Early Returns at Municipal Election Indicate Vindication of New Regime-City Ownership of Street Railways Approved.

SEATTLE, March 7 .- (Special.) --Scattering returns indicate the election of Joe Smith, a newspaper reporter, formerly of Spokane, as a member of the City Council. The bitter fight made against him by public rvice corporations was the feature of the election.

William H. Murphy, Frank P. Mullen and Joe Schlumpt, members of the present Council, and who were oppresent Council, and who were op-posed because of their alleged friend-liness with the Gill administration, were overwhelmingly defeated.

The proposition to bend the city for

\$500,000 to build a municipally-owned street railroad was approved two to

Fairley and Rev. W. J. Hindley Lend in Votes for 93 Candidates.

SPOKANE, Wash, March 7 .- (Spe cial.)-Returns of first choice votes from 57 precincts made the election of Robert Fairley certain for one of the five City Commissioners in the election today. Ninety-two candidates ran. Rev. W. J. Hindley is running next to Fairley, with every indication of elec-tion. Close to him come Charles M. Passett, who seems practically certain to be a third Commissioner.

Robert Fairley, City Controller, has an unbeatable lead with a total of 5261 votes. Next in order follows Rev. W. J. Hindley, 2973; C. M. Fassett, president of the Chamber of Commerce, 2623; D. C. Cotes, ex-Lieutenant-Governor of Colorado, 2602; Nelson W. Durham ex-editor of the Snokesman Reham, ex-editor of the Spokesman Re-view, 1947; Michael J. Luby, 1872; S. A. Anderson, banker, 1857; Z. The proponents of the bill declared that statistics of states where capital punishment has been abloshed showed that crime has decreased and definite proof is given by these statistics that the death penalty is

not a Celerrent.

The opponents declared that the opposition to capital punishment is based entirely on sentiment, and that California presents an unusually difficult problem in its varied and shifting population.

Assemblyman Cattell, in speaking for his measure, declared that no rich man is ever hanged, and that only the poor pay the penalty for their misdeeds with their life. The vote was taken after the bill had been returned to the House from the judiciary committee with an adverse recommendation.

The Premier's remarks were re-ceived with approving demonstrations. Describing his ideal of the relation-ship between the United States and Canada, Sir Wilfrid said:

canada, Sir Wilfrid said:

"There perhaps may be a spectacle of two peoples living side by side, separated only by an invisible line, with not a gun frowning across it, not a fortress on either side, with no armament one against the other, but living in harmony, in mutual confidence and with no other rivalry than a generous emulation in commerce and arts of peace.

"To the Canadian people I would say that if it is possible for us to obtain such relations between these two young and growing nations, Canada will have rendered to old England, the mother of Nations—nay, to the whote British empire—a service unequaled in its present effect and still more in its far-reaching consequences.

its present effect and still more in its far-reaching consequences.

"I think I can venture the assertion that the policy involved in the agreement has met with the enthusiastic approbation of the majority of the Canadian people. I am perfectly aware that the policy has not been universally accepted and has met in some quarters rather stubborn opposition.

"We are above all an agricultural people. Our object today is to open the door to American markets; and shall we be told that, because such an arrangement is to go into effect and

canadian vegetables, cereals and fruits can be eaten free of duty by the American people, it will be all over with the Canadian federation and even the British empire will reel upon its foundation?"

Sir Wilfrid denied the agreement would divert Canadian trade to Amer-ican channels.

BOARD IS PREPARING FOR BRANCH WORK.

Contractors to Supervise Laying of Pipelines, but Convict Labor May Be 'Used to Grade.

SALEM, Or., March 7 .- (Special.)-Tentative plans of the State Board to use convict labor in constructing the main water pipelines from Pendleton to the new Eastern Oregon Branch Insane Asy lum have been supplanted by advertisement for contract bids just issued by the Board for private contractors to take charge of this work. The blds are to be opened March 20, showing that it is the intention of the Board to rush the work as fast as possible, that an early start may be made on the buildings and

grounds. Governor West said that there is possibility of convict labor being used in connection with portions of the im-provement work at the new hospital, but the Board has reached no definite decision in this respect. If convicts are requisitioned for the work by the Governor it will be for grading and general improvement of the grounds and will probably not be until after the buildings are well along toward completion.

The Board has now secured three of the four tracts of additional land, or will secure the third tract in a few days. The third tract in question is known as the Myers tract and includes 28 acres necessary for dyking purposes, but at the same cision in this respect. If convicts are

Myers tract and includes 28 acres necessary for dyking purposes, but at the same time contains land available for gardén and farming purposes. The Board will pay \$500 for the land.

The Hendricks tract of 10 acres is still unsecured. The owner holds it at \$450 an acre and the State Board declares this is too much. Either condemnation proceedings or a compromise must ensue. The Roberts tract of 54 acres, for which an outlon was secured by the old Board, an option was secured by the old Board, has been purchased. This lies along the Umatilia River and controls water power rights. On another tract of five acres

are some orchards and improvements. This was secured for \$2500 under an op-tion from the old Board. Engineer Stevens, of the Corvallis & Eastern, has submitted his report to the Board and recommends a reinforced con-crete dyke. This is for the protection crete dyke. This is for the protection of the buildings and the bottom lands in the bend. At present there is a wooden dyke, propped by piling, but this is insecure and is not of sufficient length to suit the needs of the state. The Board estimates that the proposed concrete dyke will cost \$10,000.
