MAYOR GETS SURPRISE

CONSULTING ENGINEERS WOULD CLEAR MR. WAKEFIELD.

City's Expert Says He Was Not to Blame for Delays in Completion of Hawthorne Bridge.

Mayor Simon and members of the bridge committee of the Executive Board are somewhat surprised at the recommendations made by Waddell & Harrington, consulting engineers for the city on the Hawthorne-avenue lift bridge, recently completed. They not only endeavor to clear the skirts of Robert Wakefield, who finished his work 187 days late, by their statement that 181 days of that time the water in the river was too high for him to proceed, but strongly intimate that the penalty of \$50 a day for the remaining 64 days should be overlooked because, they say, he lost money on the work. Waddell & Harrington made their report to the Executive Board yesterday afternoon, when it became public for the first time. It was referred to the bridge committee, the members of which have given a great deal of time to the subject of the Hawthorne-ave-

nuce span, and who are said to be surprised at the recommendations and broad suggestion contained in the final statements of the consulting engineers.

While the substructure of the bridge was to have been completed on or before February 24, it was not until July 20 that pier No. 5, the last one, was completed and the contractor then obstructed the work of the superstructure to a considerable extent by failing to get out of the way promptly. During the long, tedious delay the public was inconvenienced beyond measure and loud complaints were made on every hand. It was necessary for Mayor Simon to make vigorous demands upon the consulting engineers, by letter and in person, to get any action on the construction and the progress was generally unsatisfactory while Contractor Wakefield was on the job.

Waddell & Harrington report that the work done by Wakefield under their supervision is first class, and as to this feature there has been no objection thus far; the city has accepted the span upon recommendation of the consulting engineers and it has been open to the public for several weeks. Under the recommendations of Waddell & Harrington, the city still owes Wakefield \$11,800 and there should be but \$2890 deducted in penalties, in case the Executive Board decides to levy the fine as provided in may in the contract. In case, however, the Board decides that Wake-

field could have utilized any or all of the 191 days for which the consulting engineers say he should not be fined, \$50 for every day would prevail.

A striking feature of the report is that which sets forth that the work of the contractor is first-class and that he must have suffered financially by taking the contract at the figure which he built the substructure. The entire report favors the contractor very strongly.

The Executive Board ordered the last payment, aggregating \$24,000, to the United Engineering & Construction Company, the contracting firm for the superstructure.

SPECIAL TRAIN SATURDAYS To Clatsop Beach Points.

Hotels at Gearhart and Seaside are open all year. Splendid salt air resorts for Winter rest and recreation. Astoria & Columbia River Railroad trains \$ A. M. daily, 6:30 P. M. Saturday. Round trips 12 weekend; \$4 daily.

PNEUMONIA FOLLOWS A COLD Bitter never follows the use of Foley's Honey and Tar, which checks the cough and expels the cold. M. Stockwell, Hannibal, Mo., says, "It beats all the remedies I ever used. I contracted a bad cold and cough and was threatened with pneumonia. One bottle of Foley's Honey and Tar completely cured me." No opiates, just a reliable household medicine. Sold by all druggists.

AMATEURS LOOT BLOCK

LUMBERMEN'S BUILDING OFFICES ENTERED.

Thieves Pry Open Desks, but Aside From Damage Owners Lose Only Stamps and Pennies.

Ten rooms on the third, fourth and fifth floors of the Lumbermen's building, Fifth and Stark streets, were broken into Thursday night, and that many or more desks were pried open, with an aggregate profit to the robbers of a few stamps and pennies. While the amount stolen is ridiculously small, damage running into hundreds of dollars was done to the desks, many of which were ruined.

Some time between 8 and 12 o'clock, the prowlers entered the building and ascended by the stairs to the upper floors, which were entirely deserted. Each room was entered with a master-key. A Jimmy was then used to pry open the desks, all of which had the locks torn off and the woodwork marred.

Moore yesterday and Detectives Mallet and Craddock were assigned.

The individuals and firms who suffered were the Boulder & Kert Company, F. M. Hurt, the Oregon Valley Land Company, the E. J. Dodge Company, A. S. Locke, H. H. Urdahl, A. P. Sprague and James B. and John W. Alexander. When these business men reached their offices yesterday morning and found their desks broken open, they made hurried search, but were unable to discover any material loss. That the job was the work of amateurs is the opinion of the detectives, as it was clumsily done, and a crowding evidence of stupidity is seen in the fact that the thieves pried off the bottom of a check perforator, apparently with the notion that it contained money. No safes were disturbed.

UMBRELLA CASE IN COURT

Ex-Banker Under Suspended Sentence for Making Exchange.

After knocking about in the funny papers for many years, the borrowed umbrella found its way to the news columns yesterday, when Thomas Devine, formerly a banker at St. Helena, and a well-known character about town, who makes a living by timber-cruising, was arrested for taking by mistake a rain-stick belonging to Antone Semmuke. Devine told the court that he had taken the umbrella by mistake and

had in fact left a better one in its place, but Semmuke was insistent that his own be returned to him. He valued it at \$2.

Devine had the missing property in his possession when he was arrested and it was returned to its rightful owner.

ENDS MISERY FROM INDIGESTION OR A SICK, SOUR, GASSY STOMACH

A Little Diapiesin makes your out-of-order Stomach feel fine in five minutes.

The question as to how long you are going to continue a sufferer from Indigestion, Dyspepsia or out-of-order Stomach is merely a matter of how soon you begin taking some Diapiesin. If your Stomach is lacking in digestive power, why not help the stomach to do its work, not with drastic drugs, but a re-enforcement of digestive agents, such as are naturally at work in the stomach. People with weak Stomachs should take a Little Diapiesin occasionally, and there will be no more Indigestion, no feeling like a lump of lead in the

stomach, no heartburn, Sour risings, Gas on Stomach or Belching of undigested food, Headaches, Dizziness or Sick Stomach, and, besides, what you eat will not ferment and poison your breath with nauseous odors. All these symptoms resulting from a sour, out-of-order stomach and dyspepsia are generally relieved in five minutes after taking a Little Diapiesin.

Only One "BROMO QUININE." That is LAXATIVE BROMO QUININE. Look for the signature of E. W. GROVE. Used the World over to Cure a Cold in One Day. 15c.

Go to your druggist and get a 50-cent case of Pape's Diapiesin now, and you will always go to the table with a hearty appetite, and what you eat will taste good, because your stomach and intestines will be clean and fresh, and you will know there are not going to be any more bad nights and miserable days for you. They freshen you and make you feel like life is worth living.
