

LOVE POLICEMAN STOPS ANGRY MOB

Thousands of Shouting Anarchists Parade Broadway, Crying "Kill the Japs."

TOKIO EXECUTIONS CAUSE MARCH TOWARD JAPANESE LEGATION

Dispersed by Nery Copper, Who, Single-Handed, Arrests Leader Carrying Red Banner.

NEW YORK, Jan. 29.—A thousand men and women marching down Broadway tonight behind a large anarchistic banner brought out the police reserves, whose forcible arrest of the alleged leaders caused a small riot. The parade followed a meeting in an East Side hall, in which speakers had denounced the execution in Tokio last week of a dozen persons charged with plotting against the life of Japan's Emperor.

It is alleged the crowd was marching on to the Japanese Consulate to make a further demonstration there, when Policeman Reilly started the crowd rounding into Broadway. According to the officer, the paraders filled the street for blocks bearing red flags in their ranks. Men and women on the outside ranks were handing out circulars in Italian and Russian to the on-lookers and the paraders tried to vie with each other in shouting: "Kill the Japanese!"

MICHIGAN TO FETE ALUMNI Graduates in Government Service to Be Banquet Guests.

NEW YORK CITY, Jan. 29.—(Special.)—University of Michigan alumni of the Eastern States will give a National dinner February 4 at the Hotel Astor in honor of the university's alumni in the highest divisions of the National Government. Michigan has a larger alumni delegation in Congress than any other university in the country. Twenty-seven Michigan alumni of whom are Senators, are members of the present Congress.

PAINE'S MEMORY HONORED Not Religion, but Imposture, Attacked, Says Speaker.

The 17th anniversary of the birth of Thomas Paine is celebrated in the Portland Social Turnverein Hall last night. There was a programme of music and speaking.

LARGE FLEET WILL COME Nine New Steamers to Engage in British Columbia Trade.

VICTORIA, B. C., Jan. 29.—A large fleet of steamers, all but one built in Europe for British trade, is on the way to Victoria, including the following vessels: The steel screw steamer British Empire, 53 tons, and a passenger and freight steamship of 1300 tons, for the Northern Steamship Company; the Canadian Pacific steamer Princess Mary, a fine twin screw steamship recently completed at Paisley, Scotland; five steam whalers built in Norway for the Canadian Northern Pacific Fisheries Company, named the White, Green, Red, Black and Brown. Three of these boats will touch at San Diego in a few days; a new steamship for the Grand Trunk Pacific Company.

CANDIDATE AGAINST MAYOR SEATTLE RECALL RACE.

GEORGE W. DILLING.

MAYOR RACE CLOSE

Women Support Dilling's Candidacy at Seattle.

GILL STRONG DOWN TOWN

Powerful Foes of Present Administration Are Found in Clubs, Schools and Churches—Saloon Vote Is Lost.

SEATTLE, Wash., Jan. 29.—(Special.)—The women will elect George W. Dilling Mayor of Seattle, if he is elected.

The Dilling forces are working quietly in the residential sections, among club women, school teachers and church and club women. There are busy leaders among them. Dilling says he is for reason, and denies the imputation that his views are narrow.

Gill's strength is down town. Many business men are for him and say he has been fair minded. In some quarters there is a strong belief that he has not had a fair chance. Sheriff Hodge's letter is being used to prove that investigation gives him a clean bill.

Dilling Leads Polling.

A poll of the aristocratic residence districts gives Dilling 2 to 1. Dilling promises law and order, an absence of favoritism, and the removal of Chief Justice Wapenstein, also Arms, an ex-employee of the Seattle Electric Company, now employed at the head of the city lighting department. Gill says he will be a strong supporter of the Legislature, and give the town a reasonably open administration.

Both sides are well organized, but the polling, which has been done with care, and the temper of mutiny seem to indicate that a strong reaction has set in against Gill and Wapenstein.

Hodge to Vote for Gill.

Tomorrow a statement from Sheriff Hodge will appear wherein he says he will vote for Gill because Gill has promised to displace Wapenstein. Hodge will deny that he signed the statement attributed to him and being used by Gill's men.

He will say that he does not ask his friends to vote for Gill. This statement is late in getting here, as Hodge is out of the city.

The Dilling managers expect to get busy today and they think the new statement will offset the former one unqualifiedly endorsing Gill.

BIG FIGHT ON FOR SHEEHAN

(Continued From First Page.)

declared against the attitude of the bolters. W. F. Sheehan and C. F. Murphy returned tonight from New York to muster forces for the renewal of the fight over Mr. Sheehan's struggle for the United States Senatorship. A full attendance is expected when the Legislature convenes for the joint ballot at noon tomorrow.

Mr. Murphy and Mr. Sheehan came up together. Both said they in their brief stay in New York they had attended no conference bearing on the Senatorship. When Mr. Murphy was asked if he expected a break in the deadlock this week, he replied: "You can't tell; I hope so."

Senator Roosevelt talked in a belligerent strain tonight. Every minute they hold out for Mr. Sheehan," he said "they are hurting the party. Those who are standing by Mr. Sheehan should realize by this time that their chances of ever electing their candidate are absolutely hopeless."

COLORADOANS RESERVE VOTES

Real Strength Not Disclosed by Leaders in Deadlock.

DENVER, Jan. 29.—In accordance with an opinion by Attorney-General Griffith,

TAFT RUMBLE EXPERTS DECLARE HE EXECUTED MASTER-STROKE IN CANADIAN NEGOTIATIONS.

PROGRESSIVE TITLE WON HOUSE SPLIT ON CAPITOL

All Agree Building Needed but Method Building Disputed.

STATE CAPITOL, Salem, Or., Jan. 29.—(Special.)—With members of the House almost a unit in feeling that there should be an addition to the State Capitol, but with a war on as to how this addition should be made, Chief Clerk Corey of the Secretary of State's office, will submit an entirely new plan this week which he believes will satisfactorily settle the difficulty.

Now a distinct line is drawn between those who wish to purchase new land and those who don't. Those who object to new land say that building on the present grounds, but that they are opposed to this because they believe such would obstruct the view and disfigure the grounds. Corey proposes to follow the plan used on the Capitol at Madison, Wis. He would extend a wing east and a wing west, similar to the north wing. The new wings would extend over the ground now covered by the great stone steps and under the plans in their entirety would include the grounds. Corey says, to provide all of the room the state would need for a century.

Estimated cost would be below the \$500 asked for the new building over which a fight is now being waged, and Corey is of the opinion that the wings would be much more satisfactory, as the old wings would be retained under one roof.

LINN TO IMPROVE ROADS County Districts Make Special Levies for Highways.

ALBANY, Or., Jan. 29.—(Special.)—More money will be spent in road improvement in Linn County in 1911 than in any former year in the history of the county. Besides the general levy of 1.2 mills made by the County, 14 of the 23 road districts have made special levies for road improvement and will expend large sums in systematic road building.

This is only the third year in which special road district levies have been made in Linn County. The first special road district levies were extended on the 1910 roll there will be but one less than three times that number. Sentiment in this county against the highway bills now before the State Legislature is strong, the people preferring to spend their money directly on their own roads and under the direction of their own County Board and road supervisors rather than under the direction of some state commission. Linn County is opposed to a state highway bill, and the county is now working on itself for east and west roads leading from the farming section into the various towns of the county which afford a market for produce.

WAREHOUSE SITE BOUGHT Vancouver Firm to Build \$30,000 Structure at Once.

VANCOUVER, Wash., Jan. 29.—(Special.)—The Vancouver Land & Fuel Company, incorporated for \$30,000, has bought a warehouse site on the North Bank road, on Ninth between Jefferson and Franklin streets. The railroad franchise on Ninth street from the main line, that crosses the Columbia River here, the half block will be built at once.

This is the first of what is thought to be many warehouses to be established in that section of the city. A spur line of the railroad will give ample shipping facilities. Vancouver has the advantage of terminal freight rates, as compared to Portland, from any point in the West.

The North Bank road is contemplated building \$2,000,000 elevators and docks three and one-half miles below the city.

Herrarte Gets New Position. WASHINGTON, Jan. 29.—Dr. Luis Toledo Herrarte, the Guatemalan Minister of Education, has been appointed Minister of Foreign Affairs in the Cabinet of that country. It is not known who will succeed him here.

TAFT DONS FIGHTING TOGS (Continued From First Page.)

Some members of the Senate and House who would be expected to take the lead for the renomination of Mr. Taft in 1912 may now be found lukewarm in their support. If the President should deem it incumbent upon him to call an extra session and submit the reciprocity amendment to the Democrats of the next House, it is said, still other Republicans may become alienated.

This phase of the situation was discussed by one of the President's friends today. He said if Mr. Taft could give any thought to his political future he had not been manifested in his conversation.

At the same time, this friend said he believed the President had a great deal to gain even in politics by carrying on a fight to decrease the cost of living. The introduction by McCall, of Massachusetts, of a bill to carry out the terms of the Canadian agreement indicates that there will be little delay in bringing such a measure from the ways and means committee.

Although it may be some time before the reciprocity question is discussed on the floor of either house, it overshadows other questions in corridor and cloakroom circles.

Nevertheless, a busy week confronts both branches. The composite tariff board measure withdrawing portions of the Dalsell and Longworth bills under the special rule, may be brought up tomorrow.

White House Is Elated. Elation also is felt in White House circles at this critical time over the news of the unanimous agreement reached by the House ways and means committee on a permanent tariff board measure. With the Democrats joining with the Republicans in reporting out such a measure there is no doubt as to its speedy passage through the House.

In the Senate, of course, it will strike a snag, as already indicated. The measure for which the House has indicated its favor possesses objections in the eyes of Senator Bailey just as much as any commission bill, and Bailey served notice a week or more ago that no tariff commission would be provided for at this session.

Some of the reactionary Republicans of the Senate also will be disposed to draw the teeth out of the tariff board bill—"modify" it, as they say—even should the Democrats decide not to block it with a filibuster.

But this does not trouble the friends of the President, who rather see in such action positive political benefit to him. Corey declares that the passage of the measure through the House will emphasize the executive's good purpose and be a big step in the direction of securing with a new building on the grounds. The Administration will find approval; those who block the reform condemnation.

Sumner to Chicago Record-Herald. WASHINGTON, Jan. 29.—President Taft refuses to read out of the progressive ranks of the Republican party. He thinks he is as much a progressive as any of those who have organized the National Progressive Republican League, which is generally regarded as the inauguration of an anti-Taft movement.

Not so very far back, it will be remembered, that the feeling was expressed and rebuked what they construed as an effort of Administration agents to read them out of the Republican party. The five senators already mentioned it is declared that insurgents cannot monopolize progressiveness. There has been much concern as to the effect of the information has been to the effect that he regards himself as good a progressive as any one else in the Senate. He is content to let the country take his measure from what he has done already and what he hopes to accomplish in the future.

EXPERTS DECLARE HE EXECUTED MASTER-STROKE IN CANADIAN NEGOTIATIONS.

Columbian Optical Company 133 Sixth Street Portland, Oregon

LUMBERMEN URGE LAWS

AMENDMENTS TO LIABILITY PLAN SUGGESTED. Coast Association Also Would Alter Insurance Statute—E. G. Griggs Is Elected President.

SEATTLE, Wash., Jan. 29.—(Special.)—Members of the Pacific Coast Lumber Manufacturers' Association yesterday elected officers. Discussed various phases of the lumber industry and took up proposed laws now before the Legislatures of the Coast States.

Radical amendments to the employment law now being considered by the Washington State Legislature, were urged vigorously. A committee was named to go to the State Capitol next Wednesday and work for amendments that will cut 50 per cent from the present charge against the payroll of an employer or employing concern and reduce the maximum charge a day from two cents to one cent against the workman and employer in each case.

Indorsement was given the report of Chairman Skidmore of the Insurance committee, which recommends far-reaching changes in the state insurance laws, which will provide that a warranty or obligation issued by an insurer shall not be deemed to be broken if it is shown that the breach of the obligation did not contribute directly to the loss.

Officers and trustees were elected as follows: President, Everett G. Griggs, Tacoma; first vice-president, E. G. Ames, Seattle; second vice-president, J. H. Bredel, Bellingham; third vice-president, E. E. Patton, Seattle; fourth vice-president, E. O. McLaughlin, Aberdeen; Trustees, D. E. Skinner, Seattle; A. D. McKee, Vancouver; B. C. W. B. MacKabe, Aberdeen; George Startup, Startup, Wash.; C. E. Hill, Tacoma; H. Bonner, Everett; F. H. Jackson, Clear Lake, Wash.; Paul E. Page, Buckley, Wash.; Ralph Burnside, Hoquiam; H. Stuebel, Everett; L. G. Horton, Seattle.

The cargo branch elected the following trustees: C. E. Hill, Tacoma, chairman; R. A. Alexander, Vancouver; W. E. Mack, Aberdeen; M. E. Biagon, Aberdeen; E. O. McLaughlin, Aberdeen; E. G. Griggs, Tacoma; F. W. Baker, Bellingham; J. W. Ives, Seattle; E. O. H. Kirk, Seattle.

CHARTER AMENDMENTS UP Eugene Council to Consider Commission Form of Government.

EUGENE, Or., Jan. 29.—(Special.)—Proposed amendments to the present charter of the city of Eugene will be submitted to the Common Council at a meeting tomorrow night. These amend-

ments were prepared by a charter commission. It is provided that there shall be three commissioners with salaries of \$1200 and a Treasurer elected for varying length of terms; all other officers and employees are appointed. The provisions of the state law as to initiative, referendum and recall are adopted and made a part of the charter without amending that document with useless sections.

The City Council also has pending an amendment providing for small salaries for Mayor and present eight Councilmen, and this, too, is likely to go on the ballot, along with the charter amendment to authorize \$25,000 bonds for a municipal fire-fighting system and a referendum on a dog ordinance.

Mexicans Dynamic Tracks. EL PASO, Tex., Jan. 29.—The Mexican Central passenger train due to leave at 8 o'clock tonight for Chihuahua is being held indefinitely on account of tracks being dynamited several miles south of Juarez.

Only Drugless Sanitarium On the Pacific Coast

This is NOT a "massage" institution. It is not a place wherein patients are treated by the "laying on of hands." It is not a "mental suggestion" sanitarium. It is NOT a joke.

WE HAVE \$20,000 WORTH OF RADIUM AND MEDICAL MACHINERY. We have exactly the same appliances used in all the GREAT hospitals of Europe and fixed by the most renowned physicians in the world. We employ no drugs nor do we subject our patients to surgical operations—90 per cent of which are absolutely unnecessary. Hence 90 per cent are not only free of pain, but are free from life-long injury.

WE OCCUPY THE ENTIRE NORTH HALF, THIRD FLOOR, Rothchild Bldg., 4th and Wash. In which we operate the famous X-Ray Static Machine, the Parafac, Galvanic and Sinusoidal Electric Currents, the Sanitary Hot Air Bath Oven; the Electric Light Bath Cabinet, the Caustic Vibrators, Electric Baths, Mineral Baths, Herbal Baths, Steam Baths, Hot and Cold Shower Baths, Pneumatic Hot and kindred ailments out of the afflicted parts of the body. The Hot Light, the powerful Solar Light, Helio's searching and tremendously effective Air Light, Dermol from Carbon Light, the far-famed Giant Light, and its twin, Micro for lesser ailments.

WE HEAL DISEASES FROM WITHOUT. And do not aggravate them by poisonous drugs inwardly administered, which seek the seats of one disease in a vain attempt to heal another. Science and Health are inseparable. The physician who clings to the antiquated practice daily suffers most painful quins of conscience—and his patients pay the bills. It has cost in all about \$30,000 to equip this Sanitarium. We are paid to cure. HE receives "reciprocity" from the hospital. OUR patients have no hospital bills to pay. HE is favored by the drugless—TREATMENTS (except X-ray), \$2 each or 15 for \$25. It is a dire and most serious disease that requires more than one or two 15-treatment courses.

DR. W. E. MALLORY, RADIUM SPECIALIST, SOLE PROPRIETOR

Graduate of American School of Naturopathy, New York; New York School of Electrotherapy, Waverly, N. Y.; Chicago School of Psychology, Chicago; Practitioner of Electrotherapeutics, St. Louis, and the National School of Electrotherapeutics, Lima, Ohio.

Office hours: 9 A. M. to 6 P. M., Sundays, 8 A. M. to 12 M. Phone Main 604. No treatment outside Sanitarium.
