

Extra Range Special!

One of our great Steel Ranges Delivered to your home on these easy terms—

Pay 1 Down, a Week

this is all

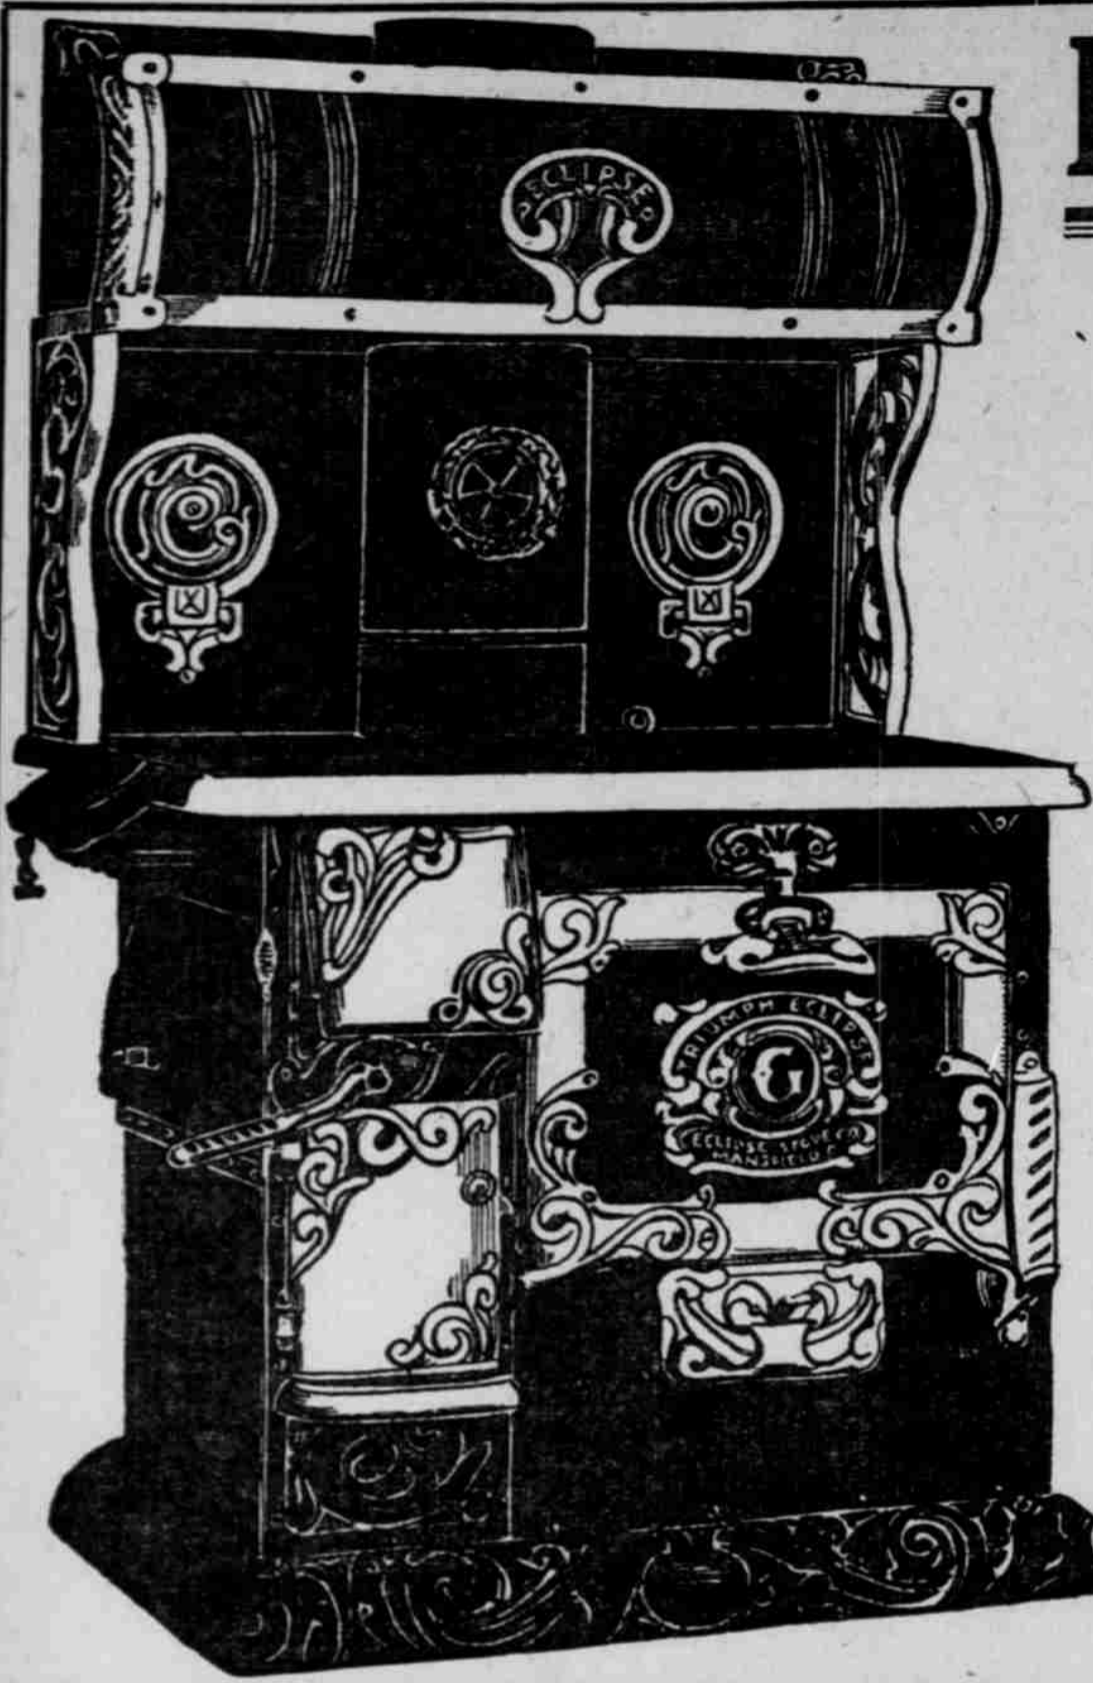

and the 54 Piece Dinner Set Free!

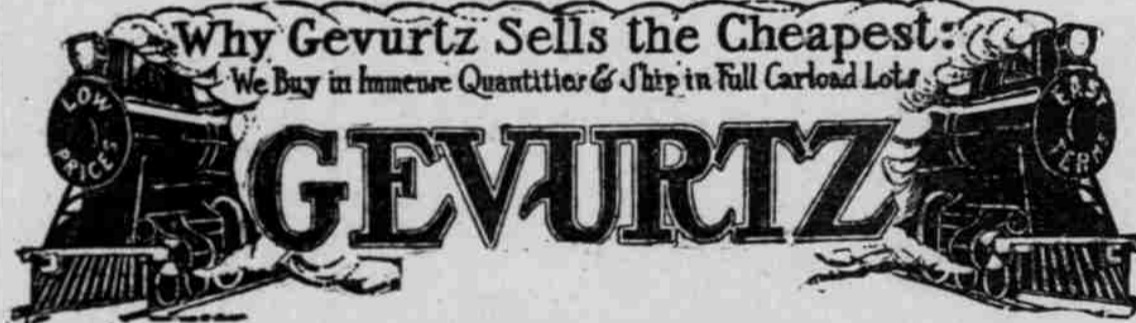

In addition to our easy terms of a DOLLAR DOWN and a DOLLAR A WEEK, we make a further inducement to leave your order NOW! With each range sold we are enabled to give a fine 54-piece Dinner Set in handsome floral design or a plain white and gold. The range factory donates these for advertising purposes. These sets are in semi-porcelain, worth \$7.50.

Price of the Range \$40

Delivered to Your Home Free for Just One Dollar Down

There are no strings to this proposition—it is a bona fide offer. Your money back, too, if you are not satisfied.

Gevurtz & Son | Gevurtz Bros.
1st and Yamhill—2d and Yamhill | E. Burnside and Union Avenue

Where Else is it Possible to Obtain Such Easy Terms?

It should prove to you our great confidence in the range. We know you will be satisfied, and you'll hardly miss the small weekly payments.

POWER TO BE SOLD

High Tension Circuit to Aid Irrigation Pumping.

EXTENSIVE PLANS MADE

Portland Company to Make Large Expenditures, Following Buying of Properties at Hood River and Husum.

In connection with the purchase of the Hood River Power & Light Company at Hood River and the Husum Power Company at White Salmon the Pacific Power & Light Company of Portland announced yesterday its intention of expending \$1,500,000 in the development of a distributive system of electric power along the Columbia River for 250 miles. The Hood River plant will be increased from 350 to 3000 horse-power and the White Salmon plant will be enlarged. A cable will cross the Columbia River connecting the two properties. Material has been ordered for a high-tension line between Hood River and The Dalles, thereby connecting Hood River, Mosier, White Salmon and The Dalles in one circuit, and with the development of both the White Salmon and Hood River plants this will give ample power. Surveys have been started and a high-tension line will be built this summer from The Dalles to Umatilla, 121 miles. The line will cross the Columbia to Luson and extend up the Columbia to Kennewick, where it will meet the new transmission line just completed from Walla Walla to Kennewick, and from Kennewick it will go to Priest Rapids, thus connecting all of the company's properties and giving abundant power for pumping for irrigation and for lighting and commercial use. The high-tension distributing lines will represent an expenditure of \$500,000, while the increased power development at White River, Hood River and White Salmon probably will represent another \$500,000. Engineers are making estimates of White Salmon of the maximum power available and it is believed that 10,000 horsepower can be added to the present amount in use between the two towns of Hood River and White Salmon. The building of the cable across the river and the high-tension line to The Dalles, a distance of 21 miles, will create sufficient power, with all plants working, to meet all of the demands of the neighborhood. It is part of the plans of the company to furnish power for irrigation pumping. The building of the line to Umatilla, Luson and Kennewick and finally to Priest Rapids will give the company one of the most extensive electric plants and long-distance lines in the West. "These plans," said President Talbot of the Pacific Power & Light Company, "do not include our heavier plans for 1912. We are rather proud to be able to get the money at this time of the year to do all these things and we know that it will be pleasing to the people who are hungering for power to pump water on irrigable lands where there are no gravity ditches."

available and it is believed that 10,000 horsepower can be added to the present amount in use between the two towns of Hood River and White Salmon. The building of the line to Umatilla, Luson and Kennewick and finally to Priest Rapids will give the company one of the most extensive electric plants and long-distance lines in the West.

Charging her husband with being responsible for the physical wreck of their 16-year-old son and of mistreating all the members of the family, Mrs. Julia E. Kolts has started suit in the Circuit Court for a decree of absolute divorce from Levi Kolts. According to the complaint which was filed yesterday, the husband has been in the habit for years of becoming intoxicated, and while in that state of attacking members of the family in a shameful manner.

DRIVER SCATTERS CROWD

Reckless Chauffeur Hurries on, After Looking Back Once. Death, or at least serious injury, was narrowly averted when a speeding chauffeur drove through a crowd at Sixth and Washington streets, Wednesday night, knocking down one aged man and driving men and women to cover. Then he put on more power and sped away before he could be intercepted. With nearly half of the two streets taken up by the construction of the Wilcox building, the corner of Sixth and Washington has become a hazardous place for pedestrians, especially as the adjoining blocks are among the busiest in the city. When the homeward-bound crowd was at its greatest, the unidentified driver went south on Sixth street, at high speed, and jammed into a huddle of pedestrians and vehicles. All fled to safety except H. H. Duff, an elderly man, who was thrown heavily against a wagon, receiving severe bruises and suffering the destruction of a suit of clothing. One man escaped being run over by jumping into another automobile. The driver looked backward for an instant, as there stood on his way. His number, taken by Detective Maher, was 233. It was found that the car belongs to M. Harde & Sons and a John Doe warrant was issued. Names of many witnesses were taken, and if the driver is found the prosecuting officers will press upon the court the necessity for a severe sentence. Cough Stop is sure. Plummer's, 250 Third street.

WIVES SEEK DIVORCES

MRS. JULIA E. KOLTS TELLS OF HUSBAND'S CRUELITIES.

Levi Kolts Accused of Beating Son to Extent That Latter Is Now Alleged Nervous Wreck.

Charging her husband with being responsible for the physical wreck of their 16-year-old son and of mistreating all the members of the family, Mrs. Julia E. Kolts has started suit in the Circuit Court for a decree of absolute divorce from Levi Kolts. According to the complaint which was filed yesterday, the husband has been in the habit for years of becoming intoxicated, and while in that state of attacking members of the family in a shameful manner. Mrs. Kolts declares that her husband had kicked and beat her frequently, and on one or two occasions had knocked her down on the sidewalk. The young son, Arthur J. Kolts, she avers, was also an object of attack of the husband and father, having been so badly knocked around that he is now a nervous wreck, requiring constant attention day and night. A daughter, Ethel J. Kolts, has also been abused in a heartless manner, declares Mrs. Kolts. In addition to this treatment, the wife says that her husband has applied harsh epithets to each member of the family. The principals were married in Grand Rapids, Mich., May 23, 1892, and removed to Oregon a few years ago. Christina Shaw is another wife who has found married life anything but pleasant, according to a complaint filed in the Circuit Court yesterday. She is seeking a divorce on the grounds of cruel and inhuman treatment, alleging that her husband, Thomas Shaw, gets drunk, calls her bad names and accuses her of being unfaithful. They have a son, Albert Paul Shaw, 13 months old. The wife asks for the custody of the child and alimony of \$40 a month. The Shaws were married at Vancouver, Wash., July 30, 1906.

FILM FEATURES PLEASING

Star Theater Comedy Idea Meets With Popular Approval.

The Peoples Amusement Company scored a triumph Wednesday in its new policy of adding more pictures in the Arcade, Oh Joy, Odson and Tivoli Theaters. An especial hit was made at the Star Theater by a programme devoted entirely to comedy. There was no problem to solve, just plain merriment and one solid hour of mirth. "Comrades," "All for Love of a Lady" and "Actress and Singer" will be retained until Sunday. "A Problem of the Sigma" will be the pictorial feature Sunday and this will serve to introduce a vocal and instrumental trio from New York. "Oh, You Teacher," the comedy feature at the Arcade proved that it too realized that in days of sunshine people want to laugh. But four other films showed class all through. Sunday the Arcade management will spring an artistic vocal surprise. Another film has been added to the Arcade, making the show here 3000 feet long. The same is true of the Oh Joy Theater, where the "Code of Honor" and "Snake in the Grass" were the dramatic features, and "Max Feet Pinched" and "Whiffles Love Story" were the comedies. The Odson offered 3000 feet of good clear stuff. Four pictures were on at the Tivoli.

will assemble in annual convention next April. R. A. McConnell, Y. M. C. A. secretary; I. E. Gillett, C. A. Dickey, and J. C. Bonner, officers of the local association, have just returned from the State Students' Association Officers' conference, at Dallas, where they took a leading part in the deliberations of that body. In the absence of Government statistics showing the number of American factories which have established branches in Canada, the Montreal Star, after a careful canvass, reports a list of no less than 184, with a combined estimated capital of \$223,000,000.

Post Offered Corvallis Woman. OREGON AGRICULTURAL COLLEGE, Corvallis, Or., March 15.—(Special)—Miss Anna Bell Lee, secretary of the Y. W. C. A., has been offered the presidency of the International Student Volunteer Association, which

FROM SUNSHINE LAND

Cottolene is a vegetable product—without an ounce of hog fat in it. It is made from the choicest cotton oil, extracted from the seed picked on the fields of the Sunny South. It is a product of Nature, and makes wholesome, digestible, healthful food.

Cottolene is made in a cleanly matter—from Cottonfield to Kitchen human hands never touch the oil from which Cottolene is made. It is the one high-grade, absolutely pure and perfect cooking fat—and far preferable from a health and economic standpoint to lard, cooking butter or any other fat.

There is but one Cottolene—we make it. All good grocers sell it.

Made only by THE N. K. FAIRBANK COMPANY

"Nature's Gift from the Sunny South"

Your Hair Falling Out? Does not Color the Hair

If so, there are germs at work right at the roots of the hair. The best thing to do? Destroy these germs, every one of them. Any hair medicine made that will do this, and without the slightest harm to the hair? Yes; Ayer's Hair Vigor. You save what hair you have, and you get a new growth besides. Doubtful about this? Then let your doctor decide. Ask him what he thinks of Ayer's Hair Vigor. With his approval, you should feel perfectly safe.

J. C. Ayer Company, Lowell, Mass.
