It would no doubt surprise you to go through the average vault and see the conglomerate mass of rubbish, from a last Summer's straw hat to musty books and filing cases, that there is about as much reason for such safekeeping as rubber hands in a cash register. The result of investigation is that the catch-all vault has outlived its usefulness, that the safe is too bulky and that the steel cabinet will gain in popular favor, as it seems the only logical solution of the vault problem.
