

MADRAS GREET'S HILL ROAD TODAY

President Stevens, of Oregon Trunk, and Party to See Last Spike Driven.

DREAM OF 50 YEARS TRUE

Epoch-Making Event in History of Oregon Railroad Made Today When Officials Arrive in City of Madras.

MADRAS, Or., Feb. 14.—(Special)—Hill is about to win the race with Harriman into Madras, for this afternoon at 3:30 o'clock the last spike of the Oregon Trunk will be driven then. The track is laid but one mile outside of the city tonight. Madras is ready to realize a dream of years and to welcome the finest of Valentine day gifts, a railroad, an outlet and inlet to the world.

President John F. Stevens, of the Oregon Trunk Line, is speeding by special train to perform what is regarded as one of the most important events in the history of Western railroad building, in that he will be the first man to ride upon either a passenger or freight train entering the plains of Central Oregon. When he reaches the station, a host of 50 years by the people of Central Oregon will become a reality.

"My trip," said Mr. Stevens, on route, "is due to the insistence of the people of Madras, who are anxious that we be represented there. It brings to mind a number of pleasant recollections. It is only two years ago that I traveled down over the route to locate the line. Today we are going to ride by rail upon the first level road the road strikes after it emerges from that canyon of 115 miles. It is important, whether on the part of the people who are going to welcome us or on the part of the railroad men, that we have in the city the best of work completed."

Madras All Ready. Madras will turn out en masse to welcome the first train to be a program of congratulation and jubilation, conducted by the Madras Commercial Club, which has also planned a barbecue to add to the celebration. Speeches are to be made by President Halmer, of the Madras Commercial Club, and Mayor Turner, and a reply will be delivered by Mr. Stevens on behalf of the Oregon Trunk Railway Company.

The membership of the party engaged in making the trip here as guests of Mr. Stevens consist of Harry Beckwith, president of the Portland Commercial Club; C. C. Chapman, secretary of the Oregon Development League; M. M. Halmer, president of the Portland Chamber of Commerce; A. E. Cuman, general freight and passenger agent of the Oregon Trunk; J. H. Russell, general superintendent of the Spokane, Portland and Seattle; J. P. Rogers, division superintendent of the Southern Pacific; R. Ralph Budd, chief engineer of the Oregon Trunk; J. H. Baker, assistant chief engineer of the Oregon Trunk; W. C. Wilkes, assistant general freight agent of the Oregon Trunk; A. E. Buchanan, with The Overlook, and W. P. Strandberg, with the Telegram.

Harriman to Build to Bend. The Harriman line officials, who arrived here yesterday from Portland, passed today at Bend, where it was announced for the first time that the Harriman line to use the Oregon Trunk tracks until such time as the road can construct its own road, survey for which already has been practically finished.

Following the trip to Bend, the Harriman officials returned north, stopping at Redmond over tonight. At Redmond they will meet the Commercial Club being host at an enjoyable luncheon and entertainment in the main room of a smucker, the concert being not the least of the features of the programme. The people here are jubilant that the road has decided to extend its line to Bend, and they hope to let south as well as north and will mean great material benefit.

Celebration Today Greatest Ever. Preparations for the entertainment here tomorrow for the Hill and Harriman officials have been going on apace today and everything is in readiness for the greatest celebration the like of which Central Oregon has never before seen, a celebration for which the pioneer of 50 years has long been awaiting patiently.

Several of the finest beavers procurable in this part of the country have been killed for the barbecue, which will close the day of festivities. The last spike in the Oregon Trunk road is driven. It is planned to have President Stevens drive this spike.

The Commercial Club is planning a big get-together smucker in the evening following the barbecue. Invitations to which have been sent by representative committees throughout this part of the country.
