## RECALL IS INVOKED

### Petitions Against Councilman Ellis Is Under Way.

### WOODLAWN TAKES ACTION

### Position on Peninsula Sewer Question Stirrs Some of Constituents.

Councilman Ellis, of the Tenth Ward, is to be subjected to a recall vote, by some of his constituents, because of his attitude on the sewer question on the Peninsula. Petitions for the recall are being drawn up and probably will be ready for circulation in his ward in a few days. Citizens of Woodlawn yesterday employed an attorney to prepare the petitions for the recall, and as it is the first active recall movement in Portland great care will be exercised in the preparation of the petitions.

After the attorney has drawn the petitions they will be submitted to another attorney as a further precaution.

"Recall or no recall, I am in favor of carrying the sewage for the three sewer districts on the Peninsula to Columbia Slough if the current is found sufficient to carry off the sewage, but if not, then to Oregon Slough, in which there is sufficient current," declared Councilman Ellis last night when told that measures were being taken to recall him.

There has been strong opposition to using Columbia Slough, as the discharge for the sewers from these districts—Vernon, Piedmont and the Peninsula—on the ground that to use Columbia Slough would be a constant menace to the health of the community. At the meetings held in Woodlawn this opposition took definite form.

### MINERS INDORSE MEASURE

Creation of Bureau by Legislature Urged by Association.

Indorsing the bill introduced in the Legislature for the purpose of creating a Bureau of Mines, members of the Oregon State Mining Association, passed the necessary resolutions Monday night in a meeting held in the rooms of the promotion committee of the Commercial Club. It is contended in the resolutions that the mining industry in Oregon has taken its place among the other industries of the state and that if the bill is passed it will materially assist in the development of the mining interests.

L. B. Bartlett acted as chairman of the evening and L. D. Malone, as secretary. H. S. Taylor, of the Miners

World, of Chicago, was present and addressed the members. A letter from A. S. Colbreath, of Denver, secretary of the American Mining Congress, was read, authorizing L. D. Malone to establish a chapter of the congress in Oregon. For that purpose a meeting will be held in this city May 16, 17 and 18.

## FLAX IS HARD TO RAISE

### BIG BUYER SAYS LABOR COST MAY BE PROHIBITIVE.

### Weeding and Harvesting Processes Have Confined Growth to Districts Across Ocean.

Disclaiming any desire to discourage the flax industry in Oregon, and yet expressing grave doubts whether the growing of flax will prove profitable, William Harbour, of the Linen Thread Company, of New York, has written a letter to J. W. Cook, of Portland. Mr. Harbour says he does not doubt that Oregon can raise the finest quality of flax, but he believes the cost of labor to insure a farmer a good price for the flax they might raise.

I recently read in The Oregonian I think, quite a long article referring to a meeting that had been held in your city, the purpose of which was to encourage the cultivation of flax in Oregon. I am not writing to you as an endeavor to stifle competition, I am writing you simply to prevent our attitude toward flax from being misunderstood, and to prevent any friends of flax from engaging in a vain enterprise, without knowing what they can find out from me cheerfully, without expense.

That flax aggregating many hundreds of dollars, imposed in the Municipal Court in past years, were illegal, in that they were below the minimum was the discovery made yesterday when J. H. Fenner, a lumberman, was brought up for exceeding the speed limit, while driving his automobile. Police Sergeant Patton arrested Fenner for exceeding the speed limit. Judge Taxwell said that he would impose the minimum fine, \$25. Someone remembered that it had formerly been the custom to impose a fine of \$50 for offenses committed outside the fire limit, and the law was looked up. It was then learned that while within the fire limits there is no minimum fine, \$25 is the minimum fine in the outlying districts.

Penalties Too Low, Municipal Court Discovers.

That fines aggregating many hundreds of dollars, imposed in the Municipal Court in past years, were illegal, in that they were below the minimum was the discovery made yesterday when J. H.
