

GIBBONS' HEAD TO WEST FOR AD

"Protection Against Outrages" Asked of Oregon's Governor.

SILETZ CONDITIONS BAD?

Charges Made That Long Series of Crimes Meet With No Opposition From Authorities Who Plead "No Jurisdiction."

SALEM, Or., Feb. 21.—(Special.)—Intimating that unless conditions improve on the Siletz they will take the law into their own hands, 18 citizens of that section have written Governor West, outlining a long series of crimes that have been committed there and alleging that the state authorities have taken scant action to protect against these atrocious outrages.

In addition, Knott Egbert, superintendent of the Indian reservation, declares that E. R. Bryson, prosecutor, who resides at Corvallis, and C. E. Hawkins, his deputy, of Toledo, have made it difficult to prosecute certain cases, and he states that in one event Bryson refused to bring a test case in the Circuit Court unless the county authorities authorized him to do so.

No Jurisdiction, Is Plea. He says that for a year or more the state prosecutors in the district have taken the stand that they have no jurisdiction over criminal matters within the Siletz reservation. Egbert states that he has written the Governor the 18 citizens because it seemed to him to be indefinite as to the responsibility of certain United States officials.

The petition to the Governor from the Siletz citizens showing the conditions which have terrified them for some time past, is as follows: We earnestly desire to call your attention to the deplorable state of affairs at present existing in that part of Oregon which they call Siletz, and which is a way by which a better state of affairs may be brought about.

For several years past we have been forced to abide in a lawless condition. In our most recent years has been openly carried on by many of the people of this section, we have repeatedly asked the authorities, both state and Federal, for their aid, but no response has been given.

After passing through Galle and Edgewood, twelve railroad policemen were at Montague preceded by the workers and will drop off their train at the various stations to prevent the men from boarding freight trains.
