COMMERCIAL CLUB

An organization of Fort George citizens and business men will give authentic information free regarding openings for business and investments in what will be one of the largest Canadian cities.

The registered legal townsite of Fort George adjoins the Indian reservation on the west and faces on the Nechaeo River. There is no other logical location for a city in the vicinity and every railroad chartered to build through Central British Columbia will run through our town because they can't

We will have all railroads. Other townsites starting in the vicinity will have none at all because of the topog-

MY CURES ARE PERMANENT

25 Years of Cures

FOR MEN

men only.

A great many people do not seem to understand the difference between the regular practitioner and the medical expert who has devoted his life study to, say three or four complicated aliments. They seem to be under the impression that any physician cures any aliment with equal success. It is an every-day experience to have a patient say: "I have tried nearly every remedy sold by druggists for my trouble," and the invariable verdict is, "No benefit." Another will say: "I have been treated by several family physicians in my neighborhood who thought they could cure me, but the results proved otherwise."

PAY AFTER I HAVE CURED YOU

More Men Might Be Well

There are scores and hundreds of afflicted men who believe their cases incurable because treatment of the past has resulted in fallure, and who, through this belief, are being deprived of the full and complete health that might be theirs. I do not claim that there are no incurable cases, but I do claim that many cases absolutely incurable by such treatment as has been given them will yield promptly to the correct and scientific methods that I exclusively employ. I offer free consultation and will accept for treatment no case unless I am confident of my ability to affect a complete cure. This is meant emphatically.

I say that you can be cured. I stand ready to back up this statement with proof. I ask you'to call at my office and talk with me about it. Examination and consultation will cost you nothing, and I will explain to you my methods of curing. The methods I will tell you about are unlike those employed by any other doctor. They are, in their chief essentials, methods of my own devising. They are founded upon a knowledge of the truth in regard to the allments of men. That's why they cure, and why they are the only methods that can soundly and thoroughly cure.

My Saccessful Treatment for Ailments

Dosing the system with powerful stimulants and tonics in an effort to restore health can have but one final result: The condition is rendered worse than before. "Aliment" is merely an indication of a low form of inflammation, and this inflammation is but aggravated by stimulating remedies that excite temporary activity. I employ the only scientific and fully effective treatment for aliments which effects a permanent cure. By my direct-method treatment I obtain complete results in every case I treat.

Varicose Veins, Its Complete Cure Without Surgery

Those suffering from varicose veins or any other ailment tending to destroy and disfigure and to render happiness impossible are urged to call upon me without delay. Those wasting valuable time, dissipating their money and aggravating their ailment by submitting to indirect, ineffectual, unscientific treatment that never did and never can cure, are invited to visit me and investigate my successful system. I positively guarantee results in all curable cases and frankly refuse to accept any other cases, if for any reason it is too late to guarantee a cure.

Under my treatment the most aggravated cases of varicose veins are cured. There is no pain, and it is seldom necessary that the patient be detained from his occupation. Normal circulation is at once restored throughout and the natural processes of waste and repair are again established. If you are afflicted with varioose veins consult me at once. Delay can but bring on aggravated conditions and nervous complications that will involve the general health.

Men's Ailments

Every case I treat is cured thoroughly. My patients have no relapses. When I pronounce a case cured there is not a particle of infection or inflammation remaining, and there isn't the slightest danger that the sliment will return in its original form, or work its way into the general system. Some aliments are less serious than others, but none are so trivial as to warrant uncertain methods of treatment. I especially solicit those cases that other doctors have been unable to cure.

Examination and Advice Free

I offer not only FREE consultation and advice, but of every case that comes to me I will make a careful examination and diagnosis without charge. No alling man should neglect this opportunity to get expert opinion about his trouble, OFFICE HOURS -9 A. M. TO S P. M. SUNDAYS, 10 TO 1 ONLY.
