THE MORNING OREGONIAN, FRIDAY, DECEMBER 9, 1910.

REAL PROGRESS IS BALLINGER'S PLEA

Favors Use and Development of Natural Resources and Urges Congress to Act.

WARREN BILL INDORSED

Secretary's Report Suggests Sale of Surplus Water and Giving of Land to States Necessary to Make Use of Power.

OREGONIAN NEWS BUREAU, Washington, Dec. 8.-Secretary Ballinger, in his annual report made public today, strongly urges the enactment by Congress of legislation which will permit proper use and development of the natural reources of the West and permit that section of the country once more to progress. His report is a strong plea for practical conservation as distinguished from Pin-chotism. It is an appeal for recognition of the rights of the present generation as well as for protection of the rights of generations yet to come.

Writing the second of the conserva-tion question is treated by the Secretary. Throughout he recognizes the absolute right of Congress to determine specificul-by how the various resources shall be used, but in every instance he appeals to Congress to sect prompily. 'n order that the valuable resources now field up by withdrawals and otherwise may be turned to some practical use. In some cases the Secretary voices his personal opinion as to the best manner of opening up these resources to development; in These. resources to developme r instances he expresses no specific

States Should Control.

In the matter of water power sites the Secretary strongly inclines to the view that inasmuch as the waters already be-long to the states and since control is vested by the Constitution, it would be wasted by the Constitution, it would be well to turn over to the states such pub-lic lands as are needed in the develop-ment of water powers, allowing the states to regulate the development and sale of power within their borders. Coal lands, at least in Alaska, he thinks should be leased. There is question in his mind whether the coal lands in the states should be leased or sold curright. Oll and gas lands he would lease. Recognizing the enumous cost of Gov-erament irrigation projects and the inad-equacy of funds with which to complete

unoy of funds with which to complet equacy of rinks with which to compare them promptly, he strongly advocates the prompt passage of the Warren bill, which is now before the House of Rep-resentatives, permitting the sale of sur-plus water from Government projects and -operation of the Government and the co-operation of the construction of irrigation, storage and distribution works. Other changes in the National reclamation act he deems advisable. These, in brief, are some of the more im-pertant features of Secretary Ballinger's month.

Water Power Valuable Asset.

"There are now withdrawn from dis-There are now withdrawn from the position, pending legislation concerning water power sites, approximately 1.450,-200 acres of the public domain." says the Secretary. "In the various public-iand States and Territories containing water power resources, in so far as there is present market for these pow-ers the title to areas greater in extent than that remaining in the Government has long since passed into private own-erably, and it must be realized that any radical or burdensome restriction im-posed by the Federal Government upon this resource will operate as a servitude on the public lands and discourage their development and use. In my last annual report in order to mest the emergency for a special meth-od of administering this character of the public lands, and horder to retain the ultimate control thereof in the pub-

Census Places Metropolis of Inland Empire Ahead of Tacoma by Thousands.

GROWTH RIVALS SEATTLE'S

Many Names Lost Through Overzeal of Enumerators, but There Is No Evidence of Wilful Error;

City Ranks Forty-Sixth.

<text><text><text><text><text> OREGONIAN NEWS BUREAU, Doc. 8. -Spokane's population, announced to-night, is 104,402, against 36,818 in 1900, an increase of 67,554, or 183.3 per cent. This puts Spokane far ahead of Taco-ma, which in 1900 had \$66 more citi-zens than the metropolis of the In-

land Empire. Tacoma's revised census will prob-ably be announced tomerrow by Chief Statistician Hunt, who had charge of the recount.

In percentage and growth, Spokane ranks close to Seattle and Boise, and is near the top of the list for the en-Is near the top of the last for the en-tire country, few ditles showing a larger percentage for the last ten years. Spokane, like other Northwestern cities, suffered loss of names due to overzeal on part of enumerators, and many names were stricken off of the original returns, though the exact num-ber is not given.

Director Durand did not issue a formal statement regarding padding in Spokane, but said today there was no evidence of wilful violation of instructions by enumwith those at Boise and were confined to the hotel and boarding-house dis-tricts, where enumerators called too many times and enumerated too many of

The floating population. Spokane is now the 46th city in size. Ten years ago it was No. 105. The city's growth from 1890 to 1800 was 85 per cent increase or 16,926.

BANK REFORM DEMANDED SPOKANE'S GAIN 200 PER CENT Progress of City From Hamlet Size

Shows Steady Expansion.

SPOKANE, Wash. Dec. 8.—(Special.) —While both Hillyard and Fort Wright are in reality parts of Spokane, they do not figure in the census. Hillyard has a population of about 4000, while the population of Fort Wright is ap-proximately 700. Counting these as part of the city, the percentage of gain over 10 years ago would be a little

part of the city, the percentage of gain over 10 years ago would be a little more than 200, instead of 183. In 1872, when the first settlement was made at the fails, Uncle Sam paid no attention to the little hamiet, but in 1876 the big waterpower was put to its first use and the town boasted of its first new mill and grist-mill PHILADELPHIA, Dec. 1 .- The need for currency reform was discussed by Senator Aldrich, chairman of the Naits first use and the town boasted of its first new mill and grist-mill. In 1878 R. W. Rind made the first plat of Spokane Falls and the inhabi-tants laid out the boundaries of the city within an area of one-fourth of a square mile. In 1880 the village was first visited by consumerators and when their tional Monetary Commission; Senator Burton, a member of the committee; Assistant Secretary of the Treasury Andrew, a former secretary of the

Commission and Director Roberts, of Commission and Director Roberts, of the Mint, at a special session of the American Academy of Political and So-cial Science here tonight. Senator Aldrich declared that in his opinion, the reform of the present bank-ing system was the most important work now before the Monetary Com-mission. The currency problem would adjust itself, he said, when the bank-ing extern was taken care of. in 1550 the vininge was first visited by census enumerators and when their work was finished the records at Washington, D. C., showed Spokane had a place on the census map with 300 population. In 1851 the Northern Pacific Railway was completed to Spokane Fells and

was completed to Spokane Falls and with the advent of this first means of

the public lands, and in order to retain the ultimate control thereof in the pub-lic, it was recommended that supervi-sion be exercised through a leasing sys-tem. During the last sension of Con-gress a bill was introduced authorizing the President to withdraw from all forms of sottlement, entry, or other dis-position any lands which are or may become chiefly valuable for the devel-opment of water power, and providing for the acquisition of any State or Ter-ritory, under certain conditions, of any lands so withdrawn, and for other pur-poset.

The object of this bill is to transfer "The object of this bill is to transfer these sites to the States under limita-tions which would compet the States to retain fittle thereto and to secure and supervise their hydro-electrical develop-ment in behalf of the public. The bill provides for Federal enforcement of compliance by the States with the terms, conditions, and limitations which terms, conditions, and limitations which would compet the states to retain title thereto and to secure and supervise their hydro-electrical development in behalf of the public. The bill provides for Federal enforcement of compliance by the states with the terms, condition and limitations of the grant by stipulat-ing for a reversion of the lands to the Federal Government upon the failure by the states to comply therewith,

Conveyance in Trust Suggested.

Taking into consideration the fact that the states own the waters in the streams and have police power to su-pervise and control public utilities, it would seem a direct and effective mathed of control would be accomplianed by conveying the power sites in trust to the states in such manner as proposed by this bill.

earnestly advise the adoption of some legislation which will in any event retain the fee title to the lands in the people and effectually vest the power of regulation and control in the state or in the Federal Government, and which will not result in limiting prompt and ecoical development or permit monopolization or extortion

view of the conflict between power withdrawals and applications for rights of way for purposes of irrigation, as well as the development of power, the department is granting, after field investigation, rights of way for irrigation where the value of the sits is found to be higher for the reclamation of arid lands than for the development of commercial power." The Secretary believes that "the most advantageous method of disposal of

anyman ageous method of disposal of coal deposits will be found in a meas-ure authorizing the lease or sale there-of subject to forfeiture for failure to exarcise the rights granted, with re-strictions on mining operations in order to conserve the deposit as a pub-lie stilling." He continue:

currency reform did not arise from any insufficiency in the general amount. With the exception of France, the per capita circulation in the United States is larger that is per capita circulation in the United States is larger than in any other great commercial country. The defects of the currendy system, he said, were due retention of the old method, discarded by so many countries, of main-taining a government currency.

WASHINGTON, Dec. 8 .- The popula-

Bismarck and Tampa Given.

washingtrow, bec. s.-the popula-tion of Bismarck, N. D., is 5443, com-pared with 3319 in 1900. Revised sta-tlatics of Tampa, Fla., show its popula-tion to be 37,782, an increase of 21,948 or 183.5 per cent over 15,839 in 1800. A previous announcement gave the 1900 census as 23,524.

Louisiana Has 1,656,388.

WASHINGTON, Dea. 8.—The popula-tion of the State of Louisiana is 1.656,-335, an increase of 274,763 or 19.9 per cent over 1.531,655 in 1900. The increase from 1890 to 1900 was 263,035, or 23.5

CHURCH TO GET FORTUNE

(Continued from First Page.) remembered in bequests which range from \$1000 to \$10,000. Calvin Frye is given

Only those who were members of the household staff for six years are mentioned. The will was drawn in 1904 in Concord, N. H., and those that receive bequests were then members of her household at Pleasant View.

Not a dollar is to go to George W. Glover and Dr. F. J. Foster Eddy, re-

spectively, the son and adopted son of Mrs. Eddy. They wars leaders in the famous "next friends" suit, which had a sequel in each receiving a large amount of money from Mrs. Eddy.

Members of the board of directors and other leaders of the Mother Church are not mentioned in the will. There is nothing in the will which relates to the

ecation of Mrs. Eddy's burial place. The will probably will not be filed until a month has elapsed. Three weeks must pass before the advertising rule relating to such papers will have been complied with and a week later will probably find the will on file.

GRAND-DAUGHTER SOBS ALONE

Funeral Service Marked by Simplest Rites; No Eulogy 1s Heard.
