure delegations from each of the 118 commercial bodies throughout the state. Already 60 have signified their intention of sending some of their members. #### VETO BLOW AT BROKERS

Mayor Will Approve Claims in Hands of Election Officers.

Rumors that the Mayor would vete the payment of their wages have caused consternation among election judges and clerks, but Mayor Simon said yesterday that his threat of veto was to prevent the money-brokers from buying the claims at great loss to the election of-ficials. He will not tolerate, he said

claims at great loss to the election officials. He will not tolerate, he said
yesterday, the exactions of money-brokers who demand unreasonable rejurns
for their loans on the small accounts.

It was through these money-brokers,
according to information obtained yesterday at the City Hall, that the election
judges were told that the Mayor would
not approve their claims. The Mayor
yesterday explained that to these moneybrokers he had indicated that he would
not approve claims held by them.

There are 1809 judges and clerks of
election who will be entitled to draw
from the city 33 a day each for their
work. A money-broker who could advance the judges and clerks money on
all these claims at the usual rate charged
by these brokers would make a profit, it
was said yesterday, of 150.

"The men who are entitled to their
money will get it," said the Mayor,
"but I will not tolerate the shaving of
the claims by these money-lenders."

"Do not these lenders operate among
the employes of the city all the time?"
the Mayor was asked.

"If they do they are keeping it from
me." he replied. "I will not tolerate
such a method."
