# STORMY SESSION ENDS IN AMNESTY

Brazilian Mutineers Pardoned, but Put to Sea Before Word Is Given.

#### DEPUTIES COME TO BLOWS

Argument Lasts Two Days but Finally Measure Passes by Heavy Vote-Sallors Win Demands and Will Have Less Work.

RIO JANEIRO, Nov. 25 .- The Chambe of Deputies today, by a vote of 114 to 23. passed a resolution granting amnesty to mutinous saliers on board the battleships Minas Gornes and Sao Paulo, the coast defense ships, Marshal Fioriano and Marshal de Odoro and the scout ship Bahlo. The Senate passed the

measure yesterday.

Immediately after the lower House voted to pardon the sailors for mutinging and killing several of their officers and throwing shells into the city, Prosident Fonseca authorized Deputy Carvalho to visit the Sao Paulo and confer with the mutineers, but the ships had

## Scene in Chamber Is Stormy.

The decision of the Chamber of Depu-ties was not reached until there had been stormy scenes and several fisticuffs on the floor. When the Senate passed the measure the Chamber immediately took up its consideration. Its debate was without result yesterday and the seasion was adjourned until today. #### Mutineers Express Repentance.

"Repentant of the act we committed in our defense and for the sake of or-der, justice and liberty, we lay down our arms, trusting that amnesty will be granted to us. We will remain obedient to your excellency, in whom we have all confidence."

Following the action of Congress, the mutineers went through the formality of surrendering, and before noon today the city had resumed its normal activities and the public excitement had subsided. While the revolt insted, the people of the city were kept in a state of suspense, fearing that the mutineers would make good their threat to demolish the capital unless their wishes were met. It is doubtful, however, that they would have taken this step in any event, because of the likelihood of complications with Great Britain.

#### Bryce's Position Dangerous.

At the time of the revolt James Bryce, British Ambassador to the United States, was the guest of Baron Rio Branco, the Brazilian Foreign Min-ister, and he would have been as likely as anyone to suffer from a bombardment. On the other hand, the mutinous battleship Sao Paulo had on board sev-eral British subjects who accompanied the vessel on its first trip home after

At the outbreak of the trouble, Sir William H. D. Haggard, British Minister to Brazil, notified the Brazilian Foreign Office that any attempt of the loyal torpedo boats to destroy the revolting war-ships would be attended with danger to British subjects on board. It is also

known that the government hesitated to damage the bulwarks of its navy. What the ultimate effect of the am-nesty will be on discipline in the may is a matter of concern. The immediate effect is to give the saliors increased pay, fewer hours of service, and less work through the recruiting of additions in the crew, and to abolish corporal pun-ishment in the fleet.

Following the departure of Johnson statements were wired to President Compers at St. Louis, alleging that Johnson had been ordered to leave the city. Fresident Gompers made a pro-test to Governor Gilchrist, who referred the affair to Mayor Mackay.

Johnson had been in Tampa about eight months and the present strike, involving nearly 10,000 workmen, is attributed indirectly to him. With the atrained conditions existing as a result of the critical business situation, feeling against him has been growing in-

Waterways Congress Is Expected to Be Largest Yet.

Ambassador James Bryce.

#### PRESIDENT TAFT TO SPEAK

Governor Harmon, of Ohio, General Bixby, Representative Champ Clark and Canadian Conservationist Also to Talk.

WASHINGTON, D. C., Nov. 25.—(Special.)—The seventh convention of the National Rivers and Harbors Congress. which will be held in this city December 7, 8 and 9, it is expected will bring to the National Capital the largest gathering of waterway enthusiasts ever assembled in this country. Pres-ident Taft, who will deliver the opening address to the delegates, said in the course of a speech in Chicago that transportation was the question of the hour and that the only solution of the

problem was recourse to the water-ways of the United States.

Probably next in importance to the address of the President of the United States will be the speech of Governor Harmon, of Ohio, who has for years heen a close student of the question been a close student of the question of improved waterways. At the very meeting held in Cincinnati seven years ago when it was determined to reor-ganise the National Rivers and Harbors Congress, he completely refuted the idea in his address to the delegates at that time that the different states through which interstate waterways run should be called upon for a pro rata sum for their improvement, insisting that the jurisdiction belongs entirely to the Federal Government whose duty it is to improve such streams for the benefit of all the states through which

#### Many Will Speak.

In addition to these distinguished itizens, others quite as well known in their several vocations will deliver advontion, including Clifton Sefton, chair-man of the Conservation of the Cana-dian government; the Mexican Ambas-sador, General W. H. Bixby, Chief of Engineers; Governor Horace White, of New York; Representative Champ Clark, of Missouri; Colonel William L. Sibert, member of the Panama Canal Commission, who will speak on Panama Canal as a Connecting Link Between Our Coasts"; Walter S. Dick-ey, of Kansas City, the chief promoter of the Missouri River steamboat line; F. W. Crandall, National chairman of the railroad committee of the Travel-ers' Protective Association of America; Robert J. McErrland of Brooklyn who Robert J. McFarland, of Brooklyn, who is one of the leading spirits in the New York Waterways Association, and Mrs. Hoyle Tomkies, of Louislana, president of the Woman's National Rivers and Harbors Congress.

The appearance of the chief of engineers upon the platform of the Na-tional Rivers and Harbors Congress marks a precedent, as none of the preceding chiefs of engineers have ever addressed this great body of waterway advocates. Their particular objection to thus appearing was that as they were intimately associated with the recommendations for the improvement of the rivers, harbors and canals of the country and their references might be regarded as official in character, therefore greater importance might at-tach to their utterances than would otherwise be the case.

### General Bixby Accepts.

General Bixby, however, who probably has a knowledge of the waterways of continental United States as wide as that of any officer of the wide as that of any officer of the corps, has accepted the invitation of President Joseph E. Ransdell of the Congress to address the convention. after consultation with the Secretary of War.

Four thousand delegates attended the gonvention held in this city last year and, according to Secretary Ellison, of Cincinnati, who opened his headquarters today at the New Willard, this number will be greatly augmented at the forthcoming convention his conthe forthcoming convention, his cor-respondence indicating increased inlerest in the propaganda of the Na tional Rivers and Harbors Congress, which stands for a "waterway policy and not for a waterway project."

In order to cover possible damage that might be sustained by the singer. Judge Hough directed Robert C. Beatty, Mr. Hammerstein's counsel, to file a bond for \$5000 by noon tomorrow. "We'll make 'em eat that injunction, scals and all," said Mme. Tetrazzini's lawyer today.

"The whole secret's muss is that William H. Leahy, of San Francisco, by whom Tetrazzini wants to be booked, offers her more money than our contract calls for," said Lawyer Vorhaus. "He figured on paying her at least \$2500 every time she sings, and naturally she prefers such an arrangement, it was to stop her from going out to California, where she is billed to appear on December 15, that we went on pear on December 15, that we went on board the Mauretania last night and served her in spite of her lawyer and Mr. Leahy.
