Four Trips Decided On.

The club-owners decided to have each four swings around the cirelub make feur swings around the circuit instead of three, thus breaking up
the schedule to three-game series and
giving each club more games at home.

The plan of arranging a four-trip
schedule is an innovation, especially in
the large leagues, as it has been the custom for each club to make but three trips
of the circuit during the season.

The plan to invade Chicago with a club
was not discussed, although it had been
reported that an ontion had been procured on the North Side with the view of

Morris Easily Knocks Out Kennedy in Two Rounds.

HARTSVILLE, Okla., Jan 12.—It required little effort for Carl Morris, the new "white man's hope," to knock out "Spike" Kennedy, of Kansas City, here last night. The two met in a 15-round go, but in the second part of the contest the big champion-to-be sent his man to the floor for the count. Kennedy was floored three times previous to the knock-out.

Throughout the short battle Morris toyed with Kennedy and sent him to the mat now and then as he liked. He even the spots for the boxer to fall on. As Multnomah is one of the fastest teams in the city, "dopesters" consider Columbia's prospects bright. The strength of the Christian leam lies in Guards Winters and Dubach, who are considered the fastest in the city. The nope of the varsity lads is vested in their forwards. It is ex-

Santa Maria has a fine baseball park for a small town and also has several first-class young players from whom to make up a team to oppose the Beavers. The Children's Story About Music

It must have been in an old, old book, that nobody knows where to find, that there was a story that comes back now like a recollection of something you thought of when you were most asleep.

It is a story about the time when the world had hardly begun to

be, & and the sea & the sky & the golden sands & the Fairies & the wonder-folk & the birds were all that there were at all. And not a sound in the world had ever been heard. The Fairies played as quietly as shadows & the sea was as still as the sky. Even

the wind hadn't learned to blow. But one day it was all changed, for one of the Fairies, wandering on the golden sands, found a tortoise shell that was somehow there, with a few dried strands stretcht tightly across its empty bowl. She caught it up & swept her hands across the strands & they

answered with a sound-the first sound that there ever was in the whole, great, beautiful, silent world. Over & over again she struck the magic strands, calling forth chords & notes that rang & lingered & echoed & woke up the sleeping sea & the wind & taught the birds that they could sing. And when the rest of the Fairies heard it they came dancing & laughing over the sands with their feet tinkling wherever they toucht, & caught hands around & whirled away to carry the message that Music was born &

that everybody would be happy forever more because of it. Now, don't you think that this is a nice story, especially when it is one that we just can remember? And don't you think it would be nice to know something about

music yourself & to have a piano to learn to play?

And if you would, perhaps your papa & mamma will come to the Wiley B. Allen Co. Fire Insurance Adjustment Sale and buy one for you, for this is a real sale and the world's best pianos can be had without very much pay. We would like for you to come to the Wiley B. Allen Co.'s Store, 304 Oak street, with your papa and mamma.
