Atro Ruxs Awar.-Running backward at full tilt and with no guiding hand at the helm, an automobile caused great excitement at Third and Oak streets yesterday afternoon. A breathless and batless owner, in full pursuit, eventually captured the truant as it was about to plunge into the door of the police sta-tion and drove it away without giving his name. The driver had dismounted at the Western Union telegraph office and went inside for a few minutes. Ap-parently he left the car set in the back gear and with the brake off. When he came out again and cranked the engine, it suddenly leaped backward like a thing alive, and gained a considerable distance before the owner recovered from his sur-prise. H. Roper to provide entertainment for men of vessels in port has covered a wide range, but the weekly concerts have proved particularly popular.
