Mr. John Wesly, of New Orleans Finds Permanent Relief From His Kidney Trouble In

Warner's Safe Cure

There's no enap-judgment in Mr. Wesiy's commendation of the great kidney cure. He gave it a thorough and convincing trial before writing the following letter:

"I have been using Warner's Safe Cure and have found it very satisfactory. I would have written before now, but I wanted to wait to see its effect. You may use my name, as Warner's Safe Cure has cured me of my kidney trouble and is all that you recommended it to be.—JOHN WESLY, \$501 Poplar St., New Orleans, La."

More sickness, suffering and serious complications come from diseased kidneys than from any other organic disturbance. As the function of the kidneys is to remove impurities, they are very susceptible to disease; any disorder affecting them is dangerous, as it causes impure matter to be retained in the blood and affects the whole system, causing backache, headache, dizziness and often convulsions. Keep the kidneys in healthy working order and avoid these troubles.

Warner's Safe Cure is an absolutely safe and permanent remedy for all diseases of the kidneys, liver and bladder. It is made from the fresh pices of plants and medicinal roots, gathered at the proper season in various aguarters of the globe. Men ekilled in botany and che mistry compound it. Put up in

MY TREATMENT AND DIAGNOSIS

I do not treat symptoms. I treat and cure the ailment behind the symptoms. If the case presents even the slightest feature upon which I have a doubt, or if I recognise incurable complications, I positively refuse treatment. I would rather give up my practice than indulge in either guesswork or make-believe cures. I have devoted years of earnest and conscientious endeavor to the unravelment of some of the most perplexing problems that ever confronted the profession, and believe that I have attained the limit of medical possibilities in my particular branch of practice. I have brought to light the true nature of men's ailments and the causes of the symptoms they present. In addition I have by the scientific blending of drugs produced remedies that meet every condition that it seems possible to cure. There is no cause to hesitate. A Thorough and Permanent Cure For Every Ailing Man

Whose Case I Undertake for Treatment, and Not a Dollar Need Be Paid Until You Are Well.

Could Any Offer Be Fairer?

No man could make a fairer or more straightforward proposition than that. I make this offer because I KNOW that my methods will cure any case that I accept for treatment. Under no circumstances do I ever attempt to treat incurable cases. If I attempt to treat your case, therefore, depend upon it that I will cure you. If alling you can depend upon it that the service I offer you is the service you need and is service such as can be rendered by no other physician.

Maybe you are one of the large number of men who think their cases are incurable. Perhaps your own doctor has told you you could not be cured; but, remember, that is only because he did not understand your allment and could not cure you. It did not mean that you could not get help from an expert or experienced specialist.

I Cure to Stay Cured by a method that involves no painful processes. No other physician employs a like method, and so thorough is my work that there need not be the slightest fear of a relapse into the old condition. It is not a question of whether you can be cured, but whether you will be cured. Don't wait until it is too late. My method is perfect and quick. The cure is absolutely certain. I especially solicit those cases where many so-called treatments have failed—or where money has been wasted on electric belts and other appliances.

Men's Ailments My Specialty

I have limited my specialty in practice to only a few of the more important aliments so that I could KNOW these thoroughly. My experience along this one path for 25 years qualifies me to say positively that such troubles as Varicose Veins, Specific Blood Poison, Contracted Aliments, Obstructions can be cured perfectly—so as to stay cured. Of course, I use different methods than the ordinary physician. Most of them are original with me and were devised for just such cases as the ordinary courses of treatment fall to reach.

CURE

CONTRACTED AILMENTS. Every contracted aliment I treat is thoroughly cured; my patients have no relapsee. When I pronounce a case cured there is not a particle of inflammation remaining and there is not the slightest danger that the disorder will return in its original form or work its way into the general system. No silment is so trivial as to warrant uncertain methods of treatment, and I especially solidit those cases that other doctors have been unable to cure.

OBSTRUCTIONS. My treatment is absolutely painless, and perfect results can be depended upsa in every instance. do no cutting or dilating whatever.
