"We might appropriate \$7 for chloroform for Raiph Duniway." said Councliman Baker yesterday when the Council ways and means committee was considering how it might provide a means
of taking up about \$30,000 worth of
street assessment bonds that have been
outstanding for a long time. The remark
of Mr. Baker was brought forth by a
statement of City Atterney Grant, who
said he felt that it would benefit the
city's credit if the old assessments were
canceled. It has been said in official
circles that Attorney Duniway's action
against Broadway bridge bonds had injured the city's standing in the East,
and it was to this that Mr. Baker referred.

Most cadets of the Hill Military Academy were placed on the roll of henor for the first term, which means that they have obtained for the four months and the quarterly and mid-year examinations an average of nat less than 20 per cent in their studies, and per cant in deportment.

The salaries of the Assistant Fire Chief and of the three Battalion Chiefs in the fire department were increased \$25 each. The assistant now receiving \$175 will receive \$200 and the others are increased from \$150 to \$175.

Councilman Rushlight criticised the crematory, saying he felt the city was paying for too much building and too little incinerator. The Mayor said there might be some force in the criticism, but he felt that the company should be given full opportunity to demonstrate whether the plant is a first-class one.

"I would prefer," said the Mayor, "to give the builders every chance to make good, rather than to discourage them."
