# HOME RULE LEADS; MAJORITY SMALL

Vote Now Stands at 35,401 for Measure and 32,066 Against.

SUFFRAGE BILL SWAMPED

Liability Law Submitted by Labor Bodies Carries by Big Vote. Proportional Representation Loses by Small Margin.

(Continued From First Page.) of 11.366 in favor of the bill. The total state vote at the same ratio would give the measure about 16,000 majority.

Proportional representation has better in Multnomah County than in nearly all other portions of the state. Multnomah gave it a majority of 1100, but when this is included in the returns received from 18 other counties the mafority is turned to the other side to the extent of 250. The amendment, it is indicated, has been defeated by about 5000 majority. The vote as reported stands: For 20,193, against 22,643.

Many Measures Voted Down.

The following measures have been tefeated by decisive majorities, acthe partial returns reselved: Constitutional convention measure, rallroad district amendment. Baker County judgeship bill, all county division bills; amendment providing for separate districts for members of the Legislature.

doubt, with indications favoring the approval of the Grange amendment that appeared first on the ballot and the defeat of the other Grange amendment and the amendment giving counties the right to regulate taxation within their borders.

The bill providing for a commission to draft an employes' indemnity bill has been defeated by a heavy vote. Outside of Multnomah County the official gazette bili received generally an adverse vote, but sufficient figures are not available to determine whether this vote will offset the majority of \$500 given the measure in Multnomah While the Presidential primary bill met with less favor in Multnomah County, receiving a quajority of about 2300, it gained more favor than the gazette bill in other portions of the state. The bill is probably defeated. The amendment changing the judicial system and providing for a verdict by three-fourths of the jurors in civil cases, etc., received a majority of about 1800 in Multnomah County, but scattering returns indicate that the bill ran well in the state outside. The result is uncertain.

Good Roads Measure Carries.

The good roads amendment seems to have carried by a substantial majority. The Rogue River fish bill carried, and the bill providing a method for reforming county boundaries, it is indicated, has failed.

Prohibition has been defeated, ac-5000. This figure may be greatly in-creased by the final totals, but estimates are now based on the theory that the unreported precincts, which are in the rural districts, will cut down the heavy lead existing against the bill in the early reports.

pluralities. For county representatives Roy Graves and Timothy Brownhill, both Republicans, are successful, the latter winning by one vote over George Briedwell, Democrat.

well, Democrat.

All the proposed county division bills were defeated, as were the greater number of the measures proposed by the initiative. The majority against the official state measures was all.

#### DO NOT SCOLD **NERYOUS CHILDREN**

Instead Give Them a Safe Tonic Which Will Strengthen the Weak Nerves and Prevent an Attack of St. Vitus' Dance.

Many a child has been called awkward, has been punished in school for not keeping still or for dropping things, when the trouble was really chorea, or St. Vitus' dance, as it is popularly called. So common is this nervous disease in childhood that in some schools one-fifth of all the pupils have been found sufferng from it in one form or another.

Before the presence of the disease is betrayed there is usually a disturbance of the general health. The child shows listlessness and inattention. Then it becomes restless, and twitching of the muscles and jerking of the limbs and body follow.

body follow.

Often the patient loses flesh and becomes pale and bloodless. A remedy that cures, St. Vitus' dance, and cures it so thoroughly that no trace of the disease remains, is Dr. Williams' Pink i ...is.

A typical case of St. Vitus' dance is described by Mrs. Fred Martin, of Yates Center, Kansas. Her cure by Dr. Williams' Pink Pills makes her statement particularly valuable to parents, whose children are suffering with this common disease of children.

particularly valuable to parents, whose children are suffering with this common disease of children.

"When I was nine years old," she says, "I was afflicted with St. Vitus' dance. It was brought on by too close attention to my studies. There was a constant twitching of the muscles of my entire body. My limbs were affected at first and later my head began to jerk. My tongue seemed thick and for a long time I could not speak distinctly. I was confined to the bed for most of the time during the two years I was sick and became so weak that I could hardly move. "I was treated by several doctors, who pronounced my case St. Vitus' dance in its worst form. They were unable to help me and each one gave up my case. Then my parents gave Dr. Williams' Pink Pills a trial. I had taken the pills only a short time when there was a change for the better in my condition. I gave the pills a good trial and was entirely cared. I returned to school a well girl and have been in the best of health
