

FAIR SEX NOTES

Seattle's Primary Election Is Swung by Heavy Balloting of Women.

PROMINENT MEN CHOSEN

Among Eighteen Candidates for Council to Be Voted Upon March 7. Are Those of Wealth and Position in Business.

SEATTLE, Wash., Feb. 22.—For the second time in a month the votes of women have worked a political revolution in Seattle.

In yesterday's primary election, to choose 18 candidates for Councilmen to be voted in March 7, the women voters followed up their vote of February 7, which ousted Mayor Hiram C. Gill and his appointive officers, by defeating all but three candidates who were accused of being on intimate terms with the late Gill administration.

Three May Lose. These three were nominated yesterday by so narrow a margin that it is certain that they will not be among the nine selected as Councilmen in March.

Of the 18 men nominated yesterday three are attorneys, two bankers, two real estate dealers, two professional politicians, one manufacturer, one abstractor, one contractor, one restaurateur, one railway manager, one laundryman, one furniture dealer, one meat dealer, one newspaper man.

Prominent Men Chosen.

Oliver T. Erickson, contractor; E. L. Dimes, leader of the Gill recall movement; Austin E. Griffiths, capitalist and playground advocate; Mack Wardell, who while Acting Mayor, removed Chief of Police Wappenstein; F. S. Steiner, capitalist; Robert B. Henkel, labor union leader; J. Y. C. Kellough, attorney; the great investigators; A. J. Goodard, banker; A. F. Hase, retired street railroad manager; W. H. Weaver, laundryman; T. L. Guleley, real estate dealer; F. R. Van Tuyl, retired banker; Joe Schumpert, politician; George B. Littlefield, real estate dealer; H. C. Bokke, furniture dealer; William H. Murphy, meat dealer; Joe Smith, newspaper man; late of Spokane, and Frank P. Mullen, politician.

Most of the nominees are wealthy men and some have devoted much time to the study of civic government.

It is doubtful if the low men on the ticket will undertake a campaign, if they do, there will be a big vote of women on March 7. The proportion of women voting yesterday, compared with the total registration, was larger than of men.

Returns indicate that the 18 fortunate are:

- Erickson 18,500; Weaver 15,541; Dimes 18,810; Quigley 18,830; Griffiths 18,810; Wardell 18,810; Steiner 18,810; Henkel 18,810; Kellough 18,810; Goodard 18,810; Hase 18,810; Weaver 18,810; Guleley 18,810; Van Tuyl 18,810; Schumpert 18,810; Littlefield 18,810; Bokke 18,810; Murphy 18,810; Smith 18,810; Mullen 18,810.

G. A. R. DENOUNCES HAY

Removal of Chehalis School Superintendent Is Requested.

CENTRALIA, Wash., Feb. 22.—(Special.)—Denouncing Governor Hay's attempt to investigate charges of cruelty made against the school superintendent, Aspinwall, of the State Training School, which resulted in exoneration, the veterans of the G. A. R. of Centralia have just adopted resolutions which have been sent to every post in the State of Washington.

A copy has also been sent to Governor Hay asking him to advise the superintendent. The resolutions are similar to those adopted by the Women's Relief Corps a few days ago, and which also sent throughout the state.

The resolutions protest against the admitted practices of the superintendent in administering the "paddle" punishment and declares such punishment is both cruel, brutalizing, destructive of womanly delicacy and tending to send girls forth into the world worse than when they entered the institution. The resolutions charge Governor Hay and Attorney-General Bell with neglecting their duty by helping to protect the Governor's appointee and weakening the case for the prosecution.

OLIVER BILL IS ILLEGAL

Attorney-General Passes on John Morrison Property Measure.

SALEM, Or., Feb. 22.—(Special.)—In an opinion handed down today, Attorney-General Patton has ruled on a bill providing for relinquishment of claim by the state to the John Morrison property in Union County, is unconstitutional.

Oliver's bill would make 1000 acres, which, it is said, should escheat to the state, go to the people who, he declares, are heirs of John Morrison. His objections have been filed against the bill, it being asserted that Oliver wrongfully used his position as a legislator to introduce a measure for his own benefit, which was for the purpose of furthering his own interests and the interests of his clients.

The Attorney-General holds that the Legislature has no constitutional right to relinquish a claim to the land, which should, under the law of the state, escheat to the state.

BOWSKI IS THOUGHT DEAD

Send Photographer Can't Be Found in Crater Lake Region.

FORT KLAMATH, Or., Feb. 22.—(Special.)—That B. B. Bowski, the Bend, Or. photographer, is now either buried under several feet of snow somewhere

down the precipice that drops down into Crater Lake from the rim of the crater or is in the cold waters of the lake is now the belief of the residents of this place. Mr. Bowski left here a month ago for the rim of the lake to secure some views of that great inland wonder. Not returning Saturday, Frank Burns and Albert Gibson started out to see if they could locate him, but they have returned and report the finding of Bowski's sled and shovel, but no other sign of him.

Bowski told these men that in case he did not return and a search party was sent out he would leave notes on the buildings, the rim or in the lake to give them a clue as to his future intentions. The searchers went on to these buildings, but there was nothing there to indicate that he had been there.

It is thought he got to the rim of the lake, and not realizing that the sled could be in the buildings, he believed that this snowbank was on solid ground, and that he fell through, and if he did not lodge before reaching the bottom of the snow, that he tumbled on down into Crater Lake 3000 feet, almost perpendicular into the water.

Burns and Gibson report from 25 to 30 feet of snow at the rim of the lake, where the wind has not blown it off.

LOGGERS GET TOGETHER

UNIFORM SYSTEM OF GRADING IS PLAN OF BUREAU.

Chehalis County Men Would Organize Stock Company to Handle Entire Output.

HOQUIAM, Wash., Feb. 22.—(Special.)—Loggers of Gray's Harbor are considering the organization of a Chehalis County Loggers' Bureau, the objects of which will be to establish and maintain a uniform system of grading, but above all, to handle all logs, taking the output of the camps and selling direct to the mills, maintaining the office and log land in the hands of a bureau and all sales to mills will be made through it.

The details of the organization are to be worked out yet, though experts are now engaged on the work. A meeting is to be held within a few days, though the exact date has not been decided on yet.

According to the plan, a stock company will be organized and no logger will get the benefits of the bureau unless he is a shareholder. Uniform grading will be established and the output of logs purchased. When an order is received from a mill for logs the records will be in the office will show grades and lengths of logs on hand. The central office probably will be located in Aberdeen and a competent man elected to manage it.

It is stated that the plan is not to regulate prices, but it is admitted that uniformity in grading and scaling will be a measure they are at the mercy of the loggers. Complaint has often been made by the mill operators in the past that whenever the price of lumber went up, the loggers would raise their prices. It was announced yesterday that a logging concern would be organized about March 15 per 1000 feet.

The present prices are \$9 for No. 1 logs and \$8 for No. 2. The new schedule will be \$10 for No. 1 and \$9 for No. 2. Loggers and a number of the local mill operators say the lumber situation seems to be better than it has been for several months, and they believe that it will continue to improve. They anticipate an early revival of business on account of the Panama Exposition going to San Francisco and the resultant heavy demand for lumber. It is believed that the loggers will begin to feel the effects of this demand within a short time.

The action of the loggers in advancing the price of logs, however, is viewed with some concern by the mill owners and operators because of the fact that the demand has been very light for several months.

COMMISSION BILL DIES

IDAHO SENATE SLAYS RAILROAD BOARD MEASURE, 13-5.

State Legislature Has Stirring Session When Fight Comes Up. Lobbying Blamed for Death.

BOISE, Idaho, Feb. 22.—(Special.)—Killed by vote of 13-5 today, the bill that lay in wait for, and overtook, the now famous Railroad Commission bill in the Senate today. It passed the House last night by a large majority.

Although a party plank in the Republican platform, eight Republican Senators deserted the bill on the final vote to prevent passage of the measure. They were Eckert, Haight, Lee, Harris, Page, Preston, Whitcomb and Williams.

After the postponing of the Commission measure, Senators Gooding, St. Clair, Potts, Shawhan and Yates introduced an amendment to the constitution providing for a Railroad Commission. Again the fight broke out. The enemies of Commission in any form succeeded in having the amendment sent to the corporation committee, recognized as its status for consideration.

The scenes enacted over the killing of the railroad bill will be remembered as the most stirring of the session. Minority leaders were charged with representing the corporations, but hurled back the deft simplicity with a prevent radical legislation by "Tom and George" and "Senator" Senator Potts bitterly scored the Republican plank deserters for repudiating their platform. Railroad lobbying was referred to as responsible for killing the bill.

NO CHANGE IN SITUATION

Assemblyman Ward to Act if Committee Fails to Report.

ALBANY, N. Y., Feb. 22.—If the Assemblyman and means committee fails to report a resolution providing for an investigation of reports that inducements were made to legislators to vote for William F. Sheehan for United States Senator, Assemblyman Ward said today he would move to discharge the committee from its duties on the subject.

The committee met today, but did not go into executive session. No change in the situation is expected this week.

Life Saved at Death's Door.

"I never felt so near my grave," writes W. R. Patterson of Wallingford, Tex., as when a frightful cough and lung trouble pulled me down to 100 pounds, in spite of doctor's treatment for two years. My father, mother and two sisters died of consumption, and I am glad to say that I am now Dr. King's New Discovery, which completely cured me. Now I weigh 175 pounds and have been well and strong for years. Quick, safe, sure, it's the best remedy on earth for cough, cold, croup, whooping cough, and all throat and lung troubles. 50c and \$1.00. Trial bottle free. Guaranteed by all Drugists.

STREET ROAD FUND TO PERISH

Governor Intimates That He Will Veto Highway Bill Providing \$340,000.

HELP DENIED CAMERON

West Opposes Measure Allowing Warden to Kill Birds—16 Game Bills Go—All Road Legislation May Fail Now.

STATE CAPITOL, Salem, Or., Feb. 22.—(Special.)—Governor West will veto the state-aid road bill, carrying an appropriation of \$340,000, according to a statement made by him today.

The same question that arose in connection with the bill among good roads men of Portland will direct the Governor in his course, as the bill fails to provide for the warden's supervision over expenditure of the money. "I cannot allow \$340,000 to be thrown about among the counties as though it were thrown among so many birds, with no one having supervision of the method of spending the money," said the Governor.

He has not fully decided on his attitude as to the other good roads bills and until he has passed on the bill creating a Highway Commission and the bill providing for bonding of counties, it will be impossible to give any adequate idea as to the status of road legislation in the State of Oregon.

Cameron Denied Deputies.

District Attorney Cameron, of Portland, must go without the aid of three additional deputies for two years, as Governor West tonight vetoed his stamp of disapproval on the bill.

The measure provided for three additional deputies, or six altogether for the office. Under the present law the total cost of deputy hire for Multnomah county, or the Fourth District, is \$4800, while under the new plan the total cost would be \$28,000 annually.

"Judging from the services rendered by the District Attorney's office in the Bailey case," declared the Governor tonight, "it appears to me that \$4800 should be ample in the way of salaries for the deputies to the District Attorney."

This move does not indicate that West will veto all of the salary bills, however. On the other hand, he approved bills tonight increasing the salary of the sheriff and Treasurer of Grant County and of the Treasurer of Coos County.

Bills for an increase for the Sheriff and Assessor of Marion County are in the balance. As these bills stand a subdivision of a section instead of an entire section, their constitutional validity is in question.

Two See Governor.

Lionel L. Webster, of Portland, was in conference with the Governor today in connection with the road bills, but the extent of this conference was not given out. John H. Albert, of Salem, also conferred with the Governor on good roads legislation.

Governor West felt slightly indisposed in the afternoon, and while he handled a large number of bills, he was not inclined to enter into the heavy task of deciding finally on these measures. He has until Friday in which to determine just what his attitude will be.

Inasmuch as many of the legislators, particularly in the Senate, frequently expressed the opinion that the bill placing a State Highway Commission is an unnecessary measure if the state-aid bill should be defeated, there is a possibility that the bill will be introduced in the House in the next session.

All Game Bills Dead. All game bills are being vetoed by Governor West. Today he returned without his approval 15 bills of this kind. One which explains his attitude is a bill accompanying messages on the other bills referring to his veto of Senate bill 281, introduced by Berryman and providing for the protection of trees, orchards or property.

The Governor takes the position that the bill creating a State Board of Fish and Game Commissioners is sufficient game legislation for one session to pass and consequently it is probable that all pieces of game legislation will be killed by him. The list of game bills vetoed today includes one Rogue River fishing bill, which refers to the commercial sale of game fish on that river, but does not include the Petree bill, which would repeal the law passed by the people at the last election.

Law Not Necessary.

In his message attached to Senate bill 281 the Governor says: "I have no approval. This is a bill which gives to the State Game and Forestry Warden authority to grant permission to take or kill animals or birds protected by law, when in his judgment such action might be necessary for growing crops or other interests. Because of the fact that the measure would seem to be unnecessary, I have no approval."

Those desecrated with these statutes, who might be able to convince the Game Warden that their crops were in danger, I have no objection to make. But it seems unnecessary and unwise at this time to litter the statute books with such legislation. Two years ago at the session of 1909 much time and labor were consumed in enacting laws which these laws are now in force and if observed will, in the main, work well.

By the provisions of House bill 140, just enacted, a State Fish and Game Commission is provided for. This Commission is to see that the fish and game laws are enforced and is given ample power in that direction. But more than that, it becomes the duty of the Commission to see that existing fish and game laws are carefully revised and re-drafted them and recommended to the Legislature. Because of the fact that the laws of 1911 should be revised by the session laws of 1911 should be revised by amendments to the fish and game laws, when these amendments are made, they will be amended or re-drafted in 1912. I therefore return Senate bill 281 with my veto.

Many Others Vetoed.

Following are the other game bills vetoed by the Governor: S. B. 24, by McCulloch—Protecting wild ducks in Eastern Oregon. S. B. 25, by Berryman—For the protection of game birds. S. B. 26, by Chase—For protection of game birds in certain counties. S. B. 27, by Chase—For protection of wild ducks in certain counties. S. B. 28, by Chase—Regulating fishing on Willamette River. S. B. 29, by Beale—To permit fishing in certain waters in Tillamook County. S. B. 30, by Chamberlain—Relating to duck shooting from a skiff. S. B. 31, by Pettis—Relating to duck shooting. S. B. 32, by Thompson—Relating to duck shooting. S. B. 33, by Church—Regulating game shooting in Union and Willows Counties. S. B. 34, by Mahoney—Relating to sale of game.

How to Stop Pimples

In Five Days You Can Get Rid of All Skin Eruptions by the New Calcium Sulphide Wafers.

Don't go around with a pimply face day after day. And other people get awfully tired, too, seeing them go around with faces full of disgusting pimples.

If you are one of the unfortunate who can't get away from your pimples, and you have tried almost everything under heaven to get rid of them, take a few of Stuart's Calcium Wafers every day. Do that steadily for a few days, and in less than a week look at your self in the mirror.

You will then say that Stuart's Calcium Wafers are a wonder in getting rid of eruptions.

These wonderful little wafers contain the most effective blood purifier ever discovered, calcium sulphide. No packages no guaranty, no trouble, no matter what pimples, blotches, blackheads, rash, tetter, eczema or scabby crusts, you can solemnly depend upon Stuart's Calcium Wafers to cure you.

Stuart's Calcium Wafers have cured boils in three days and the worst cases of skin diseases in a week. Every kind of skin impurity is cured. Calcium of your system completely, never to return, and it is done without deranging your system in the slightest.

By George's never saw anything like it. There I've been for three years trying to get rid of pimples and blackheads, and guess I used everything under heaven to get rid of them. Stuart's Calcium Wafers for just seven days. This morning every blessed pimple is gone and I can't find a blackhead. I could not express my thanks. I am so grateful to you."

Just send us your name and address in full today, and we will send you a trial package of Stuart's Calcium Wafers, free to test. After you have tried the sample and been convinced that all we say is true, you will go to the nearest drug store and get a 50c box and be cured of your facial trouble. They are in tablet form and no trouble whatever to take. You go about your work as usual and there you are—cured and happy.

FISH CONCEALS OPIUM

SMUGGLING PLOT REVEALED BY BROKEN PACKAGE. Detectives, Mingling With "Seeling Chinatown" Party, Make Raid and Seize Contraband.

LOS ANGELES, Feb. 22.—(Special.)—Federal officers today discovered a secretly concealed plot for smuggling opium, when a box from Oceanside, supposed to contain fish and consigned to the Yee Sing Company, Chinatown, was found in transit. A small aperture in the bottom disclosed contraband and F. E. Johnson, special agent of the Treasury Department, and Chief Deputy United States Marshal Sittel determined to catch the dealers.

The express company was directed to deliver the package and Johnson and Sittel went to Chinatown to await its arrival. Both are well known to the Chinese. A few minutes before the express wagon drove up Johnson engaged a large party of tourists in conversation and showed them the sights, so managing that they were at the Yee Sing Company store when delivery was made, the officers well concealed among them.

At the right moment Johnson and Sittel jumped into the plate and found Tom Yee, Jon Wong and Quan Wong opening the box. All were arrested. There were a layer of clams, a layer of fish and 12 boxes of opium in the consignment. Hundreds of similar packages have

ALBANY ORATORS CHOSEN

College Picks Speakers for Eugene Oratorical Contest.

ALBANY, Or., Feb. 22.—(Special.)—Delegates to represent Albany College at the meeting of the State Intercollegiate Oratorical Association at Eugene early in March were chosen last evening by the various classes of the college.

Those selected are: Seniors, Fannie Chase and Winifred Hood; Juniors, Lucille Hart and Kate Stewart; sophomores, Kenneth MacLennan and Lena Heinrichs; freshmen, Ruth Smith and Amy Olmstead.

Miss Smith has been chosen to respond to Albany's toast at the banquet, following the contest. Arthur Hodge, secretary of the state association, and Grover Britcher, who will represent Albany in the oratorical contest, will accompany the Albany College delegation.

QUALITY

It is not the quantity but the inherent quality of SCOTT'S EMULSION that enables it to perform its mission. It is the one remedy universally known and used because of its ability to quickly restore lost strength, increase weight, and vitalize the nerve centers.

There is vitality in every drop of Scott's Emulsion. ALL DRUGGISTS

Inflammation of the Kidneys and Bladder

Permanently Cured 25 Years Ago—Patient Still Strong and Well—Dropsical Complication After Typhoid Fever Driven Out of the System by Warner's Safe Cure After All Other Remedies Had Failed.

Dear Reader—Let me ask you, do you seriously appreciate what this means and what a wonderful medicine this must be to act like magic in cases that the doctors have given up and cases where the patients had had kidney troubles so serious that they became discouraged about their restoration to health?

Kidney disease is becoming more prominent in one form or another on account of the careless mode of living. If the kidneys become diseased and after any of these gets a hold on the system it is hard to purge the system of the evil.

The experiences of Mrs
