EL PASO, Tex., March 15 .- Assurance of the safety of all Americans now confined in Mexican prisons is given in an official statement issued

at Juarez tonight.

Americans now in custody will be given fair trials, but hereafter all insurrectes, whether citizens of the United States or not, may be subject to the death penalty under summary military procedure.

The statement from the Mexican officials was issued relative to the IT foreigners who are now imprisoned in

Colonel Cuellar, in command of Casas Grandes, is suffering from wounds, and as soon as he is able to move, the prisoners will be marched 170 miles to Chihushua to face the civil court. The two other foreigners are European "soldiers of fortune," who have fought in Central American revolutions.

Fair Trial Is Promised.

The men are confined in cells in the adobe prison and are under guard of Mexican soldiers. Their rations consist of such as can be spared them from the military stores, for the town, about 150 miles south of El Paso, has had no food supplies since March 6, when the battle was fought in which the insur-

Colonel Manuel Tamborel military commander at Juarez, said:

'The Americans have not been shot, and will not be. Colonel Cuellar has an reported to us here, and to Mexico City. It is the intention to give the men a fair trial. This does not mean the same consideration will be given foreigners bereafter captured.'

Colonel Tamborel at first said he had been advised that to foreigners had been advised that to foreigners had been aptured, but later said the report was incorrect. He said he had not received the names of the Americans.

600 Americans Join Rebels.

It is said the cilizens of the United States now fighting in the insurrecto ranks number 500. The largest force is with Captain Oscar G. Creighton, who has been active in blowing up railroad bridges. Government officials received orders long to put a stop to the crussing of Americans from El Paso into the insurgent territory. Reports from the interior of the war zone" are that the insurrectos are concentrating at various points.

The Insurrecto forces were scattered after their Casas Grandes defeat and their inactivity for several days was due to reorganization. The general movement of the insurrectos is north-ward, presumably toward Juarez.

Rebels Cupture Topia.

The town of Topia, where the Standard (ii) people have heavy hold-ings, has been captured by insurrectos, who say they will force the mining companies to feed them. The insurrectos have burned two more bridges on the Mexican Central Railroad. "Snuggling of arms and ammunition across the Mexican frontier from El Paso must cease."

The main purpose of the organization is to "commemorate each anniversary of the greatest epoch-making event in the history of the world—the discovery of America by Christopher Columbus, and to that end to direct the attention of the public to the daring and great courage of this staiwart mariner, whose discovery made possible the development of the American continents, advanced civilization and assisted humanity, throwing a new light into the darkness of the ages and opening a new avenue of opportunity for the whole world, furnishing liberty a new birth and overthrowing superstition and ignorance."

The association also proposes to circulate published accounts of the life of Columbus and the events preceding and following the discovery of America, so that "present and future generations may take therefrom an enduring example of fortitude under adversity, of manhood under trial, from this hardy

ELSIE JANIS, FAMOUS MUSICAL COMEDY STAR WHO CELE-BRATES 21ST BIRTHDAY, AND "MA" JANIS, RIDING IN AUTOMOBILE.

NEW YORK. March 15.—(Special.)—This is the day fixed by law for Elsie Janks to be grown up. It is her list birthday. Miss Janks had a long and profitable stage youth—which does not necessarily end with her coming of age.

There are vague hopes among her friends that Elsie may see fit to take legal advantage of the occasion in respect to Ma Janks. There never was such a Ma. With a frown like a Fift warelub, Ma Janks all these five years since Elsie bloomed upon Broadway as a star in "The Vanderblit Cup" has been sitting beside her dressing table, following her into the wings and taking her home under her wing after the show.

Elsie can be an unfilial insurrecto now if she wants to be but, she says, with a taunting grin, that she has been used to it for so long now that she likes it, and from now on she is going to get even by chaperoning Ma.

There was a birthday matinee party this afternoon at the Globe. Theater. There was only one note of sadness in it for Miss Janis' friends. For her best friend of all in her career. Charles B. Dillingham, is in the eighth week of his illness, and though he is rapidly recovering, he was not well enough to be out.

Before the matinee Miss Janis gave a luncheon to 21 guests (including Ma) in their apartments in Gramercy Square.

"With reference to our relations with the United States, I firmly believe in the loyalty of the American Govern-ment and I am convinced the assum-bling of the American troops on the frontier has as its object only a friend-ly manifestation toward Mexico, which it highly appreciates, for besides in-suring neutrality, it represents considsuring neutrality, it represents considerable help in putting down the re-

bellion.

The talk of an alliance on the part of Mexico and Japan as opposed to the United States is simply absurd. It has doubtless resulted from the fact that there is an old agreement whereby in 1908 Japanese citizens were allowed to land in Mexico for agricultural work.

The speaker concluded:

"At the present moment it is difficult to say what next Spring will bring forth. We are pursuing three contradictory and mutually exclusive policies in the Near, Middle and Far East. We are afraid of German invasion more than ever. We are hopelessly stranded in the Far East, and we have lost sight of the Near East where critical events are preparing. Apparently Russian diplomacy has sunk to the old setting which led to the Russo-Japanese War."

Prather even took possession of a shooting gallery just off of Burnside street, had his own way around the place till he became tired, and moved on along Third street to Washington. The men who were following him saw Councilman Belding and called his attention to Prather. Prather was creling around a man and his wife when the Councilman gave him a push that landed him in the street and then seizing him by the collar, marched him to the police station.

HOQUIAM'S MAYOR PRUNES

He Would Cut City Employes' Pay and Abolish Several Offices.

HOQUIAM. Wash., March 15.—(Special.)—Mayor Moraunt at the Council meeting tonight demanded a reduction of the city expenses by a sweeping out in the salaries of city employes, and in a communication recommended that this retrenchment include the elimination of several offices, including the garbage commissioner and the policeman in East Hoquiam. The saving, according to the Mayor's plan, would be about \$9000 a year, and would bring the city expenses down to a point where they would be covered by revenues.

Negotiations are now under way between the city and a bonding company for an issue of \$150.000 in bonds to cover warrant indebtedness, and an election is to be held at an early date to vote this amount of bonds.
