

NEIGHBOR STATE'S MILLITIA ATTACKED

Washington National Guard Called Farce in Senate Fight for Fund.

NIPPON INVASION FEARED

Bill to Provide \$12,000 Deficiency Appropriation Passes After Warm Debate—Memorial Asks Con- gress to Bar Coolies.

OLYMPIA, Wash., Jan. 19.—(Special.)—Discussion of the affairs of the National Guard of Washington consumed practically the entire morning session of the Senate.

The bill introduced by Senator Falconer, of Shoboham, for a deficiency appropriation of \$12,000 to cover the state militia's present obligations precipitated a warm debate, many of the members declaring that the militia has been too liberal in the past in allowing bills of such kind, and that it was time to curtail all similar appropriations.

Senator Jensen, of Pierce, objected to the appropriation, saying that the Washington militia is nothing more than a military farce and that the people had grown tired of the ways its affairs have been conducted. Senator Eastham, of Clark, declared that the appropriation should be withheld until a thorough investigation of the National Guard is made, as it has been frequently rumored that the affairs of the militia have been managed badly.

Jap Attack Guarded Against.

Senator Collins, of King, spoke in favor of the bill. He said that the state should not overlook the fact that Washington would be a vulnerable point in the event of an invasion of the "yellow peril," and for that reason sufficient appropriations should be made to create a strong military organization in the state as possible. Other members concurred with Senator Collins, and when the bill was brought to a vote it passed by 22 to 9.

In reference to a proposed treaty between the United States and Japan, a memorial presented by Senator Hutchinson, of Spokane, will be transmitted to Congress, asking that body to "continue the bar to the influx of coolie labor into the United States."

The memorial points out conditions that have arisen in the Coast states since Japanese coolies have been pouring into the country, making it almost impossible for American laborers to compete with the Oriental laborers and, as a consequence, "labor has been cheapened and the standard of living among the laboring classes has been lowered."

According to a bill introduced by Senator White, of Whatcom, and Senator Landon, of King, both Democrats, it is the wish of the minority to pass an initiative and referendum law similar to that in effect in Oregon. The bill was introduced this morning and referred to the judiciary committee.

Senator Stewart, of Clatsop, is author of a bill making it unlawful to catch snail in the Columbia River, or its tributaries in Washington between March 21 and December 15 except by hook and line, and that a license for fishing for snail at any time must be procured from the State Fish Commissioner. As the bill provides that only citizens of the United States can be supplied with licenses, the proposed law is primarily aimed at the fishing operations of Chinese and Japanese. The bill was referred to the committee on fisheries.

CAPITAL PUNISHMENT MAY GO

Washington House Members Discuss Its Abolishment.

OLYMPIA, Wash., Jan. 19.—(Special.)—Although members of the House took up nearly all of the morning session in discussing the Goss bill for the abolition of capital punishment, they could come to no definite understanding and the measure was not approved in a special order of business until next Thursday morning. From the tenor of the speeches made today it will not be unlikely that the House will vote to abolish the death penalty.

It is the desire of the majority of members of the House that the judges of the Supreme Court shall continue to wear gowns when presiding at court, for when the bill to repeal the act making this compulsory was brought up in the House, it was defeated by an almost unanimous vote.

A memorial was read in the House this afternoon, which will be submitted to Congress, asking that no treaty be entered into with Great Britain in the matter of regulating the fishing industry in Puget Sound waters. The memorial further asks that the matter be left entirely with the State of Washington.

Among the 23 bills introduced in the House today, one was authored by Moran of Yamhill, which provides for a National Guard Armory, and one by Fisher of King, prohibiting public service corporations from adding a penalty to unpaid bills.

STUDENTS TO GIVE PLAY

Corvallis Undergraduates to Present "Brown of Harvard."

OREGON AGRICULTURAL COLLEGE, Corvallis, Jan. 19.—(Special.)—The most elaborate theatrical production in the history of the college will be staged here Friday evening, when the junior class will present "Brown of Harvard" in which the leading parts will be taken by undergraduates from all parts of the state.

The title role, that of the star athlete, "Brown," will be taken by Allen Burdick ('12), of Portland, while the heroic hero in the play as "Miss Thorne," will be portrayed by Miss Florence Latus Starbird ('12), also of Portland. Sidney Klinghouse ('12), of Chicago, Ill., will take the role of "Madden," and the other leading parts will be acted by Miss Ray Atherton ('12), of Corvallis and Miss Isabella V. Ackermann ('12), of Salem.

JOINT SYSTEM PROPOSED

Salem and Albany Plan to Procure Pure Mountain Water.

A plan to establish a joint municipal water system, to supply both cities with pure mountain water. The plan is to run a pipeline from the Breitenbush River down the mountains, following the course of the Albany Santiam River to a point east of Jefferson and then run one line northward to Salem and another southward to Albany. The pipeline from the Breitenbush to Jefferson would be owned jointly by both cities.

The Albany Commercial Club has appointed a committee to confer with a similar committee from the Salem Board of Trade and formulate plans and arrangements looking toward definite action. The Albany committee consists of P. D. Gilbert, A. M. Hammer, William Bain, C. H. Stewart and J. S. Van Winkle.

In the event that arrangements are made for the installation of the pipeline it is planned to erect a reservoir for the Albany system on Knox Butte, four miles east of the city, and have a gravity water system. There has been considerable agitation here in the past few weeks for municipal ownership of both the electric light and water systems in Albany and this proposal to join with Salem in securing pure mountain water has elicited additional discussion.

JUNKETS ARE OPPOSED

SEVERAL SENATORS SAY COM- MITTEE VISITS FAIL.

Inspection of All State Institutions by One Body of Investigators Deemed Farcical.

STATE CAPITOL, Salem, Or., Jan. 19.—(Special.)—Junketing trips by members of the Legislature in visiting various state institutions were condemned this afternoon by Miller and Sinnott when Hawley's resolution providing a committee to visit practically all of the state institutions and some elementary establishments was reported upon favorably by the committee.

Miller objected to the adoption of the report. He declared that the Legislature established a policy four years ago against trips of that kind and that they appeared to him as hardly worth while. "Owing to a lack of information the committee is unable to ascertain any facts of value and if there is any junketing to be done I advise that the committee be given power to act and report to the next Legislature."

The committee in reporting had added St. Agnes' Foundling Asylum at Park-place, St. Mary's Home, at Beaverton; St. Mary's Orphan Home at Oswego and the House of the Good Shepherd at Portland.

Dimick called attention to the fact that a holiday legislative committee had been named to visit some of the institutions around Salem and he could see no value in having these institutions visited. He said it would require half the time of the session for two Senators and three Representatives, as suggested in the resolution, to visit all of the institutions and he noted the impracticability of one committee endeavoring to visit all of these places before January 23 as provided in the resolution.

Sinnott objected to the resolution in strong terms, saying he is opposed to the whole junketing trip, that the subject should be suppressed immediately and for all the session.

Such trips amount to nothing," he said. "They are made in the most perfunctory manner and remind me of the old grand jury investigations in which reports are returned that everything is in excellent condition, but would suggest that the Sheriff be provided with some other brand of cigars."

Wood suggested that it might be feasible for a committee to visit the Oregon Agricultural College, which is asking an appropriation of nearly \$500,000 and the University of Oregon, but also called attention to the work done by the legislative committee and believed that work was thorough enough to call for no further investigations at this time.

STRICT DRUG BILL PRESENTED

Measure Compels All Chemicals to Be of Federal Standard.

STATE CAPITOL, Salem, Or., Jan. 19.—(Special.)—One of the most stringent drug bills ever appearing before an Oregon Legislature was introduced in the House today by Jones of Clackamas. Its provisions the bill contains all the pure food and drug act passed by Congress in June, 1906. It has the endorsement of the Oregon State Pharmaceutical Association.

Under the bill it will be unlawful to sell or offer for sale any drug, preparation of a drug or chemical to be used as a medicine, which does not conform to the standard of purity established by the Government, or pharmacopoeia of the United States, unless the same shall conform to all of the essential standards thereof. The sale of adulterated or misbranded drugs or chemicals is prohibited. The State Board of Pharmacy is given full power to enforce all provisions of the proposed law.

Through this board applications must be made by all persons desiring to sell drugs. By the same board all stocks of drugs and chemicals shall be inspected regularly, an inspection fee to be paid by the person or firm conducting the business.

ONE BILL PASSED BY SENATE

Measure Provides Approval of Official Papers—3 Changes Made.

STATE CAPITOL, Salem, Or., Jan. 19.—(Special.)—One bill passed the Senate this morning. It was Senator Oliver's measure providing for the approving of official documents, the idea of the measure being to simplify proving of such documents coming from a foreign country.

Senator Hawley, on request of the Oregon Pure Food Association, asked that his bill, providing for registration of farm names, be re-referred for an amendment to make the registration both good as against all the state instead of applying exclusively to counties.

The bill of Senator Chase allowing port commissioners to purchase tide-lands within their boundaries was reported favorably.

A substitute for Senator Dimick's bill providing that the polls remain open all day on primary nominating election day was reported, the substitute eliminating a large amount of surplusage in the original bill.

introduced a joint resolution proposing a constitutional amendment restoring the \$500 personal tax exemption. The House has adopted Neuner's memorial urging Oregon's delegation in Congress to work for an appropriation of \$250,000 for a Federal building at Roseburg.

Rigelow has introduced in the House a resolution instructing the game committee to communicate with the Legislatures of California and Washington with a view to securing uniform legislation by the three states regulating the shooting of ducks and other water fowl. The House today indefinitely postponed Cole's bill authorizing the publication of the Oregon Supreme Court reports by George W. Bates & Co.

Sterilization Bill Revived.

STATE CAPITOL, Salem, Or., Jan. 19.—(Special.)—Rather than allow her sterilization bill, as vetoed, run the gauntlet of a two-thirds majority, or see it declared dead as the possibility has been suggested, Dr. Owens-Adair requested Senator Albee to reintroduce it at this session, and the bill came into the Senate today, labeled as Senate Bill No. 90. This is the identical measure with that introduced and passed at the last session relating to taking steps for restraining the propagation of criminal insane, imbeciles and idiots.

Deer to Be Safe at Night.

STATE CAPITOL, Salem, Or., Jan. 19.—(Special.)—Further game bills were introduced by Senator Mcerryman today. One of these limits the shooting of wild ducks to 25 in a week and the other limits the killing of deer to three in a season and the shooting of none during nighttime.

Agricultural Re-Division Asked.

STATE CAPITOL, Salem, Or., Jan. 19.—(Special.)—Division of the Southern Oregon District Agricultural Society into three districts instead of two and an increase in the appropriation from \$1800 to \$2400 for two of the districts is provided in a bill introduced in the Senate today by Calkins and Bean. Lane County is placed in a district by itself and Coos, Curry and Douglas counties are placed in another district with Jackson and Josephine in the third and \$1200 is appropriated for each of the districts.

New Judicial District Sought.

STATE CAPITOL, Salem, Or., Jan. 19.—(Special.)—Senator Norton introduced a bill this morning providing for the creation of a new judicial district, the bill naming Josephine County as the Fourteenth Judicial District, to stand by itself.

Water-Power Tax Advocated.

STATE CAPITOL, Salem, Or., Jan. 19.—(Special.)—Senator Carson's bill providing for the licensing of companies an-
