

FEDER RECALLED TO BE RECALLED

Mr. Josselyn Says Mechanism Would Crush Victim of Car Accident.

1911 BUDGET TO BE BIG

Recommendation of \$6,000,000 for Betterments and Extensions Made.

Fourth of Money Must Come From Net Earnings.

The Nelson fender, required on Portland streets by the City Council, is a death trap, E. S. Josselyn, president of the Portland Railway, Light & Power Company, said in speaking at the luncheon of the Rotary Club at Richard's Hotel yesterday noon.

Mr. Josselyn described the action of the fender, saying that upon striking an obstruction it would drop automatically, with several tons pressure. If the car were going at even moderate speed, he said, the fender would descend upon the object and make it almost impossible to remove it from under the fender or car.

Alternative Is Jail.

He said further that the Nelson fender had not yet been tried out and that it was not in any way other street cars in the United States. The regular price of the fenders, he said, was \$65, \$10 more than that of other fenders. But when his company wished to buy 200 to try the fender out, he said, the price was raised to \$75 each, with the stipulation that if the entire system is equipped with them a rebate is to be allowed.

Many Accident Cases Settled.

Fewer than 1 per cent of the accident cases ever get into court, he said. The company is settling about one case a month. He said the first thing he did was to fix the responsibility, and that in this the streetcar company endeavored to be fair. He said the most galling thing in dealing with the public was to have motives of the greatest good for the greatest number constantly impugned. In illustrating this he told of a blockade on Monday night, when the streetcar was held up by the public. He said that the passengers transfer to other cars the first cars could be turned back so as to allow the streetcar to pass. He said that passengers stubbornly refused to leave the cars, he said. He said that Mr. Calhoun's speech before the National Street Railway Association why not furnish the deal of the public service corporations with the public at large.

ALBINA ASKS FOR BRIDGE

Citizens of Lower District Say Old Promise Was Not Kept.

A campaign for another bridge across the Willamette River from Lower Albina was started Monday night at a meeting in Davis hall, on Russell street. The Lower Albina Improvement Association, whose object is to advocate the erection of this bridge, was organized. Dr. L. M. Davis declared that Lower Albina was entitled to a bridge across the Willamette River and had been asking for it for 20 years ago. "We do not intend to fight the Broadway bridge," said Dr. Davis, "but Albina is entitled to this bridge and we shall fight for it. A bridge was promised us 20 years ago."

BURNING CHURCH DEPICTED

Remarkable Photograph Presented to Portland Press Club.

Remarkable as a piece of photographic expertness and a work of art is the picture of the burning Presbyterian Church in Vancouver, Wash., which was destroyed on the evening of Sunday, January 22, presented to the Portland Press Club yesterday by James Waggoner, Jr., a Vancouver photographer. The photograph was taken while the fire was in its early stages. The interior of the church and is a wonderful example of night picture-taking and development. Printed on red paper, the hot glow of the fire, the outline of the church and the dark forms of the spectators in the foreground are strikingly shown.

The soliciting sub-committees of the Elks' 1911 Convention campaigners seem to have taken a day of yesterday. None reported to Treasurer Van Schuyver yesterday, and he could make no report of progress to the newspapers last night. "I don't know what is the matter with the boys," said Mr. Van Schuyver, "I know they have not laid down on the job. I have been assured by many of them over the telephone that they were hustling and would report soon, but the amount turned in to me today came from one individual and is not of enough significance to publish at present."

He expected that the referendum would be invoked on the public service commission bill, recently passed by the Legislature, he said. Should a public service commission be established in accordance with the bill which has been passed by representatives of the East Side push clubs, and this commission expert competent experts, President Josselyn said he was confident the Nelson fender would be tried out, he said, should the Legislature of 1911 repeal the bill passed at this session, the streetcar company would be the victim of three civic bodies, not to mention the State Railroad Commission. But for the present, Mr. Josselyn said, the company would have to invest its money in the Nelson fender or else he would have to go to jail.

That Restores and Makes Health Possible.

There are stomach specialists as well as eye and ear and other specialists. When a brother and sister, young Mrs. New Brunwick, N. J., to quit medicines and eat Grape-Nuts. She says:

"For about 12 months I suffered severely with gastritis. I was unable to retain much of anything on my stomach, and consequently was compelled to give up my occupation."

"I took quantities of medicine, and had an idea I was dieting, but I continued to suffer, and soon lost 15 pounds in weight. I was depressed in spirits and lost interest in everything."

"I found that I had been eating too much starched food which I did not digest, and that the cereals which I had tried had been too heavy. I soon proved that it is not the quantity of food that one eats, but the quality."

"In a few weeks I was able to go back to my old business of doing clerical work. I have continued to eat Grape-Nuts for both the morning and evening meal. I wake in the morning with a clear mind and feel rested. I regained my lost weight in a short time. I am well and happy again and owe it to Grape-Nuts." Name given by Postum Co., Battle Creek, Mich.
