George W. Glover, of Lead, S. D., who arrived here today for the funeral of his mother, Mrs. Mary Baker G. Eddy, announced that he did not approve of the plan to bury his mother in Mount Auburn Cemetery. He said: "My first thought upon learning of her death was that the most fit place for her last rest would be among her kindred at Tilton, N. H. If she is not to be buried there. I should favor next in order, Concord, N. Dr. E. J. Foster Eddy, Mrs. Eddy's adopted son, arrived today from Waler-sury, Vt. He had opportunity for only a short talk with Mr. Glover today, but it is understood that they are in accord in opposition to placing Mrs. Eddy's body permanently in Mount Auburn Cemetery.

The party went out along the railroad track where the cinders were hard. Tommy gave the word and they dug in their toes. For about half the distance, it was an even break. Then Pobbs let out a few kinks and drew away from Lester as if he was ranning away from a post. Burns handed him over the five.

CITY WILL GROW MUCH

500,000 IN 1920, PREDICTION OF MILLER.

Eastern Oregon, Now Being Developed by Railroads for First Time, Will Attract Thousands.

That Portland will have 500,000 popula-tion in 1920 and Oregon 1,500,000, is the earnest conviction of R. B. Miller, traf-fic manager of the Harriman lines in the Northwest, as expressed in an address before the weekly luncheon of the Ad-men's Club yesterday afternoon.

men's Club yesterday afternoon.

"These figures may seem large to you," said Mr. Miller, whose familiarity with statistical matter and whose estimates on prospective tennage is said to be second to no other railway official in the country, "but if you examine the figures as given by the Consus Department at Washington, D. C., I think that you will come to the same conclusion that I have in this matter. Portland is given 207,000, an increase of 129.2 per cent for the ten year period just completed. Can we do as well for the next ten years? In my opinion we will do better, for the simple reason that we will have a better chance and into our hands will play more imand into our hands will play more im ortant factors than have played during

the recent decade.

"There is an enormous area to be occupied in the state by settlers. Coupled with this fact there exists the only large

domain in the United States without railway communication and settlement.

"The eyes of the Nation will be focused on this state and trayel from all parts of the country will be in our direction during the country. the country will be in our direction dur-ing the coming ten years. We shall re-ceive those people who are of a moving spirit, for in a large sense there will be no other place for them to go. With their arrival will come more railreads, and the eastern portion of the state will be well supplied, thus giving further im-rection to the movement.

petus to the movement.
"I am of the opinion that if you will examine the percentages with regard to the increase of the states and cities for the census of '60, '70, '80, '90, 1900 and 1910, you will find there is a co-relation which will bear me out in my statement that Portland can readily acquire a population of 590,000 in 1920, providing there are no unforeseen circumstances to stop the natural trend of growth of the United States.

Addresses were made by William Mac-Master and C. E. S. Wood. MacMaster gave some observations of his travels through Europe, so far as water communication was concerned, while Mr. Wood presented his views on what constituted the essential features of the development of the state, and declared it was more important to get people than it was to

get capital.
T. B. Wilcox and William D. Wheelwright were elected members of the club, and Mr. Wheelwright was directed to prepare a biography of Mr. Wheex, and Mr. Wheek of Mr. Wheelwright, both of which were to be read at the next meet-

Mayor Simon extelled the untiring work of the members of the Courcil and the benevolence of those who subscribed money for the building. "I congratulate you heartily," he said, "on the work you have accomplished on the beautiful building you have completed and dedicated for the benefit and elevation of humankind."

With "Gur Neighborhood House" as her subject, Mrs. S. M. Blumaust, chairman of the Neighborhood House committee, gave a brief history of the countities's work. She told how the Neighborhood House had been moved four times, the members of the Council feeling each time that they had realized one of their dreams. With the completion of the building, she said, they were paid for their painstaking efforts and labor.

In a closing address, Rabbi Wise, who, with Ben Seiling, composes the subscription committee, said that of \$40,000, the cost of the building, \$22,000 had been subscribed. He made a strong plea for personal service in conducting the work of the Neighborhood House.

Protests in writing and personal appeals became so numerous that Mayor Golrey and the Board of Control decided to call a mass meeting, at which the matter could be discussed. Representatives of the street railway also were invited to attend

HOQUIAM STIRRED BY RUMOR OF COMBINE IN COUNCIL.

Voters Are Out in Open to Oust Representatives of Two Wards -- More Agitation Coming.

HOQUIAM, Wash., Dec. 7.—(Special.)
—In two wards of Hoquiam recall peti-tions have been filed against three which were to be read at the next meeting of the club. Nominations were made for the election of officers at the next meeting. present Council. These recalls are the outgrowth of these.

It is said by those who are fighting this clique that if they are successful in removing the men now under fire, the recall will be invoked in other wards. The petitions now on file with the City Clerk are directed against Councilman Frank Thurber is the Third, leader of the "standpatters," and Councilmen Koch and Brunett in the Fifth.

Koch and Brunett in the Fifth.

Last night a meeting of Third Ward voters was held in the City Hall and the Thurber recall discussed. At the close of the meeting, 26 men signed the petition. A few more signed today. Women, it is declared by attorneys, can sign the petition, if need be, to secure the number sufficient for the recall, since they have now become voters.

Less interest is being shown in the Fifth, but a mass meeting is to be held to push the recall. In the Sixth, Counclimen Burns and Kress are expected to resign rather than have a recall instituted.
