LOST LOST LOST

Lost forever to the homeseeker living within the boundaries of the United States the CHANCE to buy good, loamy, silty soil, the finest farming land that will produce a variety of cereal, all fruits and vegetables that will grow in good silty soil in a climate like California. Land that is free from alkali and adobe that will produce ALFALFA and ALFALFA is GONE, GONE FOREVER as far as the United States is concerned. Would you like to find an opportunity to purchase that kind of land at prices like you paid for your land a few years ago, say $2.50 per acre? Wouldn't it be profitable to you to sell your land that you are offered $200 per acre for and invest your money in better land, in a better climate, land that will produce a bigger crop with less work and twice as often with cereals that you can sell for a higher price, and locate in Sonora, the California of Mexico, 70 miles from the International Line of the United States. J. N. McPATE has 26,200 acres of that kind of land for sale at $2.50 per acre, with plenty of water and on the railroad. Finest opportunity for promoter, colonizer or party wanting big ranch. Fullest investigation courted. Address J. N. McPATE, Nogales, Arizona.
