

EXECUTIVE AWAY; SELLING GOVERNOR

Oregon Officials Inspect Penitentiary Asylum Site and Leave State.

TEST PITS SATISFACTORY

West, Kay and Steiner Find Verdict of Legislative Investigating Committee to Be O. K.—Other Tracts to Be Purchased.

PENDELTON, Or., Feb. 27.—(Special.)—Ben Steiner, as President of the Senate, left for Oregon tonight and will be until about 3 o'clock tomorrow morning, when Governor West, who is now in Washington, will again be on Oregon soil.

Governor West, State Treasurer Kay and Superintendent Steiner, of the Inmate Asylum at Salem, arrived in Pendleton today. They inspected the final selection of a building site for the Eastern Oregon branch asylum. This task completed, they were ready to return to Salem, but as all trains from the East are tied up on account of the storm, they were compelled to go to Walla Walla tonight and will take the Spokane train from there to Portland.

While here the State Board definitely decided to accept the verdict of the legislative investigating committee, and will locate the buildings on the bottom land of the Oliver-Carpenter tract, purchased by the old State Board for asylum purposes.

Other Tracts Purchased. Two small tracts containing 16 acres and adjoining the site owned by the state were also purchased and one other will be secured by the state possession of all the bottom land in the bend of the Umatilla River in which the asylum is to be located.

The test pits had been dug during the past few days under the direction of Engineer Murphy, made a satisfactory showing for foundation and no other possible location was investigated.

It was announced by the Board that the main buildings of the asylum would be erected in a sort of a crescent and will consist of a main building, a kitchen and laundry with the amusement hall on the second floor. It is believed that this arrangement will give a maximum of light and ventilation with a minimum of inconvenience.

All of the buildings will be connected by a basement and subways.

The work of extending the city water mains to the building site, a distance of 4000 feet, will be taken up on Monday by Engineer John Stevens, of the Corvallis & Eastern Railway, and hereinafter a few days to make investigations and recommendations concerning such levee work as needs to be done.

SEATTLE'S SALOONS HIT

Councilman Would Provide Daylight Schedule for Dispensaries.

SEATTLE, Wash., Feb. 27.—(Special.)—Councilman J. E. Denney, who has represented the Ninth Ward in the City Council for just one year, introduced a bill tonight providing for a daylight schedule for all saloons or any place where intoxicating liquor is sold. Denney was defeated at the primary election last Tuesday.

The introduction of the bill is interpreted as a scheme on the part of the Councilman who were defeated for re-nomination at the primaries, to make life interesting for the nine members who are running for re-election. The bill provides that it shall be unlawful to keep saloons or to give away, or dispose of intoxicating liquors between 8 o'clock in the evening and 8 o'clock in the morning.

MARSHAL'S "BILLY" KILLS

Gartbaldt Man Fights Arrest and Is Killed by Tillamook Official.

TILLAMOOK, Or., Feb. 27.—(Special.)—Tom Johnson, a fisherman of Gartbaldt, died here today as a result of being hit over the head by City Marshal Redding's "Billy." Johnson was drunk in Stevens' saloon and was turned out of that place and went to the office of Mayor Talmage, who sent for the City Marshal.

The petition asks that the suit brought by the Astoria Savings Bank be dismissed and recites that the holders of more than 60 per cent of the bonds have signed a petition requesting a dismissal of the action. Continuing, the petition asks that all the property of the defunct company, which is now in the hands of a receiver appointed by the Circuit Court, be turned over to the bankruptcy trustee, as the petition asserts the affairs of the company can be handled much more cheaply by a trustee than by a receiver.

The trustee, the petition says, can be given a deed to the property without the right of redemption, whereas, if the property is sold by foreclosure proceedings, as the petition asks, the trustee is thus in a position to secure a much better

WOMEN'S 8-HOUR MEASURE PASSES

Washington House Approves Bill, 64 to 27, After Short Debate.

LIQUOR QUESTION FOUGHT

Paulhaus Would Read Act Aimed at "Blind Pigs," Piper Objects and "Dry's" Win—Senate Votes for Appropriations.

OLYMPIA, Wash., Feb. 27.—(Special.)—While the House was engaged in thrashing out the eight-hour bill for women and passing the measure and extracting some of the radical features from the teachers' retiring-fund bill, the Senate took up the entire day in going over the appropriation bill passed by the House last week. The House passed the eight-hour law after little discussion, the vote being 64 to 27, and the Senate tonight passed the appropriation bill.

Senator Piper objected to the introduction of the bill, declaring that the liquor question had been settled once and for all at this session and that it was unnecessary to bring it up again. "It looks like you fellows are hard-boiled," said Senator Piper. "I see no necessity of injecting this question into our proceedings this session. The House settled that matter last week for us. Of course, you can cram anything down this Senate you want to be sure you have."

Senator Nichols, of King, insisted upon the reading of the bill. He said that the Senate had a right to know what the provisions of the measure were before consent was granted to its being introduced, inasmuch as the understanding was that no more new bills were to be brought before the Senate. Senator Faxon was in the chair and ruled Nichols out of order. Nichols refused to withdraw, demanding repeatedly a reading of the bill until the speaker instructed the sergeant-at-arms to restore order. A two-thirds vote of the Senate permitted the introduction of the bill and the incident closed.

SPokane Firemen Hurt

TRUCK AND HOSE CART COLLIDE NEAR DAVENPORT'S.

Answering Fire Call Fatal to Horse Long in Service; Men Escaped With Injuries.

SPokane, Wash., Feb. 27.—(Special.)—Driver George Morrison sustained a broken arm and internal injuries, several firemen were injured, one horse killed and a hose cart No. 4 badly damaged as the result of a collision of the big truck from Station No. 1 and hose cart No. 4 at the corner of Sprague avenue and Post street this afternoon, while the luncheon crowd was leaving Davenport's restaurant across the way.

The crash of the two big wagons, intermingled with shouts of warning, could be heard for several blocks. Firemen were picked up from the pavement, half stunned, and two men were dragged from under the wheels of the big truck.

Several firemen on each wagon foresaw the approaching collision and jumped. The hose cart, No. 4, was impaled to swing his wagon into "clear," but the heavy truck crashed into the wagon. Morrison was thrown heavily to the ground, sustaining a broken leg. Tom Reed and Captain Joe Yingst were thrown to the pavement, but were uninjured.

"Jerry," a valuable fire horse, of five years service, was killed. Two legs were broken and he was later shot in the head. The tongue of the wagon was shattered and driven into the body of the horse.

ROADS ARE IMAGINARY

TRIAL OF SEATTLE MILLIONAIRE WAXES WARMER.

Negotiations for Much-Advertised Railways to Hillman's Property Got No Further Than Talk.

SEATTLE, Wash., Feb. 27.—In the trial today of Millionaire Clarence D. Hillman, accused of using the mails to defraud, Fred D. Sander, a promoter and builder of the Seattle-Tacoma and Seattle-Everett Interurban railroads, was called as a witness by the defense to show that Hillman had negotiated with him for the construction of a trolley line from Boston Harbor to Olympia and a line from Birmingham to Everett.

On cross-examination Sander said the negotiations went no farther than conversation. The prosecution alleges that Hillman's railroads which he advertised as being under way, were entirely imaginary. William Kouhn, a manufacturer of Snohomish, said that Hillman negotiated with him to start a furniture factory in Everett. Hillman had negotiated with him for the construction of a trolley line from Boston Harbor to Olympia and a line from Birmingham to Everett.

Ernest S. Baton, Hillman's manager at Birmingham, told of the improvements that had been made on the townsite, and said that Hillman had spent \$20,000 developing the property.

O. O. Rowland, manager of the Boston Harbor property, was put on the stand to describe the extent of the improvements there and the plans for future development. He had not completed his testimony when court adjourned for the day.

Hillman's trial will be put on the stand in his own defense tomorrow as soon as Rowland concludes his testimony. E. D. Kirk and M. J. Webb, the detectives employed by Clarence D. Hillman, and who were found guilty of contempt of court for alleged tampering with jurors called by Hillman, were obliged to pay their own bills in the appeal from the decision of Judge George Donworth.

SACK BILL, LOST, IS VOID

Sinott's Tare Measure Is Found Too Late to Be Saved.

SALEM, Or., Feb. 27.—(Special.)—Much speculation is being indulged in here as to the reason for the disappearance of Sinott's Senate bill regulating tare or deduction of sacks. The bill was introduced, read and passed by the Speaker, but not by the President. Then, in some strange manner, it disappeared, but as strangely it appeared again today.

It was not received in the Governor's office and consequently cannot become a law. The subject-matter of the bill is: "Whenever wheat, rye, Indian corn, oats, barley, clover hay, alfalfa, timothy, dried peaches, potatoes or peas shall be sold and no special agreement shall be made by the parties to the sale as to what tare or deduction shall be made for the weight of the sacks containing the above products, no deduction shall be made therefor."

The calendar shows that it had passed both houses and was signed by the Governor. The engrossed bill is in existence. The bill is one which affects commission men to quite an extent.

WAGE REDUCTION FEARED

When the eight-hour bill was taken up in the House, Sims of Jefferson opened the debate against the measure. He said the effect would be to the disadvantage of women by causing a reduction in their wages. He contended that on the same day that women, employers naturally would cut wages in proportion.

The principal speech in support of the measure was made by Tom of Whitman. He said that benefits union labor redounded more to the advantage of men than to women. His contention was that organized labor demanded short hours for men but that the women, being disorganized, had more need for the protection of the state. He said that a cut in wages would result.

The teachers' retiring-fund bill had hard sledding in the House. The largest result of the fight against the measure was the adoption of an amendment offered by Dickson of Kittitas, cutting the amount to be transferred into the common school fund for this special purpose squarely in half. The original bill as offered by McQuestion of Pierce provided that 2 per cent of the common school fund should be turned over for the purpose of paying annuities to public school teachers who had served 30 years in school work. The Dickson amendment, which was adopted by a vote of 35 to 39, allows but 1 per cent to be transferred for this purpose.

FLAW IN VETERANS' BILL

Measure Having No Emergency Clause, Warriors Must Wait.

SALEM, Or., Feb. 27.—(Special.)—Delegated by Indiana War Veterans and others who wished to collect their claims as allowed by the Legislature in a deficiency bill to provide for the payment of certain disabled war veterans (items, the Secretary of State made the discovery today that the bill passed without an emergency clause. As a result the next Legislature will be called upon to appropriate several hundreds of dollars more to make up for interest which will accrue on the various claims in the next 30 days.

The total amount of the bill is \$42,500 and the greater number of the items have accruing interest which will continue until the bill becomes a law. It thus carries an emergency clause, but was threatened with an early death in the Legislature because of this and the emergency clause was stricken from the measure.

BAKER DELAY URGED

Shakeup in Rates Predicted After Western Decision.

HEARING TO BE MARCH 20

J. N. Teal Advises State Railway Board to Wait Until Interstate Commerce Ruling Is Made Before Deciding Case.

SALEM, Or., Feb. 27.—(Special.)—Great masses of documentary evidence were laid before the State Railroad Commission today in the final hearing of the Baker rate case, in which that city is endeavoring to secure distributive rates within a zone of 150 miles of the city.

Arthur C. Spencer, attorney for the O. W. R. & N.; F. W. Robinson, general freight agent; M. J. Buckley, general superintendent, and Ed McKinley, his secretary, represented the road, while J. N. Teal and T. Van Heekeren appeared for the Portland Chamber of Commerce as intervenor. T. H. McCune appeared for the Baker Commercial Club.

It is the wish of Baker to be placed on the same footing as Portland as far as freight rates are concerned on commodities into Baker from Portland and on commodities out of Baker for a radius of 150 miles, distributive rates being desired for the latter and commodity rates for the former.

The assertion was made by J. N. Teal in the course of the hearing that after the Interstate Commerce Commission hands down its decision relative to freight rates west of the Rocky Mountains there will be a rate change almost revolutionary in its nature all over the Coast and he believes that the Commission should base its findings to a certain extent on the rates which will come some time in the Summer, he believes. These cases will be argued before the Interstate Commerce Commission March 20, there being eight of the cases, including the Portland case, to be heard. Testimony is still to be heard in the Grants Pass and Medford cases, but these are practically identical with the Baker case and as a result not much time will be consumed.

DOCTORS ADVISED OPERATION DECIDED TO TRY GREAT KIDNEY REMEDY

I want to tell you in a few words what Dr. Kilmer's Swamp-Root did for me, believing that my testimony may do some other suffering person a great deal of good.

About six years ago I was dangerously ill, consulted three doctors, all of whom said I had kidney trouble. One of the doctors analyzed my urine and reported that I had gravel, and further said that in order to regain my health and life, an operation would be necessary. I did not want to be operated on as I was afraid that I would not recover. Someone told me of Dr. Kilmer's Swamp-Root and said it was really a medicine for kidney trouble, so I decided to try it and sent to Mr. Rose, the druggist, at 303 Central Ave., Minneapolis, and bought a bottle. I took it, noticed results and continued taking it until I was entirely cured.

Having been free from any kidney trouble for over six years, I consider that I am absolutely cured, and know that Dr. Kilmer's Swamp-Root has the credit.

I never fail to tell my friends about your remedy, as I believe it is the best of its kind. Your U & O Ointment is also very good. We are never without a jar in our house.

Yours very truly,
MRS. MARGARET E. ANDERSON,
Minneapolis, Minn.

State of Minnesota, Is. County of Hennepin, I, I believe it is the best of its kind. Your U & O Ointment is also very good. We are never without a jar in our house.

Personally appeared before me this 23rd day of Sept., 1909, Mrs. Margaret E. Anderson of the City of Minneapolis of the State of Minnesota, who subscribed the above, and on oath says that the same is true in substance and in fact.

M. M. KERRIDGE,

One Million Dollars for a Good Stomach

This Offer Should Be a Warning to Every Man and Woman.

The newspapers and medical journals have had much to say relative to a famous millionaire's offer of a million dollars for a new cure for dyspepsia. This great multi-millionaire was too busy to worry about the condition of his stomach. He allowed his dyspepsia to run its course for a few years until in the end it became incurable. His misfortune should serve as a warning to others. Everyone who suffers with dyspepsia for a few years until it gives everything he owns for a new stomach. Dyspepsia is caused by an abnormal state of the gastric juices. There is one element missing—Pepsin. The absence of this destroys the function of the gastric fluids. They lose their power to digest food.

We are now able to supply the pepsin in a form almost identical to that naturally created by the system when in normal health, so that it restores to the gastric juices their digestive power, and thus makes the stomach strong and well.

We want everyone troubled with indigestion and dyspepsia to come to our store and obtain a box of Rexall Dyspepsia Tablets. They contain Bismuth Subnitrate and Pepsin prepared by a process which develops their great power to overcome digestive disturbances.

Rexall Dyspepsia Tablets are very pleasant to take. They soothe the irritable, weak stomach, strengthen and invigorate each digestive organ, relieve nausea and indigestion, promote nutrition and bring about a feeling of comfort.

You can get Rexall Dyspepsia Tablets a reasonable trial we will return your money if you are not satisfied with the result. Three sizes, 25 cents, 50 cents and \$1.00. Rexall Dyspepsia Tablets.
