THE rising of the first curtain shows the interior of Benoni Hill's grocery store, where the scrimmaging between Q. A. Sawyer, city chap, and Bob Wood, town bully, decides that the man with the Presidential name may stay in the village past.

Last Week At Insurance Adjusters' Valuations Last Week

Since the fire we have sold hundreds of Desks, Chairs, Office Tables and Filing Devices, and we have brought down from the upper floors the balance of the stock and during this week will close out the whole line. Astonishingly low prices.

This is a splendid opportunity to lay in a year's supply of Vertical Folders, Guides and Transfer Cases. Over half a million folders in stock—hardly perceptible damage. This chance will not occur again. Many lines of Office Stationery at ridiculously low prices. We had the largest and finest stock of high-grade goods, and, in many instances, the fire and water damage being slight, this opportunity to save money in Office Supplies will not occur again.

MORMON FAITH UPHELD

ELDER BALLARD REPLIES TO ATTACKS ON CHURCH. Politics and Religion Divorced, He Declares, While Reports of Polygamy Are Denied.

In his address last night at the Church of the Latter Day Saints, East Tenth and East Sherman streets, Elder M. B. Ballard, president of the Northwest States Mission and leader of this branch of the Mormon Church, repudiated the critics of the church and declared that the church had abandoned plural marriages. He contended that while the Mormons are caring for their wives and children, the result of the old system of polygamy had been restored, but that this was the right thing to do.

The Mormon Church has received special attention in a number of leading magazines of late chiefly in an unfriendly spirit. Charges are made that it is reviving the practice of polygamy, is still dominating its members in politics, and is dealing extensively in commercialism. They are all alarmed at the remarkable growth of the church and think that this is undesirable.

The Mormon Church has assisted tens of thousands of poor families to immigrate and it did secure large tracts of land at very low figures and parcelled these out to such families, at the same rate per acre that the lands cost, with long-time payments. This was not good real estate business, but it was a good colonization work. It co-operated with these men and assisted them in building their homes which made their life fruitful. It built sugar factories and made a new output for the farmer. When he wanted to buy his supplies he purchased these in large quantities, brought them in cheaply and reduced the price on all goods. Ninety per cent of the Mormon communities own their own homes.

It is true that in early days our colonies had their church and state matters closely allied, but for years past there has been a division of lines and the people are free to choose their own political faith. The animus which has inspired these hostile magazine articles, and the little coterie of disappointed politicians, who could not save themselves from the leaders of the Mormon movement, is a political one. Their failure to do this called for the bitter attacks of ex-Senator Kern and the Mormon people in general.

Have there been any marriages since the manifesto? The church declared itself opposed to any marriage in violation of the law of the land. It is the duty of every member of the church to obey the law. The church sought to perpetuate this system, though it was without the knowledge, or the sanction of the church, and wherever these cases are proven, the church is taking extreme measures and is expelling and expelling the parties violating this law. What more can the church do?

The church has held the president of the church and some of his associates are still caring for their people without the knowledge, or the sanction of the church, and wherever these cases are proven, the church is taking extreme measures and is expelling and expelling the parties violating this law. What more can the church do?

Members of the Good Roads Association as well as taxpayers in every county who are disappointed when the road bills received the disapproval of Governor West. Extensive plans had been formulated in a number of the counties to take advantage of the provisions of the different measures, including the annual allowance by the state of \$5000 to every county which established an equal amount for road-building.

DECISION AIDS ROADS

COUNTIES MAY INCUR DEBTS TO BUILD ROADS. Attorney-General Crawford's Contention Pleases in Light of Veto of Highway Bills.

The announcement by Attorney-General Crawford that counties may incur indebtedness in the construction of permanent roads will prove welcome news to a number of counties which have been desirous of learning their rights in the premises. This is particularly true in view of the action of Governor West in vetoing the highway bill and other measures urged by the Good Roads Association and passed by the recent Legislature.

Lawyers are not agreed as to the powers of County Courts in contracting indebtedness for building roads. Some have contended that legislative enactment is necessary before counties may assume this character of obligation. Others have taken the position that, under the constitution, counties may make such expenditures without specific authority from the Legislature. At any rate, the ruling of the Attorney-General in response to the request of the County Court of Hood River County, will be accepted as final.

Extensive plans had been formulated in a number of the counties to take advantage of the provisions of the different measures, including the annual allowance by the state of \$5000 to every county which established an equal amount for road-building.

In event a special session of the Legislature is convened an effort undoubtedly will be made by Good Roads enthusiasts to pass the Good Roads bill over Governor West's veto. Demand for this legislation has increased greatly since adjournment of the Legislature and much of the opposition to the bill which was apparent in the session has disappeared. In the meantime, however, the Good Roads Association is not counting on an extraordinary session of the Legislature. It is planning to effect a state-wide organization and through cooperation with the County Courts conduct an extensive campaign of road building.

LOUIS TRUMMER ACCUSED OF ILLEGAL LIQUOR SELLING. Patrolman Learns That Open Saloon is Sound of Silver Rapping on Glass.

Jingle of silver is the open sesame to the door of the saloon of Louis Trummer, 222 Washington street, at any hour when drink shops are supposed to be closed, says Patrolman Rupert, who arrested Trummer early yesterday morning on a charge of keeping his saloon open after hours.

Seeing a bottle of beer passed out of the door, Rupert stepped up to the saloon and rapped, but received no answer. Three pedestrians passing by, stopped and watched his efforts for a moment and then one of them said: "I see you don't know the password."

Rupert acknowledged ignorance and his informant said: "Tap on the window with a coin three times and see what happens."

The officer did as directed and the door swung open. He found Earl Ward standing at the bar and the attendant behind it, and made the arrest.

POLICE GOIN NEW WORD

NEGRESS IS BOOKED AS "HIGHWAYWOMAN." Grace White Identified by Robber Victim as One of Two Who Pointed Pistol.

Being a "highwaywoman" is the charge placed by Detectives Carpenter and Price against Grace White, a negress they arrested early yesterday morning in her room at Thirteenth and Gliman streets. They allege that she was who, about two weeks ago, held up W. Schachner at the point of a revolver, and robbed him of \$120.

Schachner reported to the police that he had been stopped on a dark street by two negresses, one of whom held a revolver in his face and picked his pockets. The other did not take part in the robbery, he says. The woman, he said, was powdered thickly.

At least a score of men have been robbed in dark streets and alleys in the last year by negresses, heavily powdered, but it is not believed that all the crimes were committed by one person.

GHST COMES TO LIFE

JESSE WADDELL, ONCE NOTED CHARACTER, IN CELL. Sign-Writer and Tenor, Second Best in Combat With Whiskey, Not Dead as Supposed.

Like one risen from the dead, Jesse Waddell, an aged derelict, once the most expert sign-writer in Portland and a tenor singer of note, appeared before the eyes of Patrolman Larfeld and Crewson, near the foot of the Madison bridge, early yesterday morning.

Brushing aside their first thought that they had seen a ghost, the officers placed Waddell under arrest, on a charge of being drunk. Impression had spread among police officers that Waddell, whom all of them knew, was dead. He fell down a flight of stairs on Yamhill street six months ago and was taken to the hospital in a precarious condition. He was discharged as cured after a long siege and soon afterward was taken to the police station in the patrol wagon, apparently dying. In the near death did he seem that the wagon was ordered to proceed at a gallop to the hospital, attended the meeting of the night and upon that he was dismissed from the minds of all.
