Valiant Fight for Life With Six Bulletholes Ends in His Defeat.

Hope of Recovery of Goldsborough's Victim Lasts Till Nearly Two Hours Before Death-Cari-

NEW YORK, Jan. 24.- David Graham Phillips has lost his brave fight for He died in Believue Hospital late tonight, a victim of Fitahugh Coyle Goldsborough, an eccentric and emotional musician, who, although of refined tastes and aristocratic southern stock, shot the novelist down yesterday for a fancied grievance, then killed

Phillips fought vallantly to live, but six bullet holes were too much, even for his grit and sturdy constitution, and at 11:10 o'clock he died. He was conscious up to within a quarter of an hour of his death.

At the bedside were his sister, Mrs. Caroline Frevert; his brother, Harrison W. Phillips; his personal physician, Dr. Eugene Fuller, and Dr. Donovan of

The immediate cause was hemorrhage of the right lung, which had been plerced by one of the steel-clad bullets from Goldsborough's automatic pistoi.

Hope Lasted Till 9 o'Clock.

Up to 9 o'clock the novelist was resting quietly and both physicians and rel-atives were hopeful of the outcome. He had been conscious all day and had received visitors, among them his sister. His brother, United States Senator Beveridge, of Indiana, and several writers of note. Their visits were extremely brief, but all who came away appeared

After 9 o'clock tonight the patient took a turn for the worse and, although the surgeons did everything in their power, the end was inevitable. The physicians met directly after death and decided to request the Coroner's Jury to dispense with an autopsy. It is believed this will be granted, though an autopsy is usual in homicide cases.

Goldsborough Saw Carlcature.

Harrison Phillips announced that Mr. Severidge would have charge of the funeral arrangements. The Senator re-turned to Washington this evening, but probably will come back to New York in the morning. In the meantime it is thought that Phill'ps' body will be taken either to the Princeton Club or to the National Arts Club.

That for some time Phillips had been receiving threat-ning notes, telegrams and telephone-calls was a fact known to his relatives. and Goldsborough had been heard to say that he had a grudge "against a certain writer," on account of a magazine article. Reports from Washington say that Goldsborough saw certain points of resemblance between him and a character sketch of a musician in one of the author's recent novels.

No information as to the nature of this statement could be obtained. The assailant's real motive is as much a mysiery as ever, although the theory generally accepted here is that he pictured himself and family as depicted unfavorably in one of the author's novels. There is doubt on this accre, however, for there was found this afternoon in his obtains what appears to be pages from

Mayor's Secretary Annoyed.

At any rate, the obsession grew until he shot the man he hated and sacrificed his own life. Robert Adamson, secretary to the Mayor, said this afternoon that Goldsborough had called upon him at the

OLYMPIA, Wash., Jan. 24.-(Special.)-Unless the sentiment of the members of the Capitol Commission changes before next Monday, when another meeting will be held, the new Capitol in Olympia will not be erected for many years to come. At the meeting held in the office of Governor Hay today the proposed bond issue was cast aside for the time being and the only thing decided upon was to ask the Legislature to amend the law which makes it necessary for the commission to erect the new Capitol upon the old foundation new standing on the new site. The old foundation is regarded as

After being in executive session for three hours and having several wordy clashes, the members declined to talk when they disbanded and the only anuncement made was that they would ask the Legislature to remove the re-striction in regard to the foundation. Governor Hay said that to ask the Legislature to approve a bond issue would mean the asking of an appropriation of at least \$150,000 for 'nterest and at this ne that would be considered the height

After Portland had led off with a large margain in the first day of the Young Men's Christian Association membership ampaign between the cities of Portland Seattle, Spokane and Tacoma, the Puget Sound metropolis tied with Portland yesterday. Seattle yesterday reported 33 members signed during the day, making its increase for the two days 161, exactly the same number signed by Portland. Tacoma advanced to 54 and Spokane to

The Portland Association was not tirely unprepared for Seattle's big in-crease, as there was a rumor on the opening day that Seattle was holding back some of its gains. The Portland memberahip teams, however, firmly be-lieve that they will win the contest, which is to close Saturday night. They realize that it is going to be a hard fight, but are determined to regain the advan-tage that they lost yesterday. Some of the Portland teams also are holding back some of their new members, pre-ferring to report them when they have a considerable number signed. It is probable that if all the members lined up were turned in Portland would be well ahead of its Puget Sound rival.

The supper of the membership teams last night was largely attended and when the report from Seattle was read the men pledged themselves to work even harder the remainder of the week. The solicitors will eat supper together in the Y. M. C. A. auditorium at 6:15 each evening during the week.

The delay in the service of subpenas by the Sheriff was explained by him as resulting from the fact that he has been busy cleaning up the testimony in the case of the negro, Harry Thomas, who is alleged to have confessed Monday to complicity in several murders, also from the fact that many other wit-nesses had to be called. FEDERAL CONTROL ASKED

UNIT REGULATION ASKED FOR RAILWAY SECURITIES.

President Delano, of Wabash, and Counsel Tell Commission State Authority Is Not Favored.

CHICAGO, Jan. 24 .- John J. Mitchell, esident of the Illinois Trust & Savings Bank; F. A. Delano, president of the Wabash Railroad, and Burton Hanson, general counsel for the Chicago, Milukee & St. Paul Railroad, informed the railway securities commission today that they favored Federal regulation of rail-road stocks and bonds in preference to

state regulation.

The commission, headed by President Arthur T. Hadley, of Yale University, is here taking testimony preliminary to framing a proposed National law reg-ulating securities issued by interstate

carriers.
Mitchell said he believed Federal regulation would simplify the method now existing under diversified state laws. At the same time, he said, Federal control should not impose any more limitations

"I don't see how the Government is going to prevent the selling of stocks below par," said Mr. Mitchell. "Nor do I see how it is going to prohibit the selling of stockholders' stock at par when its market value is above par. The sellers and the purchasers are the proper parties to fix the prices."

Mitchell said that prohibiting the selling below par would tend to encourage railroads now existing and would discourage new railroads into the building of which a speculative element must enter.
