AVIATOR LATHAM PROVES BEST SHOT

Bomb - Throwing Important Feature of Airship Meet at Baltimcre.

HITCHCOCK LIKES AIRSHIP

Postmaster-General and Army Men Enjoy Flights, Which Include Target-Shooting and Thrilling Acrial Gymnastics.

Nov. 16-Sunbeams. BALTIMORE elot with raindrops, harrowed the enlasts at the aviation field today. Today's flights differed in many respects from anything seen here hitherto. They included bomb - throwing and targetshooting from speeding airships; aerial gymnustics and trips aloft made by Government officials followed by official expressions as to the sensations experienced and as to the merits of aeromes of different designs.

Poetmaster-General Hitchcock, after a flight with Count Jacques de Lesseps, was so pleased that he asked Archibald was so peased that he asked Archibald Hoxsey for a higher flight in the Wright biplane. But Hoxsey had found the upper air too gusty to make passenger-carrying allogether safe and he asked the Postmaster-General to wait until tomorrow. Mr. Hitchcock expressed himself as delighted with his experience in the air.

General Allen Makes Trip.

General James Allen, chief of Signal General James Allen, chief of Signal Corps, U. S. A., was given a flight in Count de Lesseps' 100-horsepower Bierlot. In the party from Washington with him and the Postmfaster-General were Secretary of War Dickinson, General William Witherspoon, president of the Army War College: Thomas Nelson Page and several others, together with a number of women.

Lathem made a score of 15 points with six bombs. One of these dropped into the funnel of a battleehip and it therefore counted as a bulkeye. Under the rules governing the Barry trophy contest, bombs must be thrown from a height of not less than 100 feet. Some of Latham's fell from more than double that altitude, and against a rising wind.

Drexel's ScoreaNot So Good.

Drexel, from his Bleriot, dropped six of the missiles upon the outline representing the deck of a battleehip, but as none of them struck a vital spot, his score was only six.

While he was preparing to drop his second bomb, Hoxsey in a big Wright biplane, flew across the grandstand from the railroad station at Halethorpe, where his machine had been assembled in record-breaking time. SALEM, Or., Nov. 10.-(Special.)-E. B. Watson, of Portland, submitted his brief watson, of Portizine, summitted his over today to the State Land Board in the ap-plication for Warner Velley swamp lands, which include about 22,000 acres that the state recovered from the Warner Valley Land Company.

Watson and others desire to secure this iand at the rate of 5 an acre, but appar-ently the board is desirous of securing a higher price. Watson contended that it has been the custom to charge \$5 an acre and that it now has no right to increase the price of the Warner Valley lands. The subject has been taken under ad-

visement.

The Board authorized a deed of correction for B. B. Beekman, the deed covering land sold to C. C. Beekman in Langell's Valley, Klamath County.

The worst of the trouble today came not from the express employes, but from she striking taxicab chauffeurs who went out with them in sympathy. They mobbed taxicabs driven by non-union men and squabbled with the police until it was necessary to threaten them with drawn revolvers and with swinging night-sticks. Bottles, stones, bricks and loose ends of Iron flew thick. There were many broken heads, but only five arrests.

The hundred chauffeurs who struck in sympathy with the expressmen and went bank to work a week ago when their demands were granted were directed to strike again because the company would not permit them to wear the union button.

It was ordered that all garages still hostile to the union be picketed to-

Just before 4 o'clock, J. Armstrong Drexel began a try for altitude, the wind at the time blowing nine miles an hour. In about ten minutes he had floated out of sight in the direction of the city. He returned after a trip sof about a quarter of an hour, reporting the wind too fluky for high flight. His barograph recorded 820 feet, though the manner of his flight gave the impression of huch greater altitude.

RAIN COMPELS COMMITTEE TO CALL OFF GAME.

Exhibition Contest by Champion Beavers Will Be Held When the Weather Shows Improvement.

Because of the deluge of rain in Portland and vicinity during the past few days, the committee in charge of the baseball benefit fund being subscribed by the Portland fans in token of their appreciation of the championship won by the Beavers, yesterday decided to postpone the benefit game, scheduled for Sunday, November 13, to a date to be named later.

Rain has so flooded the ball park at Twenty-fourth and Vaughn streets, that it would be absolutely impossible to play there Sunday, and the players themselves, unanimously announced that they wanted to give the fans a run for their money and suggested the postponement and expressed a willingness to remain in Portland for a week or ten days longer in order to accommodate the patrons of the game who have so nobly demonstrated their approval of the champions.

The action yesterday means that the benefit game will be played as soon as the weather settless and will probably be one week from Sunday, or November 26. The enthusiasm in the giving of the Beavers a big sendoff is unabated, though the wet weather has dampened the enthusiasm of the committee selling tickets, and no sales have been reported since Monday. However, telephone notices from the committee to Treasurer Bortzmeyer Indicate that the fund is growing rapidly but the solicitors have been too busy to report at the Merchant's Savings & Trust bank in person.

The Democrats gained a few seats in the Legislature, but otherwise made a poor showing. Washington appears as the most steadfast Republican state in the Union, but this is accounted for by the upheaval in the September primaries, which put the "progressive" Republicans in control of the party.

Complete returns from the City of Olympia and from 13 of the 20 outside precincts show that the entire Republican ticket was successful in Thurston County at the election Tuesday. The campaign waged by the women
who want to vote showed its effects during the day and the returns indicate that
woman's suffrage has carried in Thurston County by almost two to one, although some of the precincts falled to
make any return on this question.

Thurston County has witnessed some
bitter campaigns in the past, but the one
just brought to a close was marked by
mud-slinging of the worst nature. The
factions in the Republican party split
wide apart, but the efforts to knife the

it went into office and the Democrats
have little solace. P. M. Troy, the Democratic-nonpartisan candidate for the Supreme Court, ran more than 800 behind

Commissioner, First District, T. J. MeFrainey; Commissioner, Second District,

On the constitutional amendments the
returns show: Woman's suffrage, for 723,
