Candidates for Speakership Campaign Quietly-Eaton of Lane Is Active-Reynolds Is Choice of Marion-All Reticent.

SALEM Or. Nov. 20.—(Special.)—In sessions of the Gregon Development League the State Capitol has proved to be a rendezvous for politicians, especially members of the next Legislature and asmembers of the next Legislature and applicants for the next Speakership of the House. Sixteen members of the next House were in the city today and all of them visited the Capitol. Each has a coterie of friends present and each aspiring to the Speakership is boosted by his afherents and constituents. In fact, the Hall of Representatives and the State House lobbles have been taking on all of the appearance of a caseus the night before the Legislature convenes.

Ifours lobbles have been taking on all of the appearance of a caucus the night before the Legislature convenes.

Among the avowed candidates for the Spenkership here are John P. Rusk, of Wallowa; Henry M. McKinney, of Baker, and Allen H. Enton, of Lanc. Their friends have been displaying great actively in promoting their chances for the high seat. W. H. Hollis, of Washington: P. O. Bonebrake, of Benton, and Lioyd Reynolds, of Marion, are also candidates. There has been work done in behalf of each and the race promises to be warn up to the very opening of the Legislature. Among other Representatives here today were J. A. Westerlund, Jackson; J. S. Abbott, Multnomah; W. M. Sulton, Lane; Roy Graves, Yamhill; George W. Johnson, A. C. Libby, A. G. Steelhammer and Carle Abrama, Marion; George Neurer, Jr., Douglas, and J. C. Smith, of Josephine.

Eaton Decemed Pavorite.

Eaton Deemed Favorite.

These men are not, as a rule, telling with whom they are tied in the Speakership race, as it still seems to be an uncertain problem and they do not feel inclined to commit themselves. It is understood that the Lane County delegation will go as a unit for Eaton, and an effort has been made to secure him substantial

will go as a unit for Eaton, and an effort has been made to secure him substantial support among other valley counties. McKinney has always been considered a strong contestant in the race, and his friends have been doing heavy work for him here for the last few days. Just how successful they have been has been kept well in the dark.

A few Senators have also been seen around the State Capitol. They included John A. Carson and Hal D. Patton, of Marien; C. L. Hawley, of Polk, and M. A. Miller, of Linn. None of these is a candidate for presidency of the Senate, and their presence does not indicate the fighting spirit brought out by the scramble of the legislators of the lower house toward the Capitol.

Post Seekers Abound.

Candidates for cierkships and other offices in the lower house have also ap-peared on the scene, and Salem is be-coming a political hotbed leading up to the session of the next Legislature, a little over a month away. Acting Governor Bowerman is still in

active candidate, and it is understood a strong campaign will be waged in his behalf. With Reynolds in the field this places the brunt of the battle for leadership on Easten, McKinney and Reynolds. McKinney is understood to be strong in Eastern Oregon and Reynolds and Eaton promise to divide the support in the Valley, while Southern Oregon is doubtful as far as can be learned here in its predilection for Speaker.

Mrs. Clemshire was a sister of Squires, for years a leading newspaper man of Oakland. She was being held pending the arrival of officers from Salem in League Convention | Dending the arrival to take her back to the Southern city.

When assured it was, the official declared he had known Mrs. Glemshire in her younger days and that as Ailte Squires she was regarded as one of the mest beautiful wemen in California.

Acting Governor Bowerman is still in Eastern Oregon, but is expected to return to Salem probably the first of next week. It is expected that from now on the political pot will be kept boiling between here and Portland.

At a meeting of the Marion County delegation held today, Lioyd Reynolds, of Chemawa, was unanimously indorsed for the Speakership, and strong resolutions were drawn placing the indorsement in tangible form. The delegation also organized, naming George W. Johnson, of Salem, as chalrman, and Carle Abrams, also of Balem, as excellary. # GOLD MINE CHRISTMAS GIFTS

Nothing Could Be Better Than Swastika Shares as a Present to Your Family or Friends

Ten dollars invested in Swastika mining & Development Company shares NOW, at 10 cents per share, would be a gift that, we feel confident, will soon grow into a present worth at least \$100. And it would be one, we as truly believe, good for at least 25 to 50 years-a constant reminder of the affection of the donor. One hundred dollars placed in this stock now will easily grow to \$1000, unless some unforeseen calamity should occur, and this would afford an income sufficient to care for an economical person-once we are in FULL operation. We feel sure this mine will pay 200 per cent per annum on all money paid for stock at this time, and probably FIVE times as much when all the ten claims of our 200 acres are developed. This is why we say that in our serious judgment SWASTIKA SHARES ARE THE BEST CHRIST-MAS PRESENT possible to make. Other gifts deteriorate with age and decrease in value. This stock will INCREASE in worth each year for at least two or three generations. IT IS THE GIFTS OF ALL GIFTS! And it may be paid for a little at a time.

### NOT A DOLLAR

In the shape of salary is paid the officers of the Swastika Mining & Development Company for services to its stockholders.

All serve without compensation, well satisfied to wait until their pay is actually taken from the Swastika mine. This statement is made in reply to an inquiry, and to set at rest any cogitations that might disturb the mind of any reader of our advertisements. All officers are stockholdershave paid cash for their shares—will not receive a penny more of dividends per 1909 shares than that stockholder who donates no time to the company will receive on his 1906.

RESIDENTS OF PORTLAND

OUR ORE IS GOLD, SILVER AND LEAD These are the most profitable mines in the world, on account of their large are bodies—practically inexinustible. The richest body of ore in the world is that of the Goldneld Consolidated, of Goldfield, Nevada—435 to the ton from wall to wall. This is the awarse, though SOME of it has yielded \$20,000 to the ton. A visitor to the Swastika carried away with him a gunnysack filled with its ore. He did not aim to select the richest nor the lowest grade, but nearly as possible an AVERAGE of the mine. This was expressed to the big smelter at Tacoma, Wash, accounten that employs 800 men, for testing purposes, and it gave him a return of \$73.43 to the ton. That man purchased 10,000 shares of Swastika stock on the strength of this test, And he is a mining man, too,

All the efficers but Mr. Martin are residents of Portiand. Their homes and interests are here—except those they have in the Swastika. Mr. Martin resides at Sandpoint, near the mine—knows it well and is a stockholder and officer because he DOES knew it. The others have examined the property, and, like Mr. Martin are stockholders and officers because of their knowledge of its value. Otherwise they would not be associated with the enterprise in any capacity.

and very well known in Portland. As a man cannot "holier" louder than his pocketbook can shout, this mining man's buy is certainly evidence enough of his estimate of the Swastika as a mining proposition. And he seemed to have taken the most sensible and surest way of ascertaining its REAL value. He went at it after the fashion of one looking for a good investment and desiring to PRGVE the thing he was investing in. And that he DID prove it, and DID invest, is the best evidence of his faith in this proposition. And while he does not wish us to publish his name, we are authorized to make it known to any person anxious to know his opinion of the venture. He hopes to get another block while selling at present prices.

One Hundred and Sixty-Five Dollars in Swastika Shares, Paying 200% Per Annum, Would Afford an Income of More Than One Dollar for Each Working Day of the Year.

This means from the TWO of the TEN claims already ought to be FIVE times as great. And the shares may be developed. When the other EIGHT are producing the income paid for on installments as named below.

Four Women and Two Male Consorts Captured by Police.

Four women and two of their alleged male parasites were arrested last night and were held on technical charges without ball.

In a raid made by a squad of officera under the direction of Police Sergeant Cole three young girls were captured in a pseudo "Turkish bath parior," at 166½ Alder street. They gave their names as Mamie Johnson, Florence Kellogg and Lillian Going and are all young women of apparent refinement. Steve Kolaff, a Bulgarian, was also arrested in the raid.

Several months ago the pair came to Portland from San Francisco. They established quarters in the most thickly-declared to the wiles of Chung and his Celestial friends.
