Old Roads Retained.

"We found that the more we ex-amined the city the more we could do by simply extending the old roads used by the ploneers to create the rotary or circular plan for Portland's streets by bringing the diagonal streets—the old roads used 50 years ago—into the heart of the city. There is the Powell road, the Sandy road, Canyòn, Barnes, Patton, Whitehouss, Foster, Base Line and Peninsula. All these are to be ex-tended from their present stopping places through blocks until they reach the rim on the congrested center.

He explained his motive in this resolution as being to avoid duplication of bills, as often a bill is introduced in the House and duplicated in the Senate, this system, he says, resulting in considerable extra expense and the loss of much time, both on the part of committees and of the two houses. Malarkey says there is considerable demand on the outside for such a resolution.

We know of no other medicine which has been so successful in relieving the suffering of women, or secured so many genuine testimonials, as has Lydia E. Pinkham's Vegetable Compound.

In almost every community you will find women who have been restored to health by Lydia E. Pinkham's Vegetable Compound. Almost every woman you meet has either been benefited by it, or knows some one who has.

In the Pinkham Laboratory at Lynn, Mass., are files containing over one million one hundred thousand letters from women seeking health, in which many openly state over their own signatures that they have regained their health by taking Lydia E. Pinkham's Vegetable Compound. Lydia E. Pinkham's Vegetable Compound has saved many women from surgical operations. Lydia E. Pinkham's Vegetable Compound is made exclusively from roots and herbs, and is perfectly harmless. The reason why it is so successful is because it contains ingredients which act directly upon the female organism, restoring it to healthy and normal activity. Thousands of unsolicited and genuine testimonials such as the following prove the efficiency of this simple remedy.

People, Real Need.

"What the railroads in Oregon need," agent of the O.-W. R. & N. and Southanid F. agent of the O.-W. R. & N. and South-ern Pacific companies, in making his address upon "Building a Freight Busi-ness," "is population. We need people. We do not need tourists. They do not build railroada. We need farms, con-sumers, tillers of the soll-people. Transportation may be the business of a railway out in Oregon but it has first to develop the country. It is more im-portant for us to develop Oregon than

it is for us to transport passengers." C. S. Jackson, publisher of the Journal, spoke on "Making a News-paper," and Howard Evarts Weed on "Beautifying a City."
