

GARMENT WORKERS EJECT AGITATORS

Tons of Food Distributed Daily
Among Chicago Strikers,
but Suffering Exists.

SOAPBOX ORATORS BARRED

To Avoid Intimidation and Attack
by Professional Agitators, Vote
to Accept Employers' Terms
Is Taken Secretly.

CHICAGO, Dec. 11.—(Special).—Com-
parative peace reigned in the riot dis-
trict and purlieus of the garment-work-
ers' strike today. Snow and cold re-
duced the ardor of the pickets.
Indications are that the strike is near
an end. Yesterday the strikers began
ejecting from their meeting-places the
Socialist soap-box orators, who are not
concerned in the strike except to gain
converts and stir up strife.

Police of Canalport station, the cen-
ter of the trouble zone, say the strike
from the start has been led and kept
alive by thugs and agitators who were
never known to work.

From an authoritative source it was
learned today that fewer than 2000 gar-
ment-workers are actually on strike. It
is true that approximately 10,000 are
out, but the majority refuse to work
through fear of the pickets. These fig-
ures do not compare well with the
statements of strike leaders, who are
constantly appealing to the public for
money and food for 40,000 homeless
families.

There is now distributed daily among
the strikers one ton of coffee, two tons
of sugar, 10,000 loaves of bread, im-
mense quantities of potatoes, meat, fish,
macaroni and canned goods. Five thou-
sand packages of griddle-cake flour will
be distributed tomorrow morning.

For the Italian strikers sardines and
macaroni are provided; for the Bohem-
ians and Poles, lentils and fish. The
tastes of all nationalities are carefully
considered.

It is apparent the garment-workers
are weary of the struggle. They
might have accepted the employers'
terms a week ago had the agitators
been ejected from the halls yesterday.
In some cases being roughly handled,
shows that the movement is near the
breaking point.

To avoid intimidation and assaults by
thugs, the vote on acceptance of the
terms offered by employers is being
taken secretly, to give the strikers an
opportunity to express their real opin-
ion, something that could not be ob-
tained if the vote was taken openly
by professional agitators and slug-
gers.

MAN IS THROWN INTO RIVER

Chicago Strikers Suspected by Po-
lice of Cowardly Deed.

CHICAGO, Dec. 11.—(Special).—
Thrown into the river by alleged ene-
mies in the garment workers strike,
Mandel Schottis was found on piling at
thirteenth street, Saturday, his hands
frozen to the wood. He was near death
from cold and exposure and his cloth-
ing was a sheet of ice.

Schottis evidently swam to the piling.
His strength failed and he had lost
consciousness with his hands tightly
gripping a piece of timber.

Schottis' hands were loosened with
difficulty and he was taken to the
hospital. Hours later he revived suf-
ficiently to give his name and address
and lapsed into unconsciousness. Ques-
tions as to whether he was a strike-
breaker or a striker were unanswered.

Marvin J. Isaacs, attorney for the
Wholesale Clothiers and National
Wholesale Tailors Association, declares
there is no truth in reports that they
are "bowing to public opinion" and
preparing to arbitrate the strike.

DEBATE TOPIC IS CHOSEN

Ship Subsidy Will Be Discussed by
Coast University Teams.

UNIVERSITY OF OREGON, Eugene,
Or., Dec. 11.—(Special).—Although no
definite wording of the proposition has
as yet been agreed upon, it has been
decided by vote that the ship-subsidy
problem will be the question of debate
for the members of the Pacific Coast
Debating League, representing Leland
Stanford, Jr., University, University of
Washington and the University of Ore-
gon. Oregon suggested this subject,
Stanford having submitted the central
bank question and Washington "The
Single Tax."

The same question will be debated
by the teams representing the Universi-
ties of Utah and Oregon, when Leon
Ray and Howard Zimmerman will rep-
resent Oregon at Salt Lake City in
February.

The Oregon teams for the triangular
debates will be chosen by tryouts to
be held in January.

NEW AIRSHIP SOARS UP

Invention of Walla Walla Man
Stands Test Successfully.

WALLA WALLA, Wash., Dec. 11.—
(Special).—Lifting 12 feet from the
ground and skimming like a swal-
low for 150 rods, the Zornes aeroplane,
product of Charles A. Zornes, of this
city, yesterday made a successful flight
after weeks waiting for good weather.
The fact of the flight was kept secret
until this afternoon.

The machine embodies new principles,
which the Walla Walla Aero Club,
backing Zornes, believes will make its
manufacture and sale possible without
interfering with the Wright and Cur-
ties patents. No further attempts at
flight will be made until Spring, the
inventor and backers being all satisfied
that the machine will amount to any
height.

Peculiar Accident.

Another Year

Another Million

Since we began business in 1898 we have averaged a gain in shipments of One Million Dollars each year, and this year is no exception. Our fiscal year closed December 10th.

Actual Shipments to Retail Merchants, \$12,368,511

December 10, 1909, to December 10, 1910.....	\$12,368,511.95
December 10, 1908, to December 10, 1909.....	\$11,356,122.19
GAIN in shipments for 1910	\$ 1,012,389.76

Through good years and bad, success has followed us—not by accident or chance, but because we have established a standard of honest shoes and have lived up to that standard. The growing demand for shoes constructed without any substitutes for leather is best evidenced by our increased sales.

No Substitutes for Leather

It is a fact that a large majority of all shoes made in a certain section and retailed from \$2.00 to \$3.50 per pair contain substitutes for leather.

The section that prides itself most on "artistic shoemaking" uses the most substitutes for leather. Long years of practice has enabled them to make shoes that look good from poor material. Finally, however, one has to reckon with the wearer.

Substitutes for leather can be made to look like leather, but they cannot be made to wear like leather. The wonderful growth of the shoe business in the West is due to its early recognition of these facts, and the Roberts, Johnson & Rand Shoe Co. was the house to carry them into operation.

The Pure Shoe Law, drafted by the Roberts, Johnson & Rand Shoe Co., and introduced both at Jefferson City and Washington during the last legislative sessions, was intended to protect the consumer against leather substitutes.

Approved by the Government

The same business principles which have made us strong with merchants and consumers have also enabled us to secure within the past two weeks a \$452,000 Government contract for army shoes, amounting to 175,000 pairs. (This order is not included in our Million-Dollar gain.)

This, the largest shoe contract ever awarded by the Government to any one manufacturer, is a strong illustration of the fact that we are equipped to make any line of shoes requiring a fixed quality of materials and workmanship at a cost that cannot be equaled by any of our competitors.

The Government buys shoes on fixed specifications requiring all leather. Since we make all of our shoes out of all leather for all of our customers, no change was necessary in our method of manufacturing; therefore, we were easily enabled to make the lowest bid to the Government. Quality fixed, we beat the price.

Every wearer should adopt Uncle Sam's policy and demand shoes containing no substitutes for leather.

FRAUD IS INTIMATED

JACKSON GRAND JURY MAKES CHARGE OF IRREGULARITIES.

No Inducements Brought, but Character of Voting Scored; Mis-interpretation Cause.

MEDFORD, Or., Dec. 11.—(Special).—Grave insinuations as to frauds practiced in the recent elections were made by the retiring grand jury of Jackson County in its report filed yesterday. The opening paragraph states:

While we have not been able to ascertain from the means at our command whether fraudulent votes were actually cast, we are free to state that many such may have been cast through evident misapplication or misinterpretation of the election laws in this state.

LITERATURE WAS OPENLY HANDED TO VOTERS BY OFFICERS OF THE ELECTION BOARDS AT THE POLLS ON ELECTION DAY; THAT NATURALIZED CITIZENS WERE ALLOWED TO REGISTER WITHOUT PRODUCING THEIR NATURALIZATION PAPERS; THAT PROMINENT MEN SIGNED TWICE OR MORE, AS WITNESSES, REPRESENTING THEMSELVES TO BE DIFFERENT PEOPLE; THAT SCANDALOUS STREET NUMBERS WERE GIVEN AS ADDRESSES OF VOTERS; THAT MANY MEN SIGNED ELECTION BLANKS, TAKING OATH THAT THEY WERE FREE-HOLDERS OF THE COUNTY, THAT WERE NOT FREE-HOLDERS, AND THAT SOME SWORE AS TO THE IDENTITY OF APPLYING VOTERS, NEVER HAVING SEEN THEM BEFORE.

The jury made no indictments but moralizing, said:
These and many less important irregularities have been brought to our attention. Each and every one of these tend to neutralize the force of our election laws, and render less safe and sacred the ballot, the character of which determines our institutions.

The itch can be cured with Plummer's Itch Ointment. Third and Madison sts. Large variety of leather novelties for holidays at Harris Trunk Co. 122 6th st.

CITY BAR, CAMAS PLAN

MUNICIPALITY WOULD CONDUCT OWN SALOON.

Town Voted "Wet" by Dozen Votes, Councilman Believes It Will Get Money Now Spent Here.

VANCOUVER, Wash., Dec. 11.—(Special).—A municipal saloon, to be conducted along the best regulated lines possible, the profits accruing to go to the municipality of Camas, is favored by John G. Eddings, chairman of the Board of Clark County Commissioners, and a resident of Camas.
Camas, last year, was "dry," but at the election in November was voted "wet" by about a dozen votes. At the municipal election December 6, Council-

men were elected who, it is thought, will favor granting saloon licenses.

According to the municipal plan, Camas is to take out a license in the city's name, obtain a room in a good location, furnish it comfortably and stock it with the best liquors obtainable. A bartender is also to be hired. The profits accruing from the business are to go into the city treasury for the benefit of the citizens of the city. It is estimated that the profits will more than meet the salary of the City Marshal, build concrete sidewalks and make other municipal improvements.

It is estimated that at least \$2000 a month was taken to Portland during the "dry" regime, and it is believed that amount in a similar period would be spent at the Camas municipal bar. Mr. Eddings said tonight that the plan can be worked out legally.

YOU SURELY MUST TRY THIS WHEN YOU HAVE A BAD COLD OR GRIPPE

Proves Quinine Is Never Effective and Tells How to Get Relief in a Few Hours.

You will distinctly feel your cold breaking and all the Grippe symptoms leaving after taking the very first dose. It is a positive fact that Pape's Cold Compound, taken every two hours, until three consecutive doses are taken, will end the Grippe and break up the most severe cold, either in the head, chest, back, stomach or limbs. It promptly relieves the most miserable neuralgic pains, headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running

of the nose, mucous catarrhal discharges, soreness, stiffness and rheumatic twinges.
Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.
Take this harmless compound as directed, with the knowledge that there is no other medicine, made anywhere else in the world, which will cure your cold or end grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.
