STATE PRESENTS EVIDENCE

Prosecution Aims to Prove Crime Premeditated and Not Sudden Act of Maniac-Defense to Give Testimony Today.

Strang eactions on the part of William Jana Hassing, which prevented his appearing in court yesterday, where he was being tried for the murder in the first degree of his wife, Edith Hassing, first degree of his wire, Louis ransing, were diagnosed by Drs. S. E. Josephi and William House at noon yesterday as not being symptoms of insanity, but simply pretended symptoms of that malady. Hassing became more reasonable after this and was taken to the court-room at 2 o'clock, when the taking of evidence in his case began.

The evidence in his case began. The evidence yesterday presented by the sinte had a tendency to prove that Hassing had premeditated the crime. The state will test its case this morning at an early hour, and it is believed that the case will be in the hands of the jury tomorrow.

Hereditary Insanity Alleged.

Hassing's defense will be hereditary foranity. His attorneys say they have found that eight of his relatives, including his father and grandfather, in Denmark, whence Hassing emigrated, were insure. The attorneys for the defense also say that they will not try to refute the testimony presented by the state regarding the manner in which the deed was done, but will rely entirely upon the effort they will make to prove that the crime was the act of

The first witness placed on the stand The first witness placed on the stand was Mrs. Marie Hedman, wife of the dead woman's brother. Her testimony told of the circumstances that led up to the divorce suit brought by Mrs. Hasing and which brought about her murder. The Hassings had lived at the home of the Hedmans for some time previous to the divorce. Emil Hedman, the brother of the murdered woman, the brother of the murdered woman.

the brother of the murdered woman, also testified along the same line.

An important witness was Dr. E. B. McDaniel, who was called at the time of the shooting to examine the dead woman and her husband, when he was taken into custody. He testified that Hassing had expressed gratification for his having committed the crime, and that he explained that he had planned the dead before.

Deed Planned, Says State.

It was the effort of Deputy Attorneys Pitigerald and Fage, who are conducting the case for the state, to show that it was not due to a sudden fit of invanity which took possession of Hassing at the time of the shooting that prompted the deed, but that it was a premeditated

REFERENDUM IS OPPOSED

Educational Appropriations to Be Defended in Resolutions.

To express their views in oppositi to the plan to invoke the referendum upon the State University, State Agricul-tural College and normal school appro-priation bills, W. B. Ayer was requested printion bills. W. R. Ayer was requested yesterday by the promotion committee of the Fertland Commercial Club to prepare resolutions for presentation to the board of governors. It was argued that to invoke the referendum against these institutions would work irreparable harm and would be injecting into the state political system a damaging procedent. Battements made to the committee yesterday were that the plan to invoke the referendum had its start in McMinaville and that it is being supported for ulterfor purposes and not for the good of the state. The total of appropriations called for is SMMASC. It is argued that this sum can be raised by a levy of only 54-000 of a mill upon the taxable property of the state. It is also pointed out that the sum appropriated is only 2 per-

inunicipal purposes.

The Salem Board of Trade has passed resolutions similar to those suggested to the promotion committee.

the time of the shooting that prompted the deed, but that it was a premeditated crime.

John A. Pettis and James Hall testified to having seen the shooting, and to having seen a man stoop over the woman after she fell. Both are young men, and when they saw the crime committed they hurried away from the scene.

Hassing's actions prevented his being brought into court yesterday mowning. He refused to dress himself, raved some, and when an effort was made to force him to stand on his feet, he refused to bear his weight on his legs. At last it was determined by the District Attorney to have two responsible physicians examine the prisoner, and Dra. Josephi and House were called to the jail for this purvoes.

It was with some difficulty that the dectors managed to get Hissing to say anything. He would sit mute when a strange way. After looking the man over the physicians reported that is their opinion there was no evidence of insanity in the prisoner.

Rose City Park Delegation Appears Before Fire Committee of Excoutive Board-Kenton Presents Problem Also.

How to provide fire protection to Rose City Park, the Kenton district and other Portland suburbs is puzzling the fire committee of the Executive Board, the members of which held a meeting yesterday afternoon and were con-fronted by a delegation from Rose City Park clampting for relief. Chairman Park clamoring for relief. Chairman O'Shea declared that the committee would try to do something, but cited the fact that the Council had granted only \$3000 for this work, whereas five times that amount is needed to build a house, install apparatus and pay the firemen's

"People are wild over the high taxes right now, and are blaming Mayor Simon for it," said Mr. O'Shea. "What would they say if we had the funds necessary to install ample apparatus in this city wherever it is required for protection? It would take a million deliars a year to provide it. We are dollars a year to provide it. We are anxious to afford relief, but what can we do with such small appropriations? We can only give a little help, but will do our best."

FIRE PROTECTION IS SOUGHT

Rose City Park Residents Want to

Secure Chemical Engine. Rose City Park wants fire protection and at the meeting of the league Wednesday night it was voted to ask the city to provide for a chemical fire engine for the present. It was the sentiment of the meeting that until sentiment of the meeting that until larger water mains are laid a chemical engine will-be better than a steam fire engine. A special committee was appointed to urge that such engine be provided. The city will be asked to purchase ground for the engine hospital that the property owners on Sandy boulevard are paying their assessment for the widening of the street, and that the prospects are good that Sandy boulevard may be paved this year. It was reported that plans are being prepared for an eight-room reinforced concrete schoolhouse to be built this year.
