Mr. Taft sailed on the armored cruiser Tennessee, at 11:30 A. M., with the
cruiser Montana as convoy. While officially known as cruisers, these vessels have the general proportions of the
battleships of a few years ago, although they could not stand up very
long against a modern Dresdnought.

Both cruisers have a speed of 22
knots and will make the trip to Colon
in four days. Mr. Taft expects to be on

in Charleston November 22. He will

BOISE, Idaho, Nov. 10 .- (Special.)-

With approximately 75 precincts over the state still to hear from, the returns

from many reported in today placed

James H. Hawley, Democratic candidate for Governor, in the lend by 200

votes over his oppenent, Governor

James H. Brady, Republican. The re-suit is still doubtful with both sides claiming victory. It is asserted the late returns will be favorable to Brady, but this seems hardly possible. The

hut this seems hardly possible. The official count will probably give Hawley a safe majority.

Hawley was this morning congratulated upon his apparent victory by Governor James H. Brady, his Republican opponent, who at that time conceded his own defeat. A few hours later.

come t. lead of Hawley in event that Brady gets approximately 60 per cent. of the outstanding vote. The hope is held by Republicans that the country precincts, being remote from the seat of strife and disaffection occasioned by the "wet" and "dry" and railroad com-mission issues, will return substantial pluralities for Governor Brady and thus offset the present plurality of Hawley.

The decision rests on the unreported votes, which may be sufficient to over-come t. lead of Hawley in event that

Democratic State Chairman Nugent claims Hawley's victory by 800 votes. Those in charge of Republican head-quarters are still in hopes Brady will be elected. Neither of the candidates will give out a statement. Both say they will wait for the official count. The next Senate will contain 18 new members, 10 Republicans and six Democrats. It is openly charged here that if beaten, Governor Brady can lay als defeat to the railroad commission plank in the Republican platform and the agitation on prohibition for which he was pledged.

CABLE COSTS REDUCED

New Plan Will Put Premium on Short Words.

NEW YORK, Nov. 10 .- (Special.)-An inquiry having been made of Clarence H. Mackay, president of the Com-mercial Cable Company and the Postal Telegraph Cable Company, as to the rumors of a pending reduction in cable

rumors of a pending reduction in cable rates, Mr. Mackay said:

"The Commercial Cable Company has been at work for some time past in formulating a plan by which the rates for cablegrams in plain language as distinguished from code language be reduced about one-half. That plan has now been worked out, and inasmuch as it will require the co-operation of the telegrapic lines in Europe, where the governments own the lines, our plan involves a proportionate reduction in the land line rates charged by European governments and hence the cooperation of these governments will be necessary.

"At present the cable rate is 25 cents a word. The proposed plan is to charge 1245 cents for every five letters in that class of telegrams. We have found that plain language averages only five

class of telegrams. We have found that plain language averages only five letters to the word and hence if we charge only 12% cents for five letters (every letter in the cablegram being counted as though the whole cablegram was one word) the result would be that the public in sending cable-grams would pay only half of what it

now pays.

This new mode of charging for cablegrams will be of decided advantage also to the business public which uses a code, thasmuch as it will be an inducement to them to put a portion at least of their cablegrams in plain language rather than use a complicated code which requires a great deal of time on their part, first, to code and then to uncode.

We believe that, this new method of charging for cablegrams will not only

majority report of the committee was adopted \$7 to 11, three Democrats voting with eight Republicans present. The judiciary committee reported adversely the following:

Juvenile Court bill providing for care of minor offenders; the Feeney bill, giving the right to organize strike, picket and boycott; and the one requiring a five-year residence as a qualification for United States Senators.

All these matters will come up in committee of the whole tomorrow, when a determined effort will be made for the adoption of most of these measures.

The convention by a vote of 18 to 20 defeated an amendment to the recall proposition excluding Supreme and Superior Court Judges from the operation of the recall. The vote was taken after several hours' debate on other amendments and after a conference by the Democrats, after which an ineffectual attempt was made to persuade those favoring the inclusion of the those favoring the inclusion of the judiciary in the provisions of the recall to recede from their stand. BURNED AREAS RESEEDED

Forest Service Men Plant Larch and Pine Near Bear Creek.

WALLOWA, Or., Nov. 10.—(Special.)—
Local officers of the Forest Service began yesterday to plant 65 acres of an old
burned area on the headwaters of Bear
Creek to European larch and Scotch pine.
They are using the seed-spot method in
all over 500 acres have been planted in
the Wallowa National forest this year,
but all except the Bear Creek burn are
in areas burned over this year.
The Bear Creek burn, which is several
years old, is on the watershed of Wallowa's water supply and as it has not
reforested from natural sources, the Forest Service has resorted to artificial
means to better protect the storehouse
for the city's Summer supply of water.
The method used consists of digging seed
spots six feet apart each way and planting the tree seeds. While the loss of
seed in this manner is a very large percentage, it is considered one of the most
economical ways of reforesting burnedover areas.

The work is under the direction of impervisor H W. Harris and six men re employed.

As annual Albany Apple Fair today, tended by Governors and other officials viewed the exhibits of apples and heard addresses on horticultural topics, being was run-up and he was received with a ruffle of drums, a blare of trumpets and all the ceremonies accorded the Commander-in-Chief of the American armed forces.

The President is making a purely business trip to Panama and accompanied only by his brother, Charles P. Taft, Secretary Norton, two aides, a physician and a stenographer.

As annual Albany Apple Fair today, tended by Governors and other officials of all states west of the Rocky Mountains, United States Senators, Representatives and the Mayors of many of the more important cities in the region. Coast defense, the American merchant marine and the Panama Pacific International Exposition will be among the subjects discussed.

An elaborate reception has been arphysician and a stenographer.

Hood River Fruit Association of Hood River, was the leading speaker on the programme tonight. He talked on "How to Market Our Apple Crop." E. H. Shepard, editor of Better Fruit, of Hood River, also spoke. A musical programme was also given.

At this afternoon's programme the principal address was made by H. C. Atwell, of Salem, president of the State Horticultural Society, who spoke on "The Commercial Apple." Judge C. H. Stewart presided at the afternoon seasion and Postmaster J. S. Van Winkle was chairman of the evening.

Display Is Larger.

The exhibits at this year's fair are one-third larger in size than those of any of the preceding annual exhibitions and there is also a greater variety
of fruit displayed. The apples on display are also the equal if not superior
in quality to those displayed here in

preceding years.

There are six Linn County towns competing for the prize for the best community exhibit and all have best community exhibit and all have spiendid displays. They are Lebanon. Brownsville, Harrisburg, Crabtree, Oakville and Sweet Home. The single-box exhibit this year is larger than that of any preceding fair and there is also a record-breaking display on plates. Only in number of county exhibits is this year's fair inferior to pravious exhibitions. previous exhibitions.

Packing Is Superior.

The packing of the apples displayed this year is far superior to any exhibit ever held in this part of the state. This indicates the growth in use of scientific methods by Willamette Valley fruitgrowers. Great interest in methods of growing and marketing fruit is apparent among present growers and prospective orchardists who are attending the fair in large numbers, many having come long distances for the purpose.
