# CHINA TO ACCEDE TO CZAR'S DEMAND

Pekin Foreign Office Notifies Russia It Will Acquiesce Today.

NO ALTERNATIVE IS LEFT

Orientals Are Not Prepared to Antagonize European Power-Japs' Attitude of Aloofness Looked Upon With Interest.

PEKIN, March 25.—China is not pre-pared to antagonize Russia completely, and as a result of prolonged confer-ences the Chinese Foreign Office today assured the Russian minister, M. Kor-ostoveta, that China would acquiesce unreservedly on Monday to the de-mands made in the Russian ultimatum concerning the provisions of the treaty of 1881. Russia insisted upon an an-swor before Tuesday.

It is generally considered that there was no alternative course, in view of China's utter unpreparedness for war.

China's utter unpreparedness for war.

Intense interest is being manifested in the attitude of Japan, which is obviously holding entirely aloof, although more powerful than ever at Pekin. While the issues between China and Russia have been almost obliterated by the recent series of ultimatums, and theoretically insufficient cause for oc-cupation exists, Russia apparently fears that she could obtain only paper promisses which the Chinese would not ob-serve unless intimidated. Russians here point out that they have less now in the way of concessions from China than when the treaty was signed.

### Russia Is Ridiculed.

Some sections of the legation quarter ridicule Russia for not following in the first instance the recent example set by Great Britain in occupying territory and awaiting Chinese readiness to discuss the contested points. But it is recognized that Russia by falling to do this, has shown that she does not possess aggressive designs.

The Chinese newspapers which are

The Chinese newspapers, which are utterly ignorant of foreign affairs, are hostile to Great Britain, which they accuse of beginning the present land grab, and they prophesy that both Japan and France will not be long in following suit.

### Transportation Is Refused.

Reports from Harbin say the Russian railway has refused to transport several carloads of arms and amminition destined for Chinese marrisons on the frontier. From elsewhere in Manchuria come indications of Japanese readiness to invest South Manchuria, should Russia in the north assume a

serious aspect.

In a recent issue the Pekin Daily News, in an editorial evidently inspired by the Chinese foreign board, declared that China would not submit to the so-called "aggressions of vari-ous powers, and that she would not sign away ber national rights, which must be taken from her."
Whether this was only a threat in-tended to assist China's diplomacy, to-morrow should show.

Disregarding the orders of his physicians, Mr. Johnson insisted yesterday upon a number of his friends being admitted to chat with him, and he caused his nurses to prop him up in a big chair, that he might talk more freely.
