FLURRY IN BARLEY

Eastern Demand Increases and Price Soars.

NEARLY EXHAUST SUPPLY

Total Shipments Across the Rockies Will Be Between 25,000 and 30,000 Tons—No Shipments Made Foreign.

The demand for brewing barley has been active for the past month, and now that the selling season is drawing to a close, a decided flurry has developed in the market. It is the heavy shipments that have been made to the East and the continuance of the Eastern brewery demand that is responsible for the sharp uplift in prices. The largest malting firms in the East are now in the market to buy and their operations will soon clean out all the available supply in the Pacific Northwest.

Sales of brewing barley were made in the interior yesterday for shipment East on the basis of $27 to $27.50 here. Holders are exceedingly bullish and have steadily advanced their prices, as was shown by the sale of a lot at Dayton Monday at $24 in bulk. This, however, was 1909 crop and was of superior quality.

Practically all the brewing barley in the country is now out of farmers' hands, and it is believed that speculators have sold most of their holdings, including what was carried over from the previous year's crop. The best estimates of the quantity forwarded to the East to date range from 15,000 to 16,000 tons. When all the shipments have been made it is believed the total will show from 25,000 to 30,000 tons.

Not since 1907 has there been such a movement of Northwestern barley across the Rockies. The quantity dispatched then was larger than this season, as the 1907 crop was heavier and of better quality.

The rail movement this Winter is due to the shortage in the Eastern States, particularly in Minnesota and the Dakotas, where the crop was cut down by the drouth. Local supplies in that section have about run out.

This is the first season in many years that no barley has been exported from Portland. The last cargo that went foreign from this port was in December, 1909. The Northwest was cut out of the export trade this season, as the crop was a comparatively light one and prices were as high or higher here than in California. While California has done its usual heavy over-sea business in barley, the Southern buyers have been prevented from getting in on the Eastern trade, as their freight rates are $1.50 a ton higher than ours. If it were not for the fact that California still has a considerable surplus of barley and also that oats are reasonable in price, there is little doubt but that brewing barley would have touched the $30 mark this season.

FIRM UNDERTONE IN WHEAT MARKET

Volume of Business Is Not Large—Oats and Barley Well Held.

A firm undertone continues in the wheat market despite the fact there is little or no export demand. Prices quoted show a wide range, but the volume of business is small.

Oats are held firmly in the country. The local demand is moderate. Feed barley shows much strength in sympathy with the advance in brewing grades. Good feed lots were held yesterday up to $23.

Local receipts, in cars, were reported by the Merchants' Exchange as follows:

	Wheat	Barley	Flour	Oats	Hay
Monday	95	2	8	3	18
Tuesday	65	1	4	..	6
Year ago	22	1	18	2	6
Season to date	8200	385	1240	554	1923
Year ago	7251	1086	1220	726	1657

EGGS ARE MORE FIRMLY HELD.

Local Stocks of Eastern Almost Exhausted and Few More to Come.

Eggs were held more firmly, because of the colder weather, but buying by retailers was not stimulated. Prices quoted on the street were unchanged from the preceding day. Should local receipts slacken because of the weather, higher prices will rule, as local stocks of Eastern eggs are now very low. There are only 1500 cases of eggs in storage here and only two cars of Eastern eggs are in transit to Portland. Half a car of Petaluma eggs is on the way to this city.

Poultry receipts were very light and prices were quoted firm and unchanged.

Cheese and butter were steady at last prices.

18½-CENT OFFER FOR HOPS REFUSED

Higher Prices at London—Contracts at 12 to 13 Cents.

It was reported yesterday that 18½ cents was offered for the Percival lot of 200 bales of hops at Independence and refused.

A London cable stated that 105 shillings had been bid for 1910 Pacifics. This is equal to 22½ cents per pound London.

The contract market as yet shows but few signs of life. The growers are not disposed to sell ahead at the prices that have been current and not many orders have been received. A little contracting has been done in the past few days at 12, 12½ and 13 cents.

WEATHER CHECKS PRODUCE TRADE

Receipts Are Light and Stocks Are Small.

The stormy weather almost put an end to the fruit and vegetable trade yesterday. There was but little demand in any line, but fortunately stocks were light. The day's arrivals included two cars of oranges and one car of sweet potatoes.

The oranges now rolling are all that will be received in the next 10 days, as the wet weather in California has stopped picking.

WOULD SHADE PRICES

WOOL HOLDERS ANXIOUS TO MOVE STOCKS.

Interest in Boston Market Centers in Territory Clothing—Pulled Wool Is Very Firm.

BOSTON, Jan. 10.—Interest in the local wool market continues to center about territory stock, and some heavy sales of clothing wool subject to approval are reported. Other lines are moving moderately with fleece wools in fair demand.

Values hold fairly steady, although there seems to be a tendency to shade prices.

Ohio quarter blood fleeces bring 27½c to 28c, and some Missouri quarter blood has changed hands at 26½c.

Fine Montana clothing sells at 20c or 57c scoured, while there is more or less inquiry for Texas wools with 12 months selling at 21½c.

Pulled wool is very firm, but the demand is not extra brisk, while the foreign product is neglected.

Quotations, scoured basis:

Texas—Fine 12 months, 58@60c; fine 6 to 8 months, 52@55c; fine Fall, 48@50c.

California—Northern, 53@57c; middle county, 50@52c; southern, 46@48c; Fall free, 43@45c.

Oregon—Eastern No. 1 staple, 63@64c; Eastern clothing, 60@61c; valley No. 1, 54@55c.

Territory—Fine staple, 60@62c; fine medium staple, 58@59c; fine clothing, 56@58c; fine medium clothing, 54@55c; half blood combing, 58@60c; three-eighths blood combing, 53@55c; quarter blood combing, 49@50c.

Pulled—Extra, 65c; fine, 58@60c; supers, 53@55c.

Chicago Produce Market.

BIG WORLD SUPPLY

Wheat Stocks Fifty Millions Over Last Year's.

WEEK'S VISIBLE GROWS

In Spite of Bearish Developments, Prices Hold Very Steady at Chicago—Short Element Eliminated.

CHICAGO, Jan. 10.—In wheat there was little disposition apparent to sustain values. Short interests, however, had been largely eliminated by yesterday's bulge and had not yet recovered courage, though new developments were undeniably bearish. The European visible supply made an unexpected increase. In this connection it was figured that the world's available stock had become 30,000,000 in excess of the total a year ago. Cash demand here fell off, and to cap all the weather forecast was for snow in Nebraska and Kansas and in other sections. With diminishing prices, trade lessened also in volume. May ranged from $1.00⅝ to $1.01⅛, closing steady at $1.01⅛@1.01¼, a net loss of ⅛@⅜c.

Notwithstanding sensational reports that the Argentine crop had suffered as high as 75 per cent loss, the corn market locally kept inside comparatively narrow limits. May fluctuated between 49¾@50c and 50⅜c, with the close steady at 50¼@50⅜c, a gain of ¼c over last night. Cash corn was easy. No. 2 yellow finishing at 47@47½c.

The fact that the stock of oats here had largely decreased in the last seven days was offset by the circumstances that the total reached much higher than at the corresponding time last year. May varied from 34¾c to 35c, with the latest figures 34¾@35c, precisely the same as 24 hours previous.

Provisions sank because the cash meat trade was reported poor. Pork closed 15c to 25c lower; lard went down 5c to 20c and ribs 15c off to 50c up.

The leading futures ranged as follows:

WHEAT.

	Open.	High.	Low.	Close.

ADVICE COSTS THRASHING

Loser in Card Game Resents Counsel, Though Winner Asked It.

It was a game of "seven-up." John Matthews stood three and Jackson Morgan was six and held the deal. The trump was diamonds and Morgan held the nine and tray, while Matthews found in his hand the jack and deuce. Turning to James Wood, his brother-in-law, he asked: "Would you beg on that?" Woods advised that course, and Morgan gave Matthews one point to play his hand. Matthews then waded in and scored high, low, jack and the game and won the tourney.

Wroth at having the cup of victory snatched from his very lips, Morgan rose up and smote Wood for his ill-timed advice, knocking him behind the stove, with a large "shanty" over his eye. Then the police interfered, and Morgan appeared in Municipal Court yesterday morning to answer to a charge of assault and battery. Judge Taxwell held that Wood, upon the invitation of Matthews, was justified in giving his advice, and fined Morgan $25.

Harris Named Printing Expert.

SALEM, Or., Jan. 10.—(Special.)—R. A. Harris, now a Polk County farmer, but formerly connected with the Labor Press in Portland, and at one time employed in the proof reading department of The Oregonian, was late this afternoon appointed State Printing expert to succeed L. R. Stinson, who was appointed under Governor Benson. Harris has always been active in the work of the State Federation of Labor and has been a consistent supporter of "Progressive Legislation" movements in the state. His appointment becomes effective tomorrow, the position being held at the option of the Governor.

Express Business Large.

MEDFORD, Or., Jan. 10.—(Special.)—The Medford office of the Wells-Fargo Express Company, according to advices received here today from the headquarters, ranks fourth among the cities of the Pacific Northwest for the month of December. Portland is first, Seattle second, Tacoma third. The increase over December, 1909, was 45 per cent.

Sumpter Logging Firms Active.

SUMPTER, Or., Jan. 10.—(Special.)—Logging near Sumpter is being resumed after having been closed for several weeks. Stoddard Brothers' camp is working now in a short distance of this place. The other is the Baker County Lumber Company's camp, a new lumber company recently incorporated here. The weather and snow this Winter has been ideal for logging.

My Terms for Treatment

within the reach of all. I will not accept your case if I cannot cure you. I will give you an absolute guarantee to cure you or not charge you one cent for my services.

The reason hundreds of men today are discouraged is because they have given no care to whom they entrusted their case, their precious health. They do not consider the ability, professional standing and reputation of the physician or specialist of whom they took treatment, but have considered far more the fact that by not going to a specialist of ability they could get cheaper treatment. Such is not the case, because it requires ability and skill to cure any one of the ailments to which I devote my full time and attention, and the specialist who possesses the ability to cure, gets all the business he can attend to. If you are today discouraged because you have not been cured it is your own fault. You have no one else to blame but yourself. If you have sought treatment and are not cured, it is simply because of the fact that you have not thought enough of your health, your life, to pay the price of a competent, reliable specialist, who possesses the ability necessary to cure you.

The one thing for any man to consider is simply this: "I want to get cured. I must get the ailment conquered before it conquers me." If you look at this matter from this standpoint, valuing as you must do your future health and happiness, you will consult at once the BEST and MOST RELIABLE specialist, one whom you know from his permanently and long-established reputation to be the best, and if your case is placed with him the cure will surely follow in short order.

LASTLY, REMEMBER, there is no man who really desires to be cured who cannot place his case with me, BECAUSE I always arrange my terms so that any man can receive expert attention and care at my INSTITUTION.
