### DISTRICT NEEDS RELIEF

#### OFFICIALS PLAN FIRE PROTECTION IN SUBURBS.

Chief Campbell and Executive Board Visit Kenton and Rose City Park.

In an effort to arrange some means for furnishing at least temporary fire-protection, members of the fire committee of the Executive Board and Chief Campbell yesterday visited Kenton and Rose City Park districts. There is but \$2000 in appropriations for each place, and it is difficult for the officials to distribute these sums so they will provide anything like adequate relief.

At Rose City Park the officials looked over several pieces of ground, secured terms, and have taken the subject under advisement as to what action they will take. It is probable that one or two lots will be purchased in the vicinity of East Fifty-ninth street and the Sandy road, and that a temporary building will be constructed and a hand hosecart and chemical apparatus installed. This would be replaced when possible with a modern engine house and paid companies.

Rose City Park is now without any fire protection, except what is afforded by the companies at Mount Tabor, more than one mile distant, in an entirely different section, and it is difficult for the apparatus to make this long run and be of service. There is very little water for use and the situation is bad.

Mr. O'Shea and Chief Campbell visited Kenton in the morning and inspected that district, which is in great need of protection. There are numerous large manufacturing establishments located there, and beyond what equipment the management of these concerns have, there is none at hand to fight fires, should any occur.

### NEWSBOY FAKERS CAUGHT

#### Sellers of False "Midnight Extras" Haled Into Court.

Selling fake "midnight extras" by half-grown boys, a practice which has followed every sensational news story for many months, received a blow yesterday in Municipal Court when a fine of \$10 was assessed against A. R. Curtis, a negro, and Harry Herman, a white boy, for a bench warrant.

When the family of Patrolman Burke, living at 1117 East Madison street, was aroused late Saturday night by cries of "Extra, all about the horrible explosion."

Burke sallied forth and caught two of the culprits. He found that they were carrying great loads of the regular edition of an afternoon paper.

An organized gang of young men is said to exist for the sale of the fake extras whenever the public mind is aroused over some sensation in the news. They choose some outlying residence section and bring the householders from their beds in the belief that some stupendous calamity has happened. The perpetrators of the fraud realize large sums by the trick. An effort to break up the business will be made by the police.

Is there anything in all this world that is of more importance to you than good digestion? Food must be eaten to sustain life and must be digested and converted into blood. When the digestion fails the whole body suffers. Chamberlain's Tablets are a rational and reliable cure for indigestion. They increase the flow of bile, purify the blood, strengthen the stomach, and tone up the whole digestive apparatus to a natural and healthy action. For sale by all dealers.

### POLICE EYE SPEEDERS

#### CHIEF COX WOULD DOUBLE MOTORCYCLE SQUAD.

Plan is to Have Four Patrolmen on Bicycles Watching Automobile Enthusiasts.

Redoubled stringency in the regulation of "speed maniacs" during the Summer is forecast in a regulation made by the Chief of Police yesterday for the purchase of two motorcycles in addition to the two now in service. At the same time, request was made for the purchase of an automobile, for which purpose \$1000 was allowed in the annual estimates. This sum, added to an allowance to be made by turning in the old machine now owned by the department, is expected to furnish the police with a car suitable for the emergency service for which it is intended.

When the two motorcycles are received, four patrolmen will be kept constantly at work checking the tide of automobiles and making arrests of violators of the regulations. The department is determined that infractions of the laws governing the use of streets by automobiles shall be observed, and has the support of the better element among automobile drivers.

The Automobile Club has even discussed the advisability of employing one or more special officers at its own expense to assist the regular policemen. Evidence that the efforts of the police department will be seconded by Municipal Judge Taxwell is seen in his having given his first rockpile sentence for an offense of this nature, last Saturday.

Prior to a year ago, automobile driving was regulated in a haphazard fashion. With the introduction of the use of motorcycles a radical change took place.

In addition to regulating automobile traffic, the machines will be used in answering emergency calls and in serving papers in remote parts of the city.
