FUNERAL WILL BE PUBLIC

Great Gathering of Authors and Friends Will Attend—Final Burial to Be in Indiana—Motive of Assassin Found.

Bar Disapproves Pending Bill.

NEW YORK, Jan. 25.—The funeral of David Graham Phillips will be public. So many of the friends and admirers of his works have been stirred by his assassination that plans for a private funeral were abandoned.

Man Dies in Castle Rock Visit.

CASTLE ROCK, Wash., Jan. 25.—(Special.)—N. B. Wright, for many years a resident of California, who recently came to this city to visit his son, L. L. Wright, and make his home here, died this morning at his son's home. Though feeble, Mr. Wright insisted on working and contracted a cold, which, owing to his age, caused his death.

Springfield Has First Watchman.

SPRINGFIELD, Or., Jan. 25.—(Special.)—J. C. Mulligan has been appointed to fill the newly-created position of Springfield's first nightwatchman. He has been formerly connected with the Booth-Kelly Lumber Company in a similar position.

detaker's establishment to the rooms of the National Art Club, where Phillips had made his home with a sister, Mrs. Carolyn Grever. She and Harrison W. Phillips, a brother, will be the only near relatives at the funeral.

A curious crowd gathered today about the undertaking rooms where the body lies and finally became so large as to block traffic.

Goldsborough's Motive Found.

That Mr. Phillips' assailant was demonstrated conclusively, not only by the curious testimony of his notebooks, but also by his complaints to Mayor Gaynor's secretary and other officials, of persons who he believed were hounding him. The entries in the diary showed that he had translated to personal abuse the author's picturesque characterization of a class in his novel on Washington life, "The Fashionable Adventures of Joshua Craig," and under this misconstruction had conceived a homicidal hatred of which the victim was unaware.

At a meeting of the Multnomah Bar Association in the Courthouse last night, disapproval of House bill No. 35 in the State Legislature was voiced in the adoption of instructions to the Legislative committee to take such action as will secure its defeat. The bill is aimed to permit withdrawal of deeds from registration under the Torrens system. It was asserted it would lead to confusion of the present system—an end desired by abstract companies. A motion proposing the repeal of the law providing for a guarantee fund in the issuance of certificates of title was passed and the legislative committee instructed to use its efforts to accomplish that end.

PROPOSED LAW UNFAIR

PLAN TO REDISTRIBUTE STATE IS BAD FOR MULTNOMAH.

Constitutional Amendment if Carried Doesn't Give County Just Share of Representation.

STATE CAPITOL, Salem, Or., Jan. 25.—(Special.)—First of the measures proposing a redistribution of the state into Senatorial and Representative districts is a constitutional amendment which is being drafted and will probably be introduced in the House tomorrow. By its provisions, each of the 34 counties of the state is given a State Senator, limiting the membership of the upper house to that number. Each county, under the same plan, is to have one Representative, the total membership of the lower house to be 34. The other 41 Representatives are to be apportioned among the counties on a basis of population. If approved by both branches of the Legislature, the proposed constitutional amendment will be submitted to the electors of the state for their ratification in the general election in November, 1912.

At the late general election a similar constitutional amendment was rejected by the voters and it is doubtful if the one now proposed will meet any other fate. The proposed amendment is manifestly unfair to Multnomah County and is understood to be inspired by some of the Eastern Oregon and Interior counties.

Computed on a basis of population and assessable value of property, Multnomah is entitled to one-third of the total membership of both the Senate and the House, or 10 and 20, respectively. The apportionment provided in the proposed amendment would give to Multnomah, which pays more than one-third of the state tax and contains more than one-third of the total population of the state, only one State Senator and probably 39 Representatives or about 26 per cent of the membership of the lower house. Because of its apparent unfairness, it is believed the resolution offering the constitutional amendment, can get through both houses.

At any rate, consideration of the resolution will be merely an incident in the question of reapportionment of the state's legislative representation at this time for the reason that under the constitution it is mandatory on the present Legislature to make an apportionment. On the other hand, the proposed constitutional amendment cannot be submitted to the voters for nearly two years, and, in addition, it specifically provides that its provisions, if approved by the people, shall not become effective until 1914.

Several members of both houses are figuring on some plan of reapportionment that will give each county and combination of counties the representation covering the subject have not been prepared but it is probable that some measure may appear not later than next week.

Multnomah Wins From Y. M. C. A. In the city championship basketball tournament games played between the Multnomah Amateur Athletic Club and the Young Men's Christian Association last night the "M" was again the winner. Last night's scores follow: Cleland and Ellsworth (M. A. C.) defeated Hartman and Haffenden (Y. M. C. A.), 21-9 and 21-18. Osborn and Ainslie (M. A. C.) defeated Carlinder and Haverly (Y. M. C. A.), 21-6 and 21-6.

LEASING PLAN PROPOSED

COAL LANDS IN ALASKA MAY BE OPENED UP.

Mondell, of Wyoming, Introduces Bill to Enable Government to Mine and Sell Deposits.

WASHINGTON, Jan. 25.—The leasing of coal lands in Alaska is provided for in a bill introduced today by Representative Mondell, of Wyoming, chairman of the House committee on public lands. All lands containing merchantable coal in Alaska are to be reserved from all other disposition. This will not prevent the location and patenting of coal lands valuable for metalliferous minerals on which the coal and the right to mine it are reserved to the Government.

The measure will not apply in any way to any rights or claims initiated prior to the passage of the bill. All leases or licenses are limited to one lease or license with a maximum of 2000 acres. A rental charge is made per acre and leases are not to exceed 20 years on a royalty basis of from 3 to 10 cents a ton.

Mining lessees are barred from monopolizing coal trade and from selling unfairly or discriminatively, or from operating wastefully and unsafely as to miners.

The Government may take the coal mined wherever found for the Army, navy or revenue cutter service at a price to be fixed by the President, and suits are authorized in the United States courts for violations of leases.

A limited mining lease for municipal corporations and individuals not exceeding 160 acres is provided. Of the revenues, 75 per cent is to go to the Alaska fund for road construction, schools and care of the insane.

The interstate commerce law relating to railroad rates is extended to Alaska.

That the high cost of being ill is a notable fact of the period is easily figured out by the hospitals. In New York hospitals the daily cost of a patient's maintenance, in 1909, was \$17, and now it is at least \$18.00.

Hotel Sherman

and College Inn Clark Street at Randolph

Chicago's Newest, most beautifully and most conveniently located Hotel and Restaurant. 757 rooms, every one with bath. Distilled ice water in every room. Large Convention and Banquet Halls on second floor. Moderate prices.
