In this controversy Representative Lafferty has taken a prominent part, acting as atternsy for the settlers and carrying on the legal end of their fight in the face of the greatest discouragements.

The first settlers took up claims in their citizens in their efforts to build up the communities," is the opinion of Richard W. Lawrence, vice-president and the Siletz district about 1902. Some were ready, through commutation, to present final proof in 1802 and 1804 but the Government delayed the hearings till 1903. The Land Office then ruled that, because the land was immensely rich in timber, the seitlers had not entered upon their claims with bona fide homestead intent and took the position that it was the intention to sell the claims as soon as patents were secured.

Many, discouraged by this ruling, ahandened their contests, but others elubbed together and prosecuted several appeals, only to be beaten again and again Learston with the series which was the series of the business of promoting the welfare and the development of your learners which was the series of the business of promoting the welfare and the development of your learners.
