

MEXICAN REBELS
ATTACK AT NIGHT

Federal Troops Routed in Big Battles Throughout Interior of Country.

MADERO LEADS REVOLTERS

Southern Mexico in Hands of Insurrectos, Who March on Vera Cruz—Diaz Forces Gain Two Cities, but Face Attack.

(Continued From First Page.)
The and vicinity of Torreon are reported gathering in great numbers at San Pedro La Colonia, 15 miles east of Gomez Palacio.
A trainload of federal troops arrived in Parral Tuesday from Jimenez, ahead of another company of state rurales. The attacking mob fled to the hills soon after midnight.
It is reported the leaders escaped southward on the Parral and Durango railway, by impressing a train which had been unable to get a crew the day before during the riots. A number of casualties were reported, but it cannot be learned at this hour if any Americans were killed. Wholesale arrests are being made.

Southern Mexico Cut Off.

Southern Mexico virtually has been cut off from the capital, railroad bridges having been blown up or burned, and the revolution has attained great proportions in that section of the Republic, especially in Yucatan.
It is declared on reliable authority that Vera Cruz will be captured by the revolutionists within three days, and that the revolutionary movement is sweeping northward. A copy of the proclamation issued by General Madero was forwarded from Mexico City to Washington Tuesday night. It pledges Mexican protection to American lives and property.

Passenger Train Fired On.

A passenger train on the Mexico Northwestern Railroad, running between Chihuahua and Madera, was fired into last night and several second-class passengers killed. The number of dead and the extent of the damage have not yet been ascertained. Fighting has taken place at San Andres and Temosacht, along the railroad.
An order has been issued by the Mexican postal officials to refuse admittance to all American newspapers containing references to the Mexican revolution. The postal officers at Juarez received the order this afternoon and announced that no newspapers would be accepted for transmission to the interior.

Matamoros Rising Fiercely.

Mexican authorities are taking great precautions to cope with any uprising at Matamoros and vicinity.
Matamoros is surrounded by a line of sentries. Guards at military quarters, jails and hospitals are doubled. The Fourth battalion of infantry has replaced the Ninth battalion, which was transferred to San Luis Potosi last week. It is reported that 1000 troops are on the way from Central Mexico.
Five thousand men in a construction camp of the Mexico Northwestern Railroad near Casas Grandes, Chihuahua, threaten to revolt. The Mayor of Casas Grandes has telegraphed a request for troops, stating that the city will be in the hands of rebels if reinforcements are not received today.

Virtually all the surrounding country is in the hands of the rebels, according to good authority. A trainload of two cars of soldiers arrived at Parral at noon and immediately dislodged the revolutionists from their fortified position above Parral. They fled in disorder, presumably toward Durango City. Eight rebels are reported killed and three rurales were wounded.
The Federal telegraph, however, reports its wire by way of Guaymas, Sonora, has been cut, supposedly by a band of Yaquis, who are terrorizing that part of the country.
Mexican troops to the number of 300 have been rushed into the barracks at Cananea, Mex., and squads are now marching to take positions along the border between Nogales and this city. Two hundred soldiers will arrive in Agua Prieta at midnight and encamp here on the border. Patrols have been stationed along the international line within sight of one another and tonight these will be treated with a signal system for transmitting messages. The Customs-House permits issued to American hunters to take guns across the line have been revoked, even those given in writing by the War Department, many of which are held by Americans of this city.

Americans Offered \$20 a Day.

The Mexican authorities have enlisted American riders with horses to serve as line guards in the border patrol. They will be paid \$20, Mexican, a day, and the high price is tempting more Americans to offer their services.
Francisco Madero, reputed leader of rebels, is believed to be near his home in Coahuila.
Yesterday three bodies of revolutionists attacked the military barracks at Orizaba and liberated and armed the prisoners.
The attack was well planned and executed. The revolutionists, who numbered 200, divided their forces, and a group of 100 stationed on the summit of a nearby hill, threw dynamite bombs into the barracks. When the soldiers fled from their quarters and charged their assailants, the other party attacked the prison. Beating down the guards and forcing an entrance, they liberated all of the prisoners, and then armed them. The 15th Mexican Infantry charged the revolutionists and drove them back into the woods, after a hot fight that continued until 9 o'clock. The number of casualties cannot be learned.
During the fighting the 10th Cavalry from Mexico City and the 13th Infantry,

LOWER CALIFORNIA HOSTILE

Uprising Feared by Mexican Authorities Who Bar Out Arms.

SAN DIEGO, Cal., Nov. 22.—That a rising in Lower California similar to the rising in the parts of Mexico, is feared by the Mexican authorities on the peninsula, is strongly suggested by the fact that the customs officers guarding the line at Tijuana today received orders that no firearms or ammunition of any kind will be allowed to pass from the United States into Lower California.
According to the reports, which reached the city this morning from Tijuana, revolvers and rifles by the score have been carried into the interior of Lower California during the last few days. This information, it is said, was carried to the Governor of Lower California at Ensenada and the sweeping order stopping all kinds of ammunition and firearms is said to have originated from the capital.
In order to see that this latest order is carried out, to the letter, an extra large force of line riders have been put on and the customs officials have been strengthened by the appointment of extra men.

INTERIOR SITUATION SERIOUS

Border Quiet Through Lack of Knowledge of Excitement.

EAGLE PASS, Tex., Nov. 22.—It was learned here from one of the highest officials in close touch with the revolutionary movement in Mexico tonight that hostilities are now going on in Cuatro Ciénegas, a large and prosperous city below Monclova.
This same authority, whose position in the Mexican government is not stated, said the situation in Mexico is more serious than at any other time for several years. He declared the situation on the border is nothing compared to what it would be if all were known of the situation in the interior. He says that the officials and citizens of Ciudad Juarez are expecting the worst at any time.

The passenger train from the south, which is supposed to have left Torreon in late afternoon, was not arrived in Ciudad Porfirio Diaz, though it was due there at 11 o'clock this morning and officials say they do not know where the train is.
Railway wires are not working. Residents of Eagle Pass, who have relatives in Torreon and other points down the Mexican international line, have not been able to get word from them for three days.
Troop L, Third United States Cavalry, under command of Lieutenant Bristol, arrived in Eagle Pass at 6 o'clock this afternoon and is just unloading.
Another Mexican troop has just been ordered to Cuatro Ciénegas.

REBEL DEFEAT IS FORECAST

American Ambassador at Mexico Thinks Uprising Futile.

WASHINGTON, Nov. 2.—That the revolutionists in Mexico are doomed to defeat, is the opinion of Henry Lane Wilson, the American Ambassador in the Mexican capital.
From that vantage point, with access to the reports received by the American Government and other military commanders and civil governors, and with his private advice from the American consular offices at points where disturbances are occurring, Mr. Wilson has reached this conclusion.
T. J. Keenan, United States Consul at Chihuahua, in a dispatch to the State Department, reported that the revolutionists had captured three towns in the western part of the state. The Government, he added, had called a meeting of business men for the purpose of making plans for the defense of the city.
From Eagle Pass, Luther T. Ellsworth, United States Consul at Ciudad Porfirio Diaz, verified the press dispatches that the revolutionists had taken Gomez Palacio, which later was recaptured by the Government forces.

KOZER'S JOB UNSAFE?

GOVERNOR CAN REMOVE INSUREANCE COMMISSIONER.

Chamberlain Allowed Benson to Appear, and on This Ground Koser May Keep His Place.
SALEM, Or., Nov. 22.—(Special.)—Although Insurance Commissioner Sam Koser's appointment, which was made by Governor Frank W. Benson, is not supposed to expire until 1912, a "joker" in the bill creating the office probably means that his official head will fall with the new administration.
The law gives the Governor power of appointment for this office, and speaking of removal before the expiration of the appointee's term, says: "The Governor may at any time remove such Commissioner from office for inefficiency or malfeasance or when in his judgment the good of the service requires it."
"In case of my removal under this act, the action of the Governor shall be absolute and not subject to any appeal or review whatsoever."
While Oswald West's attitude in relation to retaining Mr. Koser has not been made public, under the act as it stands it is plain that it was originally set up for manipulation of a political execution.

FALL DOWN SHAFT FATAL

Dying Man Begs Doctors to Notify Oregon Sweetheart of Fate.

SPOKANE, Wash., Nov. 22.—(Special.)—L. L. Pounders, a salesman of M. Sells & Co., was killed today by falling from an elevator in the company's store on Riverside avenue. The man dropped from the third story to the basement and died 10 minutes later.
Although the victim was suffering from crushed bones and internal injuries he retained strength enough to beg the physicians who attended him to notify his sweetheart, Miss Fern Ross, of Mayton, Or.
About the time of the accident the young man was operating the elevator and is believed to have been attempting to close the gate when he lost his balance and fell.
Pounders came to Spokane six months ago. His father, R. Pounders, lives at Batesville, Ark.

NABOB'S WIFE EX-SERVANT

Thomas T. Eckert, Jr., Marries Former Hotel Maid.

NEW YORK, Nov. 22.—Miss Minnie Eagen, who formerly was a hotel maid at \$10 a month, was married today to Thomas T. Eckert, Jr., heir to the \$3,000,000 estate of the late General Thomas T. Eckert, long president of the Western Union Telegraph Company. The crowd around the Roman Catholic Church, in which the wedding was held, was so great that the sexton called for police to keep it in check.
Mr. Eckert is 32 years old and his bride is 45. He said he was not going on any extended honeymoon, as he had to stay in New York to defend a con-

TAFT RETURNS, IS NOW AT RICHMOND

In Trip From Panama, Vessel Hits Severe Storm—Collision Barely Averted.

CANAL PROGRESS PLEASÉS

At Old Confederate Capital, President Attends Reception, and This Morning Will Dine With Governor Mann.

RICHMOND, Va., Nov. 22.—Landing from the armored cruiser Tennessee at Port Monroe this afternoon on his return from a visit to Panama, President Taft came to Richmond tonight to be the guest of the citizens of the old confederate capital for 24 hours.
The trip up from Panama was filled with incident. On Friday night last, about 140 miles south of Guantanamo, Cuba, the Tennessee narrowly averted a collision with a German schooner, which was supposed to be a German raider. A heavy squall had shut in around the Presidential squadron, the weather being so thick that the steamer could not see a mile and as it cleared the German ship was cutting directly across the Tennessee's bows, not a quarter of a mile away. The helm of the Tennessee was put hard over. The Freya continued on her course. There was no exchange of signals.

Vessel Hits Severe Storm.
On Saturday the President spent three hours at Guantanamo, looking over the American naval base. The territory visited by Mr. Taft is under American sovereignty.
Monday morning brought the only disagreeable weather of the voyage. Off the north coast of Florida, the Presidential cruiser ran into the tall end of a cyclonic disturbance.
Speed was reduced to almost nothing for a time, hatches were baitered down and ventilators and all other gear lashed to the decks. The height of the storm was passed about 3 A. M. and the sea did not moderate until well toward noon.
The Mexican situation is still being handled wholly by the State Department at Washington. Mr. Taft has had but meager details.

Canal Situation Gratifying.

The President is deeply gratified over conditions in Panama. The canal is taking form rapidly, and the final completion is not being looked upon by the Executive with the slightest degree of doubt. Mr. Taft has absolute confidence in Colonel Goetzke, the chief engineer, and the members of his staff.
His personal inspection of the Gatun dam, the two flights of locks and the Panama canal, greatly impressed the President, and he declared that if all American citizens could see these great works there would be no longer any misgivings as to the future of the canal. Taft dined this evening at the Westmoreland Club and later held an informal reception at the Commonwealth Club.
Tomorrow the President will breakfast with Governor Mann at the Executive Mansion, will motor over some of the battlefields surrounding Richmond, will be entertained at luncheon and will speak in the afternoon to the Virginia Educational Conference. The President will reach Washington at 3:30 tomorrow night.

COURT MAY BE INCREASED

State Capitol Employees Hear Talk of More Supreme Judges.

SALEM, Or., Nov. 22.—(Special.)—Passage of the three-fourths amendment to the constitution, which amends Article VII of the constitution, allows an unlimited number of Justices on the Supreme bench, and several rumors were current at the Capitol today as to the action of the next Legislature in reference to increasing the number of Justices from five to seven.
With the court a year behind in its work and with the new amendment practically inviting an increase of judges by not even interfering the number that should act, it is said a move is already on foot to attempt to increase the number by at least two.
In event such should be done with the emergency clause attached, it would give the next Governor, Oswald West, power to appoint two Democratic Justices if he saw fit, and a bare possibility that Justices King and Slater might serve further terms on the bench.

FALL OUT TREE NABS BEAR

Big Bruin Caught in Trap in Elk City Orchard.

ELK CITY, Or., Nov. 22.—(Special.)—Falling out of an apple tree into a steel trap was the fate of a big black bear discovered in M. L. Trapp's orchard near here yesterday.
Bruin was chased by John and Gustav Jacobson, section men on the Corvallis & Eastern Railroad, which runs along the Trapp orchard. The chase led from the apple trees through dense timber and over a ridge.
The hunters lost the bear's trail and were about to give up the chase when they heard the hounds come to bay in a canyon. They found the bear caught in a steel trap which had been set in an old bear runway.
The communication was referred to a committee.

PENITENT RETURNS \$10

Member of 1907 Surveying Party Sorry He Took State's Goods.

OLYMPIA, Wash., Nov. 22.—(Special.)—To ease his conscience a member of a survey party that ran the lines for a state road near North Bend in 1907, today sent a \$10 bill to J. G. Lewis, State Treasurer, and the money was paid into the general fund.
The writer, whose name is not made public, says that he was a member of a survey party, which, when the members disbanded in 1907, divided the supplies on hand among them. He says \$10 will pay for the share of the state's property he took. He wrote a letter

LET YOUR STOMACH HAVE ITS OWN WAY.

Do Not Try to Drive and Force It to Work When It Is Not Able or You Will Suffer All the More.

You cannot treat your stomach as some men treat a balky horse; force, drive or even strike it into doing work at which it rebels. The stomach is a patient and faithful servant and will stand much abuse and ill-treatment before it balks, but when it does you had better go slow with it and not attempt to make it work. Some people have the mistaken idea that they can make their stomachs work by starving themselves. They might cure the stomach that way, but it would take so long that they would have no use for a stomach when they got there. The sensible way out of the difficulty is to let the stomach rest if it wants to and employ a substitute to do its work.

Stuart's Dyspepsia Tablets will do the work of your stomach for you and digest your food just as your stomach used to when it was well. You can prove this by putting your food in a glass jar with one of the tablets and sufficient water and you will see the food digested in just the same time as the digestive fluids of the stomach would do it. This will satisfy your mind. Now, to satisfy both your mind and body take one of Stuart's Dyspepsia Tablets after each meal—eat all you want—and you will feel in your mind that your food is being digested because you will feel no disturbance or weight in your stomach; in fact, you will forget all about having a stomach, just as you did when you were a healthy boy or girl.
Stuart's Dyspepsia Tablets act in a natural way because they contain only the natural elements of the gastric juices and other digestive fluids of the stomach. It makes no difference what condition the stomach is in, they go right ahead of their own accord and do their work. They know their business and surrounding conditions do not influence them in the least. They thus relieve the weak stomach of all its burdens and give it a much-needed rest and permit it to become strong and healthy.
Stuart's Dyspepsia Tablets are for sale by all druggists at 50 cents a box. They are so well known and their popularity is so great that a druggist would as soon think of being out of alcohol or quinine as of them. In fact, physicians are prescribing them all over the land, and if your own doctor says you frankly that there is nothing on earth so good for dyspepsia as Stuart's Dyspepsia Tablets.

test of his father's will, brought by his brother, James Eckert, who alleges that his brother used undue influence on their father.
Mrs. Eckert, the bride, was at one time a domestic in the household of General Eckert.

"SLANDER" STAND UPELD

Grange Members Ousted for Complaining, State Seeks Charge.

ATLANTIC CITY, N. J., Nov. 22.—The National Grange today voted the recommendation of the committee of the whole, finding George P. Hampton, of New York City, and J. W. Helme, of Adrian, Mich., guilty of malicious slander of the present administration of the National Grange and expelling them from the sixth degree of the organization.
Representatives of the insurgent states, New York, Pennsylvania, Oregon, Washington and Maine then took the floor and in a formal communication reiterated the accusations made by Hampton and Helme and added several others, alleging that the officers failed to extend the Grange because they feared they would be unable to control the votes.
The communication was referred to a committee.

IT'S TIME to fit the Boy out in his Winter Togs—

We are anxious to have you visit this BOYS' DEPARTMENT

of ours—It is patterned after our Men's Department to give the BEST VALUES and the BEST SELECTION—and occupies an entire floor by itself—

BEN SELLING Leading Clothier

some time ago and asked the State Treasurer for advice, and Lewis told him to send in the money. He followed the advice.
MOUNT ANGEL COLLEGE, Mount Angel, Or., Nov. 22.—(Special.)—Paul Kehl, nephew of Abbot Placidus, who has passed several years at Mount Angel College to become "Americanized," has just returned to Germany, where he will take a theological course at one of the famous European universities, before entering the priesthood. He completed his philosophical course at Mount Angel College. He intends to place himself under the Bishop of Fulda when ordained.
