Doubt Expressed That Rusk-Thompson Forces Can Be Held Together.

AMBROSE BREAKS RANKS

Multnomah Member Says That 8 From His County Will Join in Movement to Wrest Privilege From Speaker.

Unless Speaker Rusk and Representative Thompson hold their forces intact, insurgent forces in the House, led by Representative Eaton, defeated date for Speaker, will elect 42 r of standing committees from the floor of the House next Monday. In fact, it is doubtful if the Rusk-Thompson people can hold their men together.

The first serious break in their ranks came yesterday when Representative came yesterday

came yesterday when Representative Ambrose, of the Multinomah delegation, bolted and announced that he proposed uniting with the Eaton forces in their determination to deprive Speaker Rusk of the appointment of the committees. Ambrose said yesterday that he was not alone in taking this position and exalone in taking this position and ex-plained that eight other members of the delegation from this county would be found in the lineup with Eaton when the House reconvenes Monday.

Reason for Desertion Given. In the organization fight in the House, Ambrose supported Rusk. explanation of his present attitude in turning against the man he assisted to elect Speaker, Ambrose expresses dissatisfaction with Rusk's position on the subject of committee organization. It has been frankly charged by Eaton and his colleagues that in consideration of Thompson's retirement from the Speakership contest and his support of Rusk, Rusk conceded to Thompson the naming of most of the House com-

"There can be no question that such understanding exists between Rusk and Thompson," said Mr. Ambrose yes-terday. "For one, I do not propose to be a party to carrying out that trans-action. I would have no objection if Speaker Rusk had the untrammeled ap-pointment of his committees, but it-

manifestly is not proper that he should submit to dictation from Thompson or any other source as to how these com-mittees shall be constituted.

"I shall co-operate with Representa-tive Eaton, in view of the circum-stances, and assist in having the com-mittees elected by the members of the mittees elected by the members of the House from the floor rather than sub-mit to the scheme of Rusk and Thompson to control their appointment."

### Demand Made on Thompson.

Before reaching a decision Mr. Am brose on Wednesday addressed a letter to Thompson, demanding certain con-cessions in the appointment of the com-mittees. His letter follows:

"With reference to your appoint-ments to committees for John P. Rusk, the writer demands the following appointments and changes:
"First-Elimination of Abbott from the ways and means committee.

"Second—Elimination of Fouts from the revision of laws committee. "Third-Chairman of ways and means emmittee from Multnomah County.
"Fourth—Chairman of revision of
ws committee from Multnomah

"Fifth-Ample provision in the mat-ter of appointments for Multnomah delegates. "Sixth-The writer reserves the right

to inspect the list of committees be-fore their announcement by the Kindly give me your reply before

the noon adjournment."

Replying to the letter, Thompson informed Ambrose that the committee appointments were up to Rusk, and to Rusk alone: that he (Thompson) had no more influence in determining the committee selections than had any other individual member of the House. This response was not at all satisfying to Ambrose, who Immediately joined the Eaton insurgents. the noon adjournment." the Eaton insurgents.

### Lively Contest Promised.

Strenuous efforts will necessarily have to be employed by Rusk and Thompson if they prevent the insurgent forces from taking out of the hands of the Speaker the appointment of the of the Speaker the appointment of the 42 standing committees. The maximum strength of the Rusk-Thompson forces probably was demonstrated in the vote on election of Speaker. In that contest, Rusk received 25, while Eaton had 22. If Ambrose is correct in his estimate that eight other members of the Mulinomah delegation will go with him to Eaton in the present fight, the Rusk-Thompson people will be downed. It is true that included among these nine votes will be Clemens, Chatten and Cole. In the Speakership fight they supported and voted for Eaton. However, if six other members of the delegation from this county join the delegation from this county join the Eaton camp, the Lane County man will have sufficient votes to put through plan for depriving Speaker Rusk of the appointment of his committees.

### Unfairness Is Charged.

Ambrose further justified his position by explaining that the proposed formation of the committees by Rusk under Thompson's influence and dictation will result unfairly to Mulinomah County, notwithstanding the fact that in the organization fight Rusk received the vote of nine of the 12 Multnomah County Representatives present and voting. Further dissatisfaction among County Representatives present and voting. Further dissatisfaction among the delegation from this county, asserts Ambrose, has resulted from the appointment of preliminary committees by Rusk which, Ambrose contends, were not fair to Multnomah County. He points out that four of the five members of the committee on resolutions, appointed by Rusk, are Thompson men—Buchanan, Thompson, McKinney and Brooke. The rules committee, declares Ambrose, consists of Eaton, chairman, and Abbott and Mahoney, the latter two being active supporters of Thompson.

A further grievance is the fact that the committee appointed to employ all

his room and was returning to all the own apartment at the other end of the hall when she heard the report of the revolver. She was the first one to reach the door, but she hesitated to go in.

Mr. Peebler entered and found Wetzler with his revolver tightly clasped in his right hand. Mrs. Edwards is a stenographer and Smith Of these, Smith is the only member who did not vote for Rusk for Speaker.

Either Albee or Sinnott, it is understood, will get the chairmanship of the ways and means committee. Most people ent most foods without discrimination-it matters little what. Few stop to think what that food does for them. This is the first turn on the road to dyspepsia. Reckless disregard of the proper choice of foods, rapid eating and improper mastication, are the unquestioned causes of all stomach dis-orders from the slight ache to the malignant cancer.

There is nothing more revolting than a dyspeptic stomach—a very vat for putrefaction, sending forth its poison throughout the entire system, de-pressing the brain, befouling the breath, souring the taste, deadening the mus-cles, incapacitating the liver and kidneys for their work, debilitating the heart, choking the lungs and clogging the bowels.

All of these disagreeable and dangerous conditions are due to the improper digestion of food and the consequent assimilation of poison. What else can be expected? If the food lies in the stomach, if the system is constipated, fermentation is the natural outcome. It shows itself in sour watery risings, beichings, heartburn and painful

There is only one way to relieve this condition. If the stomach refuses to digest your food put something into it that will. Stuart's Dyspepsia Tablets are nothing but digestives, not a medicine. They work stomach will not, They work when the

"I have had a remarkable case of inebriney under my personal observation. The patient drank heavily for, which caused the breaking up of his family and separation from his wife. Every hope was given up of ever saving the man from his strong desire for drink, and only a mother's interest finally personaded him to voluntarily take treatment for his diseased condition. It was my pleasure to recommend ORRINE, your liquer habit cure, and the treatment was taken faithfully. This was two years ago and the patient is now in a healthy condition and still abstains from the use of stimulants. I have sold ORRINE for a number of years and have sold ORRINE for a number of years and have slowesy found it to be satisfactory. I believe you have an exceptionally good treatment for this disease."
